The information in this communication includes financial information determined by methods other than in accordance with accounting principles generally accepted in the United States of America ("GAAP"), such as adjusted diluted net earnings per share from continuing operations. The Company's management uses these non-GAAP measures in its analysis of the Company's performance. The Company believes that the presentation of certain non-GAAP measures provides useful supplemental information that is essential to a proper understanding of the operating results of the Company's businesses. These non-GAAP disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Reconciliations of these non-GAAP measures to the most comparable GAAP measures are included under "Additional Information" in this presentation.
