Teleflex Medical to Exhibit at Medical Design & Manufacturing East Trade Show

May 30, 2008

Global healthcare manufacturer part of industry's largest exhibition

RALEIGH, N.C.--(BUSINESS WIRE)--Teleflex Medical will exhibit at the Medical Design & Manufacturing East Trade Show (MD&M) in New York City, June 3 to 5, 2008. As part of this leading exhibition for medical manufacturing, the Teleflex Medical OEM business will display products in a wide variety of categories, such as custom extrusions, devices, introducer systems, advanced delivery systems, sutures, fibers and resins.

Teleflex Medical OEM, a preeminent global outsource provider, supports the industry's leading medical device manufacturers with a focus on custom devices, represented by the brand names of TFX OEM®, Beere®, Deknatel®, KMedic®, and SMD™. A sampling of the products on display at MD&M will include microcatheters and other delivery systems, absorbable and nonabsorbable sutures, and implants and instrumentation for cardiovascular and orthopedic procedures.

About Teleflex Medical OEM
