

Teleflex Receives FDA Clearance for ARROW® JACC with Chlorag+ard® Technology and Tunneler

October 10, 2016

WAYNE, Pa.--(BUSINESS WIRE)--Oct. 10, 2016-- Teleflex Incorporated (NYSE:TFX), a leading global provider of medical devices for critical care and surgery, has announced it has received FDA 510(k) clearance to market its Arrow® JACC with Chlorag+ard® Technology and TightTrack™ tunneler.

Arrow JACC with Chlorag+ard Technology is a long-term, tunneled, small french size antithrombogenic¹ and antimicrobial² central venous catheter designed to meet the needs of patients throughout their course of therapy or illness. The catheter is also designed for use with high-pressure injection for diagnostic studies. The Arrow JACC with Chlorag+ard Technology protects against catheter occlusion³, phlebitis⁴, and intimal hyperplasia⁴ for up to 30 days. The Arrow JACC with Chlorag+ard Technology will enable caregivers to effectively and economically preserve vessel access, and care for millions of end stage renal disease patients.

“At Teleflex, we are committed to providing the right line for the right patient at the right time™,” said Jay White, President of the Vascular Division. “We are proud to add the tunneled Arrow JACC to our line of vascular access products. By providing an antithrombogenic¹ and antimicrobial² catheter that protects against catheter occlusion³, we are offering a technology that no one else can. This is especially important in patients with end stage renal disease where vessel health and preservation is essential to provide a future dialysis vascular access⁵.”

About Teleflex Incorporated

Teleflex is a global provider of medical technologies designed to improve the health and quality of people's lives. We apply purpose driven innovation – a relentless pursuit of identifying unmet clinical needs – to benefit patients and healthcare providers. Our portfolio is diverse, with solutions in the fields of vascular and interventional access, surgical, anesthesia, cardiac care, urology, emergency medicine and respiratory care.
