

HNI Corporation

Investor Presentation – March 2025

HNI

Forward-Looking Statements

This presentation contains "forward-looking" statements based on current expectations regarding future plans, events, outlook, objectives, financial performance, expectations for sales growth, and earnings per diluted share (GAAP and non-GAAP), including statements regarding the Corporation's expectations for net sales and EPS, future levels of demand, anticipated macroeconomic conditions, expected differences in seasonality and its results on the Corporation's results of operations, the anticipated benefits and cost synergies of the acquisition of Kimball International, and future levels of productivity.

Forward-looking statements can be identified by words including "expect," "believe," "anticipate," "estimate," "may," "will," "would," "could," "confident", or other similar words, phrases, or expressions. Forward-looking statements involve known and unknown risks and uncertainties, which may cause the Corporation's actual future results and performance to differ materially from expected results. Actual results could differ materially from those anticipated in the forward-looking statements and from historical results due to the risks and uncertainties described elsewhere in this release, including but not limited to: the Corporation's ultimate realization of the anticipated benefits of the acquisition of Kimball International; disruptions in the global supply chain; the effects of prolonged periods of inflation and rising interest rates; labor shortages; the levels of office furniture needs and housing starts; overall demand for the Corporation's products; general economic and market conditions in the United States and internationally; industry and competitive conditions; the consolidation and concentration of the Corporation's customers; the Corporation's reliance on its network of independent dealers; change in trade policy; changes in raw material, component, or commodity pricing; market acceptance and demand for the Corporation's new products; changing legal, regulatory, environmental, and healthcare conditions; the risks associated with international operations; the potential impact of product defects; the various restrictions on the Corporation's financing activities; an inability to protect the Corporation's intellectual property; cybersecurity threats, including those posed by potential ransomware attacks; impacts of tax legislation; and force majeure events outside the Corporation's control, including those that may result from the effects of climate change.

A description of these risks and additional risks can be found in the Corporation's annual and quarterly reports filed with the Securities and Exchange Commission on Forms 10-K and 10-Q. The Corporation assumes no obligation to update, amend, or clarify forward-looking statements, except as required by applicable law.

Investment Thesis

1 Margin Expansion

Focus on margin expansion in Workplace Furnishings. Strong progress through 2024, with our profit transformation plan, synergies, and productivity offering additional opportunity.

2 Organic Revenue Growth

Driving category expansion in Residential Building Products; positioned to benefit from long-term market fundamentals. Unmatched breadth/depth advantage as Workplace market evolves.

3 Earnings Visibility

KII synergies/WFs manufacturing network optimization and the ramp of new WFs facility in Mexico expected to yield total savings of \$80-85 million (\$45-50 million to benefit '25-'26).

4 Investment Opportunities

Unique investment opportunities to accelerate organic revenue growth and drive cost savings; M&A activity to augment organic growth efforts.

5 Financial Strength

Cash flow profile and balance sheet strength will support growth investment, dividend support, share repurchase, and M&A.

6 Seasoned Management

CEO Jeff Lorenger: 26 years with HNI, Executive Vice President and CFO V.P. Berger: 28 years with HNI; top five leaders with over 90 years of pertinent industry experience.

Company Overview

HNI Corporation is a manufacturer of workplace furnishings and residential building products. The company operates under two segments. The *workplace furnishings* segment is a leading designer and provider of commercial furnishings going to market under multiple unique brands. The *residential building products* segment is the nation's leading manufacturer and marketer of hearth products, which include a full array of gas, electric, wood, and pellet-burning fireplaces, inserts, stoves, facings, and accessories.

