OHIO EDISON COMPANY AND SUBSIDIARIES AUDITED CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

GLOSSARY OF TERMS

The following abbreviations and acronyms may be used in these financial statements to identify Ohio Edison Company and its current and former subsidiaries and affiliated companies:

AE Supply Allegheny Energy Supply Company, LLC, an unregulated generation subsidiary of FE

AGC Allegheny Generating Company, a generation subsidiary of MP

ATSI American Transmission Systems, Incorporated, a transmission subsidiary of FET CEI The Cleveland Electric Illuminating Company, an Ohio electric utility subsidiary of FE

FirstEnergy Corp., a public utility holding company FΕ

Energy Harbor Nuclear Corp. (formerly known as FirstEnergy Nuclear Operating Company), a subsidiary of EH, **FENOC**

which operates EH's nuclear generating facilities

FirstEnergy Pennsylvania Electric Company, a Pennsylvania electric utility subsidiary of FirstEnergy Pennsylvania Holding Company LLC, a wholly owned subsidiary of FE FE PA

Energy Harbor LLC (formerly known as FirstEnergy Solutions Corp.), a subsidiary of EH, which provides energy-**FES**

related products and services

FESC FirstEnergy Service Company, which provides legal, financial and other corporate support services

FirstEnergy Transmission, LLC a consolidated VIE of FE and the parent company of ATSI, MAIT and TrAIL, and FET

having a joint venture in PATH

FF\/ FirstEnergy Ventures Corp., which invests in certain unregulated enterprises and business ventures

FirstEnergy FirstEnergy Corp., together with its consolidated subsidiaries

JCP&L Jersey Central Power & Light Company, a New Jersey electric utility subsidiary of FE KATCo Keystone Appalachian Transmission Company, a transmission subsidiary of FE MAIT Mid-Atlantic Interstate Transmission, LLC, a transmission subsidiary of FET

Metropolitan Edison Company, a former Pennsylvania electric utility subsidiary of FE, which merged with and into ME

FE PA on January 1, 2024

MP Monongahela Power Company, a West Virginia electric utility subsidiary of FE

Ohio Edison Company, an Ohio electric utility subsidiary of FE OE

Ohio Companies CEL OF and TE

PATH Potomac-Appalachian Transmission Highline, LLC, a joint venture between FE and a subsidiary of AEP

PΕ The Potomac Edison Company, a Maryland and West Virginia electric utility subsidiary of FE

Penn Pennsylvania Power Company, a former Pennsylvania electric utility subsidiary of OE, which merged with and into

FE PA on January 1, 2024

ME, PN, Penn and WP, each of which merged with and into FE PA on January 1, 2024 Pennsylvania Companies

PΝ Pennsylvania Electric Company, a former Pennsylvania electric utility subsidiary of FE, which merged with and into

FE PA on January 1, 2024

ΤE The Toledo Edison Company, an Ohio electric utility subsidiary of FE TrAIL Trans-Allegheny Interstate Line Company, a transmission subsidiary of FET

Transmission Companies ATSI, KATCo, MAIT and TrAIL

OE, CEI, TE, Penn, JCP&L, ME, PN, MP, PE and WP Utilities

WP West Penn Power Company, a former Pennsylvania electric utility subsidiary of FE, which merged with and into FE

PA on January 1, 2024

The following abbreviations and acronyms may be used to identify frequently used terms in these financial statements:

2021 Credit Facilities Collectively, the six separate senior unsecured five-year syndicated revolving credit facilities entered into by FE,

FET, the Utilities, and the Transmission Companies, on October 18, 2021

Report of Independent Auditors

To Management and the Board of Directors of Ohio Edison Company

Opinion

We have audited the accompanying consolidated financial statements of Ohio Edison Company and its subsidiaries (the "Company"), which comprise the consolidated balance sheets as of December 31, 2023 and 2022, and the related consolidated statements of income, of comprehensive income, of common stockholder's equity, and of cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test
 basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate
 in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal
 control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial
 doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. ORGANIZATION AND BASIS OF PRESENTATION

Unless otherwise indicated, defined terms and abbreviations used herein have the meanings set forth in the accompanying Glossary of Terms.

OE is a wholly owned subsidiary of FE and is incorporated in Ohio. OE owns property and does business as an electric public utility in Ohio, providing distribution services to approximately 1.1 million customers in central and northeastern Ohio, with a rate base of \$2.1 billion. OE has 1,056 employees and serves an area that has a population of approximately 2.3 million. OE complies with the regulations, orders, policies and practices prescribed by FERC and the PUCO and PPUC.

