

Teleflex Announces Receipt of Additional Approvals of Certificates to Foreign Governments from FDA

August 2, 2010

LIMERICK, Pa., Aug 04, 2010 (BUSINESS WIRE) --

Teleflex Incorporated (NYSE:TFX) today announced that it has received approval of substantially all requests of certificates to foreign governments ("CFG") from the FDA, totaling seventy-seven approvals out of eighty-five submitted requests.

Beginning in the third quarter of 2010, the Company began submitting requests for CFGs to the FDA for review. The Company believes that the FDA's approval of these CFGs is a clear indication that it has substantially corrected the quality system issues identified in the corporate warning letter and continues to anticipate receiving the FDA's approval with respect to most of these requests in the third quarter of 2010.

While the Company continues to believe it has substantially remediated the issues raised in the corporate warning letter through the corrective actions taken to date, the corporate warning letter remains in place pending final resolution of all outstanding issues, which the Company is actively working with the FDA to resolve.

"With the receipt of these additional CFG approvals, we look forward to expanding the range of critical care products that we will be able to provide to customers in Latin America, Southern and Eastern Europe and the Middle East," stated Jeffrey P. Black, Chairman and Chief Executive Officer.

"Teleflex serves hospital customers in more than 140 countries with critical medical devices and our international customers and distribution channels will play an important role as we position the company for future growth."

About Teleflex Incorporated

Teleflex is a global provider of medical technology products that enable healthcare providers to improve patient outcomes, reduce infections and support patient and provider safety. Teleflex, which employs approximately 12,600 people worldwide, also has niche businesses that serve segments of the aerospace and commercial markets with specialty engineered products. Additional information about Teleflex can be obtained from the Company's website at www.teleflex.com.

Forward-Looking Statements

Any statements contained in this press release that do not describe historical facts may constitute forward-looking statements. Any forward-looking statements contained herein are based on our management's current beliefs and expectations, but are subject to a number of risks, uncertainties and changes in circumstances, which may cause actual results or company actions to differ materially from what is expressed or implied by these statements. These risks and uncertainties are identified and described in more detail in our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K.