HNI Corporation At-A-Glance:

Ticker: HNI (NYSE)

Market Cap: ~\$2.04B (as of March 18, 2025)

Enterprise Value: ~\$2.36B (as of March 18, 2025)

TTM Revenue: \$2.53B*

TTM Non-GAAP EBITDA: \$322.7M*

2024 Cash Dividends: \$63.6MM

Five-Year Average Free Cash Flow: \$137M (>\$3.00/share)

Headquarters: Muscatine, Iowa

Manufacturing Facilities: United States, Mexico, and India

Profitable Growth Strategic Framework

While HNI's unique **Member-Owner culture** remains our foundation, our corporate-wide focus and members' efforts are centered on the following three pillars:

Customer 1st Mindset

- We are broadening our engagement in and influence of the customer buying journey.
- We are investing in data analytics, digital marketing, eCommerce capabilities, and market coverage.
- We are putting ourselves in our customers' shoes, deepening our understanding of what they are looking for, and organizing our efforts to best meet their needs.
- Our customer-first mindset will allow us to identify and take advantage of new and developing market dynamics.

Effortless Winning Experiences

- Buying office furniture and hearth products can be complicated and time-consuming.
- Based on our work to understand the customer more deeply, we are making things easier.
- We have the scale and resources to lead this charge, and we are incorporating technology and digital assets to help customers more quickly and effortlessly navigate the buying process.
- We are creating effortless winning experiences for those partnering with HNI.

Own Operational Excellence

- All HNI member-owners embrace the principles of lean manufacturing as we always look to find a better, more efficient, and more environmentally friendly approach.
- Members scrutinize every facet of our business to identify areas of waste and then refine and streamline our approach.
- You can see this "rapid continuous improvement" (RCI) in action from the manufacturing floor to the administrative offices to our customer interactions.
- This RCI approach benefits all of our stakeholders as we focus on delivering annual productivity and cost savings, allowing us to grow earnings and invest in our future.

Track Record

- Free cash flow consistently exceeds net income
- 69 years of continuous dividends
- Mid-teens median ROIC

Workplace Furnishings

Workplace Furnishings Overview

HNI is a leading global office furniture company

- Our brands are among the strongest, most widely known, and most well respected in our industry.
- The depth and breadth of our products, the scale and capability of our manufacturing, and the strength of our distribution enable us to provide the best office furniture solutions to meet the needs of every customer—from the largest multinational organizations to the local entrepreneur and consumer.

Brand positioning

- SMB (HON) – We are a leading open-line manufacturer of workplace furnishings for small and medium-sized businesses. Our product depth and breadth are unmatched in the space, while our products are among the most widely distributed through more than 600 dealers, distributors, and retailers nationwide.
- Contract (Allsteel, Gunlocke, and HBF) – Our Contract brands are “designed to do more.” We take a human-centric approach, offer versatile designs, and collaborate with our customers to transform workplaces to provide a rewarding experience for all customers, designers, and dealers involved.
- Kimball International (Kimball and National) – The 2023 addition of Kimball International’s brands to our line-up strengthens HNI’s Workplace Furnishings’ exposure to several important trends and markets—namely, ancillary products, attractive geographies, healthcare, and hospitality.

Diverse Revenue Streams

Workplace Furnishings

Workplace Furnishings
TTM Revenue Mix*

Workplace Furnishings Margin Expansion

- **KII Synergies** –total synergies are now expected to reach \$60 million by the end of 2026—more than double the initial projection provided when the deal was announced in mid-2023.
- **Hickory consolidation** – in May 2024, we announced plans to optimize our manufacturing network, which involves consolidating our Hickory, NC, manufacturing facility. Total savings of \$11 million by the end of 2026 are included in KII synergies.
- **Mexico facility ramp** – total net savings expected to reach \$20-\$25 million by the end of 2026.
- In total, savings are expected to reach \$80-\$85 million, as compared to 2022—with \$45-\$50 million of the benefit coming in 2025 and 2026...equal to \$0.70-\$0.80 of incremental EPS.

