Dividend Policy

- On November 9, 2018, The Board of Directors approved a dividend policy
- Effective beginning with the March 1, 2019 dividend:
  - A $0.02 per share increase; quarterly dividend will be $0.38 per share or $1.52 annualized per share in 2019 (1)

Resuming dividend growth enables enhanced shareholder returns while continuing substantial regulated investments

(1) Dividend payments are subject to declaration by the Board of Directors; future dividend decisions determined by the Board based on earnings growth, cash flows, credit metrics, and other business conditions

Corporate Responsibility

CORPORATE RESPONSIBILITY

A FORWARD-THINKING ELECTRIC UTILITY

Committed to making our customers' lives brighter, the environment better and our communities stronger.
Seek to inform and engage our stakeholders, while at the same time setting and achieving goals.
Led by a dedicated team, along with Executive and Board Oversight on Corporate Responsibility and ESG strategy.

Corporate Responsibility Strategy

We are a
forward-thinking electric utility
powered by a diverse team of employees committed to making
customers' lives brighter, the environment better and our communities stronger

Build a sustainable business with…

Social and Environmental

Employees
- Employee Engagement
- Expanded Diversity & Inclusion

Customers
- Emerging Technologies
- Performance-Based Initiatives

Environment
- Internal Operations
- Renewable Adoption

Communities
- Targeted Giving / Engagement
- Charitable Impact Measurement

Governance

Transparency

Accountability

Built upon the pillars of our mission statement, our Strategy delivers on these opportunities and unlocks potential growth for our stakeholders

Corporate Responsibility – Facts at a Glance

Environmental

- Achieved 62%* reduction in CO_2 emissions since 2005
- Generation fleet carbon emission intensity of 0.49 metric tons/MWh

- Developed UAS program in which drones are being used to improve safety and efficiency and provide unique services throughout our territory
- Four osprey nesting platforms installed on our poles as part of FE's Avian Protection Plan

- Began implementation of a corporate waste reduction initiative
- Continued participation in CDP Climate, CDP Water Reports and EEI's ESG/Sustainability Template

Social

- Systemwide OSHA incident rate of 0.80 which was below EEI industry average of 1.21**
- Experienced zero Systemwide Life Changing Events

- Implemented a Diversity & Inclusion Key Performance Indicator, and developed six Employee Business Resource Groups (EBRGs)
- Participated in and was selected as one of 230 companies for the 2019 Bloomberg Gender Equality Index

- FE Foundation donated over $8M to nearly 1,300 nonprofits in 2018
- Provided the equivalent of 3.3 million meals to feed the hungry in our communities

Governance

- Published a Climate Report, including a 2 degree scenario analysis
- Update to Corporate Responsibility Report will be published in late 2019

- Expanded BOD Corporate Governance Committee to include Corporate Responsibility oversight
- Developed dedicated Corporate Responsibility team within the Strategy organization

- BOD is made up of 36% Diverse Directors (gender, race & ethnicity)
- All Directors are independent, other than the CEO

*Primarily due to retirements and asset sales through 12/31/18. Additional reductions will be recognized upon FirstEnergy Solutions' emergence from Chapter 11 bankruptcy.
**Based on 2015 Edison Electric Institute (EEI) Safety Survey published in 2016.

Climate Risk Report

Fully Regulated Utility

- Transmission
  - Energizing the Future program – Upgrading and modernizing our transmission system to build a smarter, stronger and more secure power grid for the future
- Distribution
  - Investing in projects that create a more resilient, flexible distribution system
  - Evaluating new opportunities that enable emerging technologies to meet the future energy needs of our customers
  - Maintaining service and reliability performance through grid modernization
- Generation Fleet
  - CO_2 reduction goal to reduce emissions by at least 90 percent below 2005 levels by 2045
  - Reduced CO_2 emissions by 62 percent as of year end 2018

Governance Process

- Executive and Board Oversight on climate-related issues
- Strategy and Corporate Responsibility Organization
  - Focused on expanding ESG and corporate responsibility initiatives to inform, engage, and achieve our sustainability goals
- Executive Level Steering Committee
  - Review and guide governance topics
- Shareholder Engagement and Outreach
  - Engage with shareholders with a focus on corporate responsibility and climate related disclosures

Two-Degree Scenario Analysis and Implications

- Two-Degree Scenario (2DS) Analysis
  - Based on the International Energy Agency's 2DS
  - Developed state-level detail for the five states FE primarily operates to study potential impacts to company
  - Results show significant changes in energy use across all sectors of the economy
- Implications
  - Well-positioned to mitigate climate-related risks and act upon related opportunities associated with a lower-carbon future
  - Positioned to enable electrification in the transportation, buildings and industrial sectors
  - Support multi-sector CO_2 emission reductions

Climate Report released April 1, 2019

2019 Corporate Responsibility Internal Initiatives

COMMUNITY
EMPLOYEE VOLUNTEER PROGRAM

WHAT: A program that provides non-bargaining non-physical employees with 16 hours to volunteer in the community

