

Teleflex to Focus on Arrow® Advanced Interventional Radiology Portfolio at EuroPCR

May 16, 2013

LIMERICK, Pa.--(BUSINESS WIRE)--May. 16, 2013-- Teleflex Incorporated (NYSE: TFX), a leading global provider of medical devices for critical care and surgery, will showcase its interventional radiology solutions at the European Association for Percutaneous Cardiovascular Interventions Course to be held in Paris, France on May 21-24, 2013

During the event, the Company will highlight its diversified range of products for interventional procedures such as transradial access kits, angiographic diagnostic catheters and cath lab focused kink-resistant sheath products. In addition, a range of innovative peripheral angioplasty catheters will be reviewed.

The Company will focus special attention on the unique GPSCath™ Balloon Dilatation Catheter, which is based on the use of the VisioValve™ technology. The GPSCath™ Catheter is a specialty two-in-one device that is intended for dialysis access and peripheral vascular interventions. It allows the physician to conduct angioplasty and inject fluid while maintaining catheter and guidewire position.

A "How To Treat" session is scheduled for Wednesday, May 22nd at 16:45h – 18:15h in EuroPCR Room 241. Prof. Marc R. Sapoval of the Georges Pompidou European Hospital in Paris, Prof. S. Qanadli of the University Hospital of Lausanne, Dr. M. DiPrimio of the Georges Pompidou European Hospital in Paris and Dr. V. Stratiev from Centre Cardiologique du Nord, Paris, will discuss and explore the possibilities of reducing contrast volume and fluoroscopy time with the GPSCath™ balloon dilatation catheter during complex percutaneous transluminal angioplasty procedures.