Key Margin Expansion Drivers

Secular Trends Drive Improving Demand Opportunity

Workplace Furnishings

Number of Employees

Spend per Employee

Refresh Rate

Long-Term =

Long-Term =

Long-Term +

++ Number of office workers continues to grow
-- Annual labor growth over next 10 years expected to moderate due to demographics and slowing population growth

== Spend per employee expected to remain flat; however, return-to-office momentum to fuel a return of normal demand drivers

++ New (often off-cycle) investments to support hybrid and upgrades to encourage on-site work
++ Consolidations and moves with tenant-favorable economics (increased rollover)

Office-Based Employment

Office Lease "Rollover" (% of Total Square Feet)

Source: Evercore

Macro Cyclical Drivers

Workplace Furnishings

- Approximately 4% of all office buildings are considered *nonviable**...with “occupancy” rates in these buildings as high as ~70%
- The commercial real estate sector is adjusting—2023 was the first year with more office *inventory removed* than was added; >1% of all space was removed in 2023 and 2024...trend is expected to continue
- Available *sublease* space trended higher beginning in 2015 and accelerated post-COVID. However, in four of the last five months of 2024, the amount of sublease space trended lower
- As the office market stabilizes, historically key indicators like *net absorption* will increasingly provide insight into future demand activity; absorption turned positive in Q4:24

*Office buildings located in suburban areas or central business districts, built 30 or more years ago, not renovated since 2000, and currently facing vacancy rates above 30%.

Industry Shipments vs. Industry Unit Volume

Workplace Furnishings

- The addition of Kimball International and the benefits of multiple pricing actions put in place to offset inflation helped HNI Workplace Furnishings revenue in 2024 reach the highest since 2008.
- However, industry shipments remain 12% below pre-COVID levels.
- And, importantly, **2024 industry volume** (using PPI to adjust for pricing actions/inflation) is now **~35% below 2019 levels.**

Residential Building Products

Residential Building Products

HNI is the world leader in hearth products

- Our hearth brands are the strongest, most respected in the industry and include a full array of gas, electric, wood, and biomass burning fireplaces, inserts, stoves, facings, and accessories.
- Our regional distribution infrastructure offers unparalleled customer service and helps us attract the best trade partners.
- We are also the leading installing-distributor of hearth products. Approximately 20-25% of our new home business flows through our vertically-integrated installing distribution model. Our vertical integration provides us with unmatched ability to service builders and drive category growth.

Cost structure adjusted for current environment

- Higher mortgage rates, decreased housing affordability, and broader macroeconomic concerns have negatively impacted recent new construction and remodel/retrofit demand.
- However, we acted quickly, and our actions offset the volume pressures—allowing us to expand EBIT margin year-over-year in 2024 (despite revenue pressure), while we continued to invest for future growth.

Prepared for growth to return

- Our long-term strategic focus is unchanged. We have unique revenue growth opportunities by expanding our categories and taking advantage of our strong competitive position in markets with attractive long-term market dynamics.
- The housing market remains undersupplied and demographic trends support long-term demand growth. Additionally, an aging housing stock supports increased remodeling activity. We remain bullish about growth in this high margin, high-return business in 2025 and beyond.

Diverse Revenue Streams

Building Products

Building Products
TTM Revenue Mix

Secular Trends

Building Products

- Housing supply < demand – by as many as three million units
 - Post-2008 household deficit still above 1M (peak was 5M)
 - Deficit elimination + demolitions supports 1.8M starts '24-'26
 - Return to normal vacancies could add another 1M starts
- Mortgage rates create “lock-in” effect
 - 61% of all mortgage rates are below 4%
 - Approximately 25 points higher than a decade ago
 - This is positive for future remodel/retrofit activity
- Homes and people are aging
 - More millennials entering their prime home buying years
 - The median age of all homes in U.S. is ~40 years

Housing Supply and Demand

Demographics

Source: U.S. Census Bureau, BLS, The Benchmark Company

Current % of Loans with Mortgage Rates

Source: FHFA, Apollo Chief Economist

Macro Cyclical Drivers

Building Products

Positive demographic trends and historically low inventory levels support new construction

- Single-family permits and starts remain stable
- New homes as a % of total closings are near all-time highs; while the top-20 builders account for more than a third of total closings, up from 28% in 2018
- Strong opportunity in remodel-retrofit (not as impacted by affordability concerns)

