

Teleflex to focus on Arrow® advanced interventional access solutions at European Vascular Course

March 5, 2015

WAYNE, Pa.--(BUSINESS WIRE)--Mar. 5, 2015-- Teleflex Incorporated (NYSE: TFX), a leading global provider of medical devices for critical care, urology and surgery, will showcase its range of interventional products at the 19th European Vascular Course in Maastricht on March 8 - 10, 2015.

During the event, Teleflex will highlight its Arrow® chronic hemodialysis catheter portfolio, which offers both split-tip and step-tip catheters for both retrograde and antegrade insertion techniques.

The Arrow® NextStep® Retrograde and Antegrade product family consists of step-tip catheters that can easily be inserted and tunneled using retrograde or antegrade technique, respectively. These step-tip catheters also have the advantage of split-tip high flow characteristics. The step-tip on these catheters is designed for smooth, over-the-wire transitions during insertions and exchanges. The Arrow® Cannon® II Plus and Arrow Edge® products are split-tip catheters that can be tunneled using retrograde or antegrade technique, respectively.

Teleflex will also highlight the Arrow® GPSCath® Balloon Dilatation Catheter, which features VisioValve™ technology. The Arrow® GPSCath® Catheter is a specialty two-in-one device that is indicated for percutaneous transluminal angioplasty in the peripheral vasculature, including iliac, femoral, popliteal, infrapopliteal and renal arteries.
