Teleflex Will Focus on New ‘Care at Home’ Intermittent Catheter Systems at 52nd Annual Scientific Meeting of the ISCOS (International Spinal Cord Society)

October 24, 2013

LIMERICK, Pa.--(BUSINESS WIRE)--Oct. 24, 2013-- Teleflex Incorporated (NYSE: TFX), a leading global provider of medical devices for critical care and surgery, will present its newly designed systems for intermittent catheterization at the 52nd Annual Scientific Meeting of the ISCOS (International Spinal Cord Society) in Istanbul, Turkey on October 28-30, 2013.

At the booth, the company will lay special focus upon the newly designed Liquick Pure® female and the SafetyCat Active® catheters. Featuring a fancy, yet functional packaging, easy handling and an Ergothan-tip, the short female catheter is designed to enhance modern women’s life styles.

The innovative SafetyCat Active® catheter is the first intermittent catheter system to be offered ready-to-use in a practical outer shell, providing more freedom, mobility and safety. The modern packaging has been designed to make the catheter as accessible as possible. The pre-coated safety catheter comes in a convenient protective sheath to allow for a completely non-touch catheterization. SafetyCat Active® is available in all sizes and lengths for women, men and children.

The company offers one of the broadest ranges of intermittent catheters in the industry, addressing the needs of acute and home care settings.