Source: Harvard Joint Center for Housing Studies

Source: U.S. Commerce Department

Source: National Association of Realtors

Strategic Initiatives

Building Products

New Home – Expand Category

- 66% of homebuyers identify fireplaces as a “must have” feature, but fewer than 40% choose one
- Enhancing the connection with prospective homebuyer – digital marketing and touch points, consumer marketing, architect outreach, and model home experience
- Expanding owned distribution to drive awareness initiatives and increase coverage
- Continuing to develop new solutions for changing home (electric, smart home automation, entry-level homes, etc.)

Remodel Retrofit – Expand Category

- Estimate fewer than 3% of all remodeling projects include a fireplace or stove
- Large market: more than 30 million older gas and wood burning fireplaces; homeowners generally unaware of how to convert old fireplaces to convenient, modern solutions
- Identifying target customers with data analytics; benefit from rich data set resulting from being longstanding industry leader
- Reaching homeowners through digital capabilities, consumer marketing, and improved end-to-end experience

Corporate Responsibility

Respecting People, Reducing Impacts, Redefining Tomorrow

HNI is committed to being a great place to work and a responsible corporate citizen. We continuously look for new and better ways to reduce our environmental impact, make a positive social contribution, and support the communities where we operate. We expanded on our initial goals from 2018 and have established, long-term CSR goals that focus on respecting our people and supporting our communities, reducing the impacts of our operations, and designing more sustainable products to redefine tomorrow. We continue to integrate corporate responsibility activities throughout our organization. HNI is making progress and important strides toward achieving our goals.

HNI received the following recognition:

- In November of 2024, USA Today recognized HNI as one of America's Climate Leaders for its dedication to reducing greenhouse gas emissions, its focus on energy conservation efforts, and its commitment to renewable energy.
- In November of 2024, HNI was recognized in the first edition of World's Best Companies – Sustainable Growth ranking by TIME Magazine and Statista. From over three thousand companies assessed, 500 were selected to the final ranking based on revenue growth, financial stability, and taking care of the environment
- In December 2024, HNI was again named one of America's Most Responsible Companies by Newsweek, ranking number 36 overall and number three in the Retail in Consumer Goods category. For the sixth year in a row, HNI has earned a spot on this prestigious list of the top 600 companies making a positive impact.
- In October 2023, HNI was named to the U.S. News & World Report Best Companies to Work For list in the Miscellaneous Products & Services Industry, ranking among the top companies recognized for creating a positive work environment.
- In October 2023, HNI was recognized by the U.S. Department of Energy (DOE) for achieving its scope 1 and 2 emissions reduction goal as a partner in the Better Climate Challenge.

Goal Progress:

- Since 2020, we have aligned our emissions targets with the Science Based Targets initiative (SBTi) to reduce the impact of climate change. To achieve our climate change goals, we source 100% renewable electricity annually for our global operations, focus on energy efficiency in our facilities, and have reduced absolute combined Scope 1 and 2 greenhouse gas (GHG) emissions by 79% from the 2018 baseline.
- As of the end of 2024, we have ten facilities that have achieved a landfill diversion rate above 95%, we have two facilities that have achieved third-party TRUE zero waste certification, and we continue to work toward the goal of zero waste to landfill for all manufacturing facilities.
- As of the end of 2024, we have eliminated 100% of non-recyclable foam across Kimball International and Residential Building Products, eliminated 100% across systems, tables, and architectural product lines, increasing overall elimination to 61% for Workplace Furnishings, and continue to move toward 100% recyclable packaging by 2025.

Balance Sheet and Cash Flow

Our capital priorities are:

1. Invest in the business, generating strong returns.
2. Maintain and modestly increase the dividend.
3. Repurchase shares.
4. Pursue value-enhancing acquisitions.

Note – leverage ratio as of Q4:24 was 1.1x, which compares to our leverage covenant of 3.5x gross debt-to-EBITDA.
