

## Teleflex to present at the ECIO (European Conference of Interventional Oncology)

April 21, 2014

WAYNE, Pa.--(BUSINESS WIRE)--Apr. 21, 2014-- **Teleflex Incorporated (NYSE: TFX), a leading global provider of medical devices for critical care and surgery, will showcase a wide array of products for minimally invasive interventional applications at the ECIO (European Conference of Interventional Oncology) in Berlin, Germany, on April 23-26, 2014. Since Vidacare is now part of Teleflex, this portfolio includes the OnControl® Powered Bone Access System.**

During the event, the Company will present a wide array of technologically advanced products for minimally invasive interventional applications from Arrow, such as peripherally inserted catheters, transradial artery access kits and highly kink-resistant sheath introducers.

Vidacare is the developer of a broad technology platform that is defining the field of intraosseous (inside the bone) medicine. Current applications include vascular access, emergency and disaster medicine, oncology and spinal surgery. The OnControl® Powered Bone Access System uses a patented handheld driver technology to provide interventional radiologists a fast, reliable solution for accessing dense and hard-to-reach bone lesions. The coaxial biopsy tray contains the instruments needed for multiple bone biopsies, from a single cortical penetration.

Teleflex aims to offer patients and physicians the latest treatment options to save time, costs and procedure steps, as this will help to enhance clinician efficiency and patient care.
