

# 2nd Quarter FY 2022 Earnings Presentation

November 3, 2021

# Non-GAAP Financial Measures

We present Non-GAAP financial measures which are derived from the statements of operations, cash flow and balance sheets of DXC. These Non-GAAP financial measures include earnings before interest and taxes ("EBIT"), adjusted EBIT, Non-GAAP income from continuing operations before income taxes, Non-GAAP net income attributable to DXC and Non-GAAP basic and diluted EPS, organic revenue growth, free cash flow, Non-GAAP cost of services, Non-GAAP SG&A expense, Non-GAAP depreciation and amortization, and Non-GAAP other income.

We believe EBIT, adjusted EBIT, adjusted EBIT margin, Non-GAAP income before income taxes, Non-GAAP net income, Non-GAAP net income attributable to DXC, Non-GAAP basic and diluted EPS provide investors with useful supplemental information about our operating performance after excluding certain categories of expenses.

We believe organic revenue growth provides investors with useful supplemental information about our revenues after excluding the effect of currency exchange rate fluctuations for currencies other than U.S. dollars in the periods presented, and impact of acquisitions and divestitures. See below for a description of the methodology we use to present organic revenue growth.

One category of expenses excluded from adjusted EBIT, Non-GAAP income from continuing operations before tax, Non-GAAP net income and Non-GAAP EPS, incremental amortization of intangible assets acquired through business combinations, may result in a significant difference in period over period amortization expense on a GAAP basis. We exclude amortization of certain acquired intangible assets as these non-cash amounts are inconsistent in amount and frequency and are significantly impacted by the timing and/or size of acquisitions. Although DXC management excludes amortization of acquired intangible assets, primarily customer-related intangible assets, from its Non-GAAP expenses, we believe that it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and support revenue generation. Any future transactions may result in a change to the acquired intangible asset balances and associated amortization expense.

Another category of expenses excluded from adjusted EBIT, Non-GAAP income from continuing operations before tax, Non-GAAP net income and Non-GAAP EPS, impairment losses, may result in a significant difference in period over period expense on a GAAP basis. We exclude impairment losses as these non-cash amounts, generally an acceleration of what would be multiple periods of expense, have not occurred frequently. Further assets such as goodwill may be significantly impacted by market conditions outside of management's control.

There are limitations to the use of the Non-GAAP financial measures presented in this report. One of the limitations is that they do not reflect complete financial results. We compensate for this limitation by providing a reconciliation between our Non-GAAP financial measures and the respective most directly comparable financial measure calculated and presented in accordance with GAAP. Additionally, other companies, including companies in our industry, may calculate Non-GAAP financial measures differently than we do, limiting the usefulness of those measures for comparative purposes between companies.

Selected references are made to revenues on an "organic basis" so that certain financial results can be viewed without the impact of fluctuations in foreign currency rates and without the impacts of acquisitions and divestitures from "organic basis" financial results, thereby providing comparisons of operating performance from period to period of the business that we have owned during all periods presented. Organic revenue growth is calculated by dividing the year over year change in GAAP revenues attributed to organic growth by the GAAP revenues reported in the prior comparable period. Revenues on an "organic basis" are Non-GAAP financial measures calculated by translating current period activity into U.S. dollars using the comparable prior period's currency conversion rates after excluding the impact of acquisitions and divestitures on revenue in both periods.

DXC does not provide a reconciliation of Non-GAAP financial measures that it discusses as part of its guidance because certain significant information required for such reconciliation is not available without unreasonable efforts or at all, including, most notably, the impact of significant non-recurring items. Without this information, DXC does not believe that a reconciliation would be meaningful. Explanations of Non-GAAP financial measures used herein are provided later in this document.

# Forward-Looking Statements

All statements in this presentation that do not directly and exclusively relate to historical facts constitute “forward-looking statements.” These statements represent current expectations and beliefs, and no assurance can be given that the results described in such statements will be achieved. Such statements are subject to numerous assumptions, risks, uncertainties and other factors that could cause actual results to differ materially from those described in such statements, many of which are outside of our control. Furthermore, many of these risks and uncertainties are currently amplified by and may continue to be amplified by or may, in the future, be amplified by, the coronavirus disease 2019 (“COVID-19”) pandemic and the impact of varying private and governmental responses that affect our customers, employees, vendors and the economies and communities where they operate. For a written description of these factors, see the section titled “Risk Factors” in DXC’s Annual Report on Form 10-K for the fiscal year ended March 31, 2021, and any updating information in subsequent SEC filings, including DXC’s upcoming Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2021.

