

Teleflex Signs New Agreement with Amerinet for Manual Ligation Products

July 23, 2014

WAYNE, Pa.--(BUSINESS WIRE)--Jul. 23, 2014-- Teleflex Incorporated (NYSE: TFX), a leading global provider of medical devices for critical care and surgery, has announced a new group purchasing agreement with Amerinet covering Teleflex Incorporated's Weck[®] Brand of Ligation Products. The agreement began July 1, 2014 and extends through July 31, 2016.

For nearly 50 years, surgeons have relied on Weck Ligation Clips from Teleflex. The ligating clip and applier combination is a system designed to work together, with the applier specifically and meticulously designed to apply a specific clip in a precise manner to provide secure, reliable ligation of vessels in critical surgeries. Weck Metal Ligating Clips are made with heart-shaped wire and engineered to give each clip a firm grip on blood vessels. The pre-formed clip allows for precise tip-to-tip closure to fully engulf the vessel.

The Hem-o-lok[®] Polymer Locking Ligation System is designed to give surgeons confidence in clip security — secure in the applier, and locked on to the patient vessel. The unique polymer locking clip provides the assurance of secure “cold” ligation during critical nerve sparing prostatectomy procedures.

“Teleflex’s Surgical team has a long history of working closely with physicians to develop products that help to improve patient outcomes and enhance procedural efficiencies,” said John Tushar, President and General Manager, Surgical Division. “We’re pleased to provide Amerinet members the clinical and financial benefits of the complete Manual Ligation product line.”

About Amerinet

As a leading national healthcare solutions organization, Amerinet collaborates with acute and non-acute care providers to create and deliver unique solutions through performance improvement resources, guidance and ongoing support. With better product standardization and utilization, new financial tools beyond contracting and alliances that help lower costs, raise revenue and champion quality, Amerinet enriches healthcare delivery for its members and the communities they serve.
