## FIRST QUARTER 2023 COMPARED TO FOURTH QUARTER 2022

For the first quarter of 2023 , net income available to common stockholders was $\$ 34.3$ million, or $\$ 0.70$ per diluted share, compared to $\$ 212.9$ million, or $\$ 4.23$ per diluted share, for the fourth quarter of 2022.

Provision for credit losses for the first quarter of 2023 was $\$ 28.0$ million, compared to a $\$ 34.0$ million provision for credit losses for the fourth quarter of 2022 . The $\$ 28.0$ million provision for credit losses recorded in the first quarter of 2023 resulted primarily from increases in loans held for investment ("LHI"), excluding mortgage finance, net charge-offs, and criticized loans.

Net interest income was $\$ 235.3$ million for the first quarter of 2023 , compared to $\$ 247.6$ million for the fourth quarter of 2022 . The decrease in net interest income was primarily due to a decrease in total average earning assets and an increase in funding costs, partially offset by an increase in yields on average earning assets. Net interest margin for the first quarter of 2023 was $3.33 \%$, an increase of 7 basis points from the fourth quarter of 2022. LHI, excluding mortgage finance, yields increased 67 basis points from the fourth quarter of 2022 and LHI, mortgage finance yields decreased 53 basis points from the fourth quarter of 2022. Non-interest income for the first quarter of 2023 decreased $\$ 240.3$ million, compared to the fourth quarter of 2022, primarily due to the inclusion of a $\$ 248.5$ million gain recognized in the fourth quarter of 2022 on the sale of the Company's insurance premium finance subsidiary, partially offset by an increase in investment banking and trading income.

Non-interest expense for the first quarter of 2023 decreased $\$ 19.1$ million, or $9 \%$, compared to the fourth quarter of 2022, primarily due to decreases in occupancy expense, legal and professional expense and other non-interest expense, partially offset by an increase in salaries and benefits expense, primarily as a result of an increase in headcount and the effect of seasonal payroll expenses that peak in the first quarter. Fourth quarter 2022 expenses also included $\$ 13.0$ million in legal and professional expense related to the sale of the Company's insurance premium finance subsidiary, restructuring reserves of $\$ 9.8$ million, primarily related to occupancy expense, reflecting the expected costs of the continued implementation of the Company's target operating model and $\$ 8.0$ million in charitable contributions to the Texas Capital Bank Foundation recorded in other non-interest expense, all of which did not recur in the first quarter of 2023.

## FIRST QUARTER 2023 COMPARED TO FIRST QUARTER 2022

The first quarter of 2023 included a $\$ 28.0$ million provision for credit losses, resulting primarily from updated views on the downside risks to the economic forecast and increases in net charge-offs and criticized loans, compared to a $\$ 2.0$ million negative provision for credit losses for the first quarter of 2022.

Net interest income increased to $\$ 235.3$ million for the first quarter of 2023 , compared to $\$ 183.5$ million for the first quarter of 2022, primarily due to an increase in yields on average earning assets, partially offset by an increase in funding costs and a decrease in total average earning assets. Total cost of deposits increased 186 basis points compared to the first quarter of 2022.

Non-interest income for the first quarter of 2023 increased $\$ 17.1$ million, compared to the first quarter of 2022. The increase was primarily due to increases in investment banking and trading income and other non-interest income, partially offset by a decrease in brokered loan fees.

Non-interest expense for the first quarter of 2023 increased $\$ 40.9$ million, or $27 \%$, compared to the first quarter of 2022 primarily due to an increase in salaries and benefits expense, resulting from an increase in headcount as compared to the first quarter of 2022, as well as increases in marketing, legal and professional and communications and technology expenses.