No assurance can be given that any goal or plan set forth in any forward-looking statement can or will be achieved, and readers are cautioned not to place undue reliance on such statements which speak only as of the date they are made. We do not undertake any obligation to update or release any revisions to any forward-looking statement or to report any events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events except as required by law.

# Transformation Journey – Building the Foundation in FY22

	Inspire and Take Care of Our Colleagues	Focus on Customers	Optimize Costs	Seize the Market	Financial Foundation
Goals	 <p><b>Increase Employee Engagement:</b> Continue to attract and retain talent</p>	 <p><b>Stabilize Year over Year Organic Revenue Growth</b></p>	 <p><b>Expand Adjusted EBIT Margin</b></p>	 <p><b>Book-to-Bill:</b> BtB of over 1.0x with mix of renewals and new work</p>	 <p><b>Financial Foundation:</b> Increase discipline, remediate the material weakness, and improve cash flow/earnings power</p>

# Transformation Journey

**Inspire and  
Take Care of  
Our Colleagues**

## **Proof points:**

- Implementing a people first strategy
- September employee engagement survey showed higher participation along with improved and stable scores
- Hired & onboarded colleagues to offset attrition / service increased demand
- Key hiring advantage: implemented and are running a virtual first model
- Hiring is a major focus to capture more open demand and project work

# Transformation Journey

## Focus on Customers

### Proof points:

- Key Metric of Customer Satisfaction - Net Promoter Score
- 12-Month rolling average is now at the mid-point of the best practice range of 20 to 30. Up from 18 at our June Investor Day
- Customer strategy of delivering GIS services to build trusted relationships
- Trusted relationships create increased opportunities for GBS services

# Transformation Journey

## Optimize Costs

### Proof points:

- Operational work is driving the increased margin
  - Motivating our colleagues and hiring new talent
  - Moving to a virtual first model
  - Making service delivery more efficient and implementing better IT tools, and
  - Reducing real estate, emphasizes our commitment to a virtual first model and reduces carbon emissions
- Continued execution gives confidence to increase FY22 margin & EPS guidance

# Transformation Journey

**Seize the  
Market**

## Proof points:

- Book-to-bill of 0.91x in Q2 and over 1.0 Year-To-Date
- 59% of Q2 FY22 bookings were new work and 41% renewals
- Expect Q3 book to bill to be over 1.0
- Platinum customer channel showing evidence of success - highlighted by Luxoft enabling growth of Analytics and Engineering
- Analytics and Engineering grew 17.3% in Q2, driving GBS business segment growth

# Building the Financial Foundation

1

## Financial Discipline

- True earnings power
- Disciplined finance execution
- Remediate material weakness

2

## Strengthen Balance Sheet

- Maintain investment grade credit profile
- Achieved targeted debt level
- Refinance debt/reduce interest expense

3

## Cash Generation

- Improve cash flow generation
- Portfolio shaping
- Establish capital budgeting process

4

## Restructuring & TSI

- Reduce expense to ~\$550M in FY22 and ~\$100M in FY24
- Accelerate virtual facilities model

5

## Capital Allocation

- Investing in our people and offerings
- Disciplined capital allocation program

# Evidence We Are Building Our Financial Foundation

**Total Debt (\$M)**

**Net Interest (\$M)**

**Restructuring/Transaction, Separation & Integration (\$M)**

**Lease Cash Outflow (\$M)**

Q1 FY22 Debt paydown of \$303M plus Lease Cash Outflow of \$191M totals \$494M

# Debt Maturities Post Refinancing

Debt Maturity Schedule (\$M)

- New financing: \$2.9 billion at 1.3% rate, retired debt: \$2.5 billion at 3.8% rate w/ \$0.4 billion financing cost
- Refinancing benefits:
  - Weighted average life extended from 2.8 years to 4.7 years with no notes maturing until FY26
  - Largest maturity tower reduced from \$1.2 billion to \$0.9 billion
  - Reduced effective interest rate to 1.8%, lowering interest expense \$50 million annually
  - Improved Fx exposure alignment closer to business performance
- Revolver refinanced with right sized available capacity, based on strength of our balance sheet
