

## Teleflex to Present at the 20th European Hematology Association (EHA) Congress

June 9, 2015

WAYNE, Pa.--(BUSINESS WIRE)--Jun. 9, 2015-- Teleflex Incorporated (NYSE: TFX), a leading global provider of medical devices for critical care, urology and surgery, will showcase a selection of advanced interventional access solutions, including the Arrow® OnControl® Powered Bone Marrow Aspiration & Biopsy System, at the 20<sup>th</sup> European Hematology Association (EHA) in Vienna, Austria, on June 11-14, 2015.

At booth no. 211, Teleflex will present a selection of technologically advanced products for minimally invasive interventional applications from its Arrow® product line that are designed to enhance performance in interventional access and peripheral vascular procedures.

Teleflex's focus will be on the Arrow® OnControl® Powered Bone Marrow Aspiration & Biopsy System. Using patented technology, the Arrow® OnControl® Powered System, supported by Teleflex's experienced clinical training staff, has successfully raised the standard for bone marrow biopsies and aspirations in leading cancer centers, while greatly improving the patient experience.

During the EHA, a Satellite Symposium is scheduled. Teleflex will host the session entitled "The multiple facets of the bone marrow biopsy: patient, provider, procedure, pain and pathology". Experts will discuss in particular the pain that biopsies can cause in patients, as well as the scientific background of the latest related technologies on the market. The session will be held on Thursday, June 11, from 8:00 - 10:00 a.m. in room Strauss 1.

Teleflex aims to offer patients and physicians the latest treatment options to save procedure steps, time and costs, in order to help enhance clinician efficiency and patient care.