WHY: Aligning to our employees' passions while having the ability to track the number of hours our employees volunteer and better understand the impact of those hours in our communities

EMPLOYEE
TRANSFORMATION TALK

WHAT: A short, powerful talk, 15 minutes or less, similar in concept to TED Talks ®

WHY: Increase employee inclusiveness by connecting them with the bigger company picture through an information session about a key topic or strategy

ENVIRONMENT
EMPLOYEE WASTE REDUCTION PROGRAM

WHAT: Provide ~3,100 employees with reusable drinkware and remove Styrofoam cups from 7 Corporate facilities and implement centralized waste and recycling

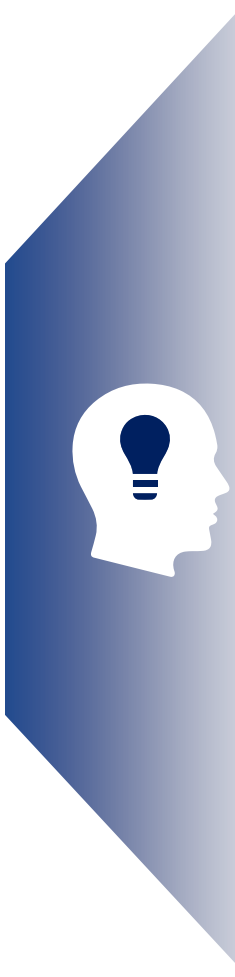

WHY: Average employee wastes ~540 pounds per year and FE purchases enough Styrofoam cups in a year that if stacked up would be as tall as Mt. Kilimanjaro

CUSTOMERS
PROACTIVE COMMUNICATION

WHAT: Increase visibility of customer requested work by proactively communicating the status of new business residential requests

WHY: Improve customer experience by providing customers the ability to monitor the progress of requested work

2019 Corporate Responsibility Report

What	• Publish a comprehensive Corporate Responsibility Report and website that will contain tangible examples, and metrics of the ways in which we are living our mission
Why	• Keep our internal and external stakeholders informed about key issues and activities related to corporate responsibility • Educate and engage stakeholders to reinforce the FirstEnergy brand and continue to build our reputation as a good corporate citizen • Provide external stakeholders with comprehensive information in a single, and easy to navigate location
Key Topics	The following topics will be covered but not limited to: • Community Involvement • Distribution – Grid Modernization • Diversity & Inclusion • Emerging Technologies • Environmental • Safety • Transmission – Energizing the Future
Timing	• To be published 4Q 2019

Forward-Looking Statements

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 based on information currently available to management. Unless the context requires otherwise, as used herein, references to “we,” “us,” “our,” and “FirstEnergy” refer to FirstEnergy Corp. Forward-looking statements are subject to certain risks and uncertainties and readers are cautioned not to place undue reliance on these forward-looking statements. These statements include declarations regarding management's intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms “anticipate,” “potential,” “expect,” "forecast," "target," "will," "intend," “believe,” "project," “estimate," "plan" and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, which may include the following the ability to successfully execute an exit from commodity-based generation, including, without limitation, mitigating exposure for remedial activities associated with formerly owned generation assets; the risks associated with the Chapter 11 bankruptcy proceedings involving FirstEnergy Solutions Corp. (FES), its subsidiaries, and FirstEnergy Nuclear Operating Company (FENOC) (FES Bankruptcy) that could adversely affect us, our liquidity or results of operations, including, without limitation, that conditions to the FES Bankruptcy settlement agreement may not be met or that the FES Bankruptcy settlement agreement may not be otherwise consummated, and if so, the potential for litigation and payment demands against us by FES or FENOC or their creditors; the ability to accomplish or realize anticipated benefits from strategic and financial goals, including, but not limited to, our strategy to operate and grow as a fully regulated business, to execute our transmission and distribution investment plans, to continue to reduce costs through FE Tomorrow, which is the FirstEnergy initiative launched in late 2016 to identify our optimal organization structure and properly align corporate costs and systems to efficiently support FirstEnergy as a fully regulated company going forward, and other initiatives, and to improve our credit metrics, strengthen our balance sheet and grow earnings; legislative and regulatory developments at the federal and state levels, including, but not limited to, matters related to rates, compliance and enforcement activity; economic and weather conditions affecting future operating results, such as significant weather events and other natural disasters, and associated regulatory events or actions; changes in assumptions regarding economic conditions within our territories, the reliability of our transmission and distribution system, or the availability of capital or other resources supporting identified transmission and distribution investment opportunities; changes in customers' demand for power, including, but not limited to, the impact of state and federal energy efficiency and peak demand reduction mandates; changes in national and regional economic conditions affecting us and/or our major industrial and commercial customers or others with which we do business; the risks associated with cyber-attacks and other disruptions to our information technology system that may compromise our operations, and data security breaches of sensitive data, intellectual property and proprietary or personally identifiable information; the ability to comply with applicable state and federal reliability standards and energy efficiency and peak demand reduction mandates; changes to federal and state environmental laws and regulations, including, but not limited to, those related to climate change; changing market conditions affecting the measurement of certain liabilities and the value of assets held in our pension trusts and other trust funds, or causing us to make additional contributions sooner, or in amounts that are larger, than currently anticipated; the risks associated with the decommissioning of our retired and former nuclear facilities; the risks and uncertainties associated with litigation, arbitration, mediation and like proceedings; labor disruptions by our unionized workforce; changes to significant accounting policies; any changes in tax laws or regulations, including the Tax Cuts and Jobs Act, or adverse tax audit results or rulings; the ability to access the public securities and other capital and credit markets in accordance with our financial plans, the cost of such capital and overall condition of the capital and credit markets affecting us; actions that may be taken by credit rating agencies that could negatively affect either our access to or terms of financing or our financial condition and liquidity; and the risks and other factors discussed from time to time in FirstEnergy’s Securities and Exchange Commission (SEC) filings. Dividends declared from time to time on FirstEnergy’s common stock, and thereby on FirstEnergy’s preferred stock, during any period may in the aggregate vary from prior periods due to circumstances considered by FirstEnergy’s Board of Directors at the time of the actual declarations. A security rating is not a recommendation to buy or hold securities and is subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating. These forward-looking statements are also qualified by, and should be read together with, the risk factors included in FirstEnergy’s filings with the SEC, including but not limited to the most recent Quarterly Report on Form 10-Q, and any subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. The foregoing review of factors also should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy's business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy expressly disclaims any obligation to update or revise, except as required by law, any forward-looking statements contained herein as a result of new information, future events or otherwise.

