H.B. Fuller Announces Price Increase on Adhesives Sold in North America

ST. PAUL, Minn., March 03, 2017 (GLOBE NEWSWIRE) -- **H.B. Fuller Company**(NYSE:FUL) announced today that, effective April 3, 2017, or as contracts allow, the North America Adhesives group of H.B. Fuller will increase the price for adhesives between 5 percent and 8 percent.

These increases affect products sold for the following applications in the U.S. and Canada, including but not limited to: packaging, paper converting, flexible packaging, specialty coatings, construction and assembly products, hygiene, window, glass fiber and textile. The increase is necessitated because of recent cost changes and supply constraints to feedstocks, such as propylene, ethylene, methanol, butadiene, isoprene and acetone, which have led to higher raw material costs.

Customers should contact their H.B. Fuller sales representative for more details. Product inquiries may be made toll-free by calling **888-351-3521**.

About H.B. Fuller
For 130 years, H.B. Fuller has been a leading global adhesives provider focusing on perfecting adhesives, sealants and other specialty chemical products to improve products and lives.
