

Teleflex Introduces Rusch® Airtraq™ Avant™ Video Laryngoscope System at EMS Today 201!

February 19, 2015

WAYNE, Pa.--(BUSINESS WIRE)--Feb. 19, 2015-- Teleflex Incorporated (NYSE: TFX), a leading global provider of medical devices for critical care and surgery, is committed to connecting emergency clinicians to technology in a way that improves clinical practice and patient outcomes. Teleflex will showcase its broad portfolio of products, including the Rusch® Airtraq™ Avant™ Video Laryngoscope System, at EMS Today 2015, Feb. 26-28, in Baltimore, MD.

“At Teleflex, we are dedicated to solving unmet clinical needs and delivering positive outcomes for clinicians and patients in the pre-hospital environment,” said Linda Beneze, President of the Teleflex Specialty Division. “Teleflex history is defined by practical innovation and the development of products designed to promote improved clinical practice and patient outcomes. We are excited to introduce the Rusch® Airtraq™ Avant™ Video Laryngoscope System. This product delivers confidence for easier intubations in critical care situations and we look forward to sharing the value of choosing Teleflex as a preferred partner with the pre-hospital care community.”

The following products from the EMS portfolio will be highlighted at EMS Today 2015:

- **Rusch® Airtraq™ Avant™ Video Laryngoscope System**

The Rusch® Airtraq™ Avant™ Video Laryngoscope System provides improved visibility for intubating pre-hospital patients where overcoming challenging patient positioning and difficult airways is vital. The system provides an affordable per-use option with single-use disposable blades. Simple to use and easy to learn, the addition of the snap-on video camera (sold separately) provides a rotating screen, recording capability, and multiple display options, including viewing via a smartphone.

- **LMA Supreme® Next Generation Airway for EMS**

When a patent airway can mean the difference between life and death, choose the LMA Supreme® Airway from Teleflex. The leading single-use, gastric access laryngeal mask airway with a built-in drain tube, the LMA Supreme® Airway is the airway of choice. You can depend on the LMA Supreme® Airway to fit properly and ventilate sufficiently due to its superior design and proven track record. It is simply our most advanced airway device for your airway needs.

- **Arrow® EZ-IO® Intraosseous Vascular Access System**

The Arrow® EZ-IO® Vascular Access System is a complete solution for rapid vascular access – whether you’re facing difficult vascular access challenges or need fast intraosseous access for critical situations and life-threatening emergencies. This system is designed to provide the medical professional rapid vascular access to the central circulation within seconds, delivering medications, intravenous fluids and blood products to adult and pediatric patients alike.

- **LMA® MAD Nasal™ Intranasal Mucosal Atomization Device**

When IV drug delivery is less than ideal the LMA® MAD Nasal™ Device can come to the rescue delivering safe, painless and rapidly effective treatment. No shot. No needle. No risk of needle stick injury.

Teleflex will also be hosting a Rescue Airway Challenge at Teleflex booth 713, allowing attendees to challenge their colleagues for the quickest successful insertion of the LMA Supreme® Airway. This challenge not only tests attendees’ knowledge, but allows for the clinical specialist team to conduct hands-on training for more familiarity with the supraglottic airway.