Non-GAAP Financial Matters

This presentation contains references to non-GAAP financial measures including, among others, Operating earnings (loss), Operating earnings (loss) per share, Operating earnings (loss) per share by segment, Adjusted Equity, Adjusted Debt, Adjusted Capitalization, Funds from Operations (FFO) and Free Cash Flow (FCF). Generally, a non-GAAP financial measure is a numerical measure of a company's historical or future financial performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with accounting principles generally accepted in the United States (GAAP). Operating earnings (loss), Operating earnings (loss) per share and Operating earnings (loss) per share by segment are not calculated in accordance with GAAP to the extent they exclude the impact of "special items." Special items represent charges incurred or benefits realized that management believes are not indicative of, or may obscure trends useful in evaluating the company's ongoing core activities and results of operations or otherwise warrant separate classification. Special items also reflect the adjustment to include the full impact of share dilution from the $2.5 billion equity issuance in January 2018. Special items are not necessarily non-recurring. FirstEnergy Corp. (FE or the Company) management cannot estimate on a forward-looking basis the impact of these items in the context of Operating earnings (loss) per share growth projections because these items, which could be significant, are difficult to predict and may be highly variable. Consequently, the Company is unable to reconcile Operating earnings (loss) per share growth projections (i.e. CAGR) to a GAAP measure without unreasonable effort.

Operating earnings (loss) per share and Operating earnings (loss) per share for each segment is calculated by dividing Operating earnings (loss), which excludes special items as discussed above, for the periods presented in 2018 by 538 million shares, 539 million shares in the first quarter of 2019 and by 540 million shares for the full year 2019, which reflects the full impact of share dilution from the equity issuance in January 2018.

Management uses non-GAAP financial measures such as Operating earnings (loss), Operating earnings (loss) per share, FFO and Free Cash Flow to evaluate the company's performance and manage its operations and frequently references these non-GAAP financial measures in its decision-making, using them to facilitate historical and ongoing performance comparisons. Additionally, management uses Operating earnings (loss) per share by segment to further evaluate the company's performance by segment and references this non-GAAP financial measure in its decision-making. Management believes that the non-GAAP financial measures of Operating earnings (loss), Operating earnings (loss) per share and Operating earnings (loss) per share by segment and Free Cash Flow provide consistent and comparable measures of performance of its businesses on an ongoing basis. Management uses Adjusted Equity, Adjusted Debt and Adjusted Capitalization to calculated and monitor its compliance with the debt to total capitalization financial covenant under the FE credit facility and term loans. These financial measures, as calculated in accordance with the FE Credit Facility and term loans, help shareholders understand FE's compliance with and provide a basis for understanding FE's incremental debt capacity under the debt to total capitalization financial covenants. The financial covenants under the FE Credit Facility and terms loans require FE to maintain a consolidated debt to total capitalization of no more than 65%, measured at the end of each fiscal quarter. Management also believes that such measures are useful to shareholders and other interested parties to understand performance trends and evaluate the company against its peer group by presenting period-over-period operating results without the effect of certain charges or benefits that may not be consistent or comparable across periods or across the company's peer group. All of these non-GAAP financial measures are intended to complement, and are not considered as alternatives to, the most directly comparable GAAP financial measures. Also, the non-GAAP financial measures may not be comparable to similarly titled measures used by other entities.

Pursuant to the requirements of Regulation G, FirstEnergy has provided, where possible without unreasonable effort, quantitative reconciliations within this presentation of the non-GAAP financial measures to the most directly comparable GAAP financial measures.