OE owned all of Penn's outstanding common stock as of December 31, 2023. Penn operates an electric transmission and distribution system in Pennsylvania. Penn is subject to regulation by the PPUC and FERC.

On January 1, 2024, FirstEnergy consolidated the Pennsylvania Companies into FE PA, including OE subsidiary, Penn, making FE PA a new, single operating entity. In addition to merging each of the Pennsylvania Companies with and into FE PA, with FE PA surviving such mergers as the successor-in-interest to all assets and liabilities of the Pennsylvania Companies, (i) WP transferred certain of its Pennsylvania-based transmission assets to KATCo, and (ii) PN and ME contributed their respective Class B equity interests of MAIT to FE. FE PA, as of January 1, 2024, is FE's only regulated distribution utility in Pennsylvania encompassing the operations previously conducted individually by the Pennsylvania Companies and serves an area with a population of approximately 4.5 million. FE PA operates under the rate districts of the former Pennsylvania Companies. FirstEnergy is also evaluating the legal, financial, operational and branding benefits of consolidating the Ohio Companies into a single Ohio utility company.

The preparation of financial statements in conformity with GAAP requires management to make periodic estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. Actual results could differ from these estimates. The reported results of operations are not necessarily indicative of results of operations for any future period. OE has evaluated events and transactions for potential recognition or disclosure through March 8, 2024, the date the financial statements were issued.

Certain prior year amounts have been reclassified to conform to the current year presentation, including presenting long-term debt and other long-term obligations within "Noncurrent Liabilities" on the Balance Sheets as compared to "Total Capitalization".

Economic Conditions

Post-pandemic economic conditions have increased supply chain lead times across numerous material categories, with some as much as tripling from pre-pandemic lead times. Several key suppliers have struggled with labor shortages and raw material availability, which along with inflationary pressure that appears to be moderating, have increased costs and decreased the availability of certain materials, equipment and contractors. FirstEnergy has taken steps to mitigate these risks and does not currently expect service disruptions or any material impact on its capital spending plan. However, the situation remains fluid and a prolonged continuation or further increase in supply chain disruptions could have an adverse effect on FirstEnergy's results of operations, cash flow and financial condition.

Reference Rate Reform

In March of 2020, the FASB issued ASU 2020-04, Reference Rate Reform (Topic 848): "Facilitation of the Effects of Reference Rate Reform on Financial Reporting" (issued March 2020 and subsequently updated). This ASU, which introduces Topic ASC 848 to the FASB codification, provides temporary optional expedients and exceptions that, if elected, will ease the financial reporting burdens related to the market transition from LIBOR and other interbank offered rates to alternative reference rates.

On April 27, 2023, FE, FET, the Utilities and the Transmission Companies entered into amendments to the 2021 Credit Facilities to, among other things: (i) permit the sale from FE to Brookfield of an incremental 30% equity interest in FET for a purchase price of \$3.5 billion, (ii) permit the consolidation of the Pennsylvania Companies into a new, single operating entity, FE PA, which will be FE's only regulated utility in Pennsylvania encompassing the operations previously conducted individually by the Pennsylvania Companies, and (iii) transition the benchmark interest rate for borrowings under the 2021 Credit Facilities from LIBOR to SOFR. During the second quarter of 2023, FirstEnergy utilized the optional expedient within ASC 848 to account for the amendments to the credit facilities as a continuation of the existing contract without additional analysis.

ACCOUNTING FOR THE EFFECTS OF REGULATION

OE is subject to regulation that sets the prices (rates) that OE is permitted to charge customers based on costs that the regulatory agencies determine are permitted to be recovered. At times, regulatory agencies permit the future recovery of costs that would be currently charged to expense by an unregulated company. The ratemaking process results in the recording of regulatory assets and liabilities based on anticipated future cash inflows and outflows.

OE reviews the probability of recovery of regulatory assets, and settlement of regulatory liabilities, at each balance sheet date and whenever new events occur. Factors that may affect probability include changes in the regulatory environment, issuance of a regulatory commission order, or passage of new legislation. Upon material changes to these factors, where applicable, OE will record new regulatory assets or liabilities and will assess whether it is probable that currently recorded regulatory assets and liabilities will be recovered or settled in future rates. If recovery of a regulatory asset is no longer probable, OE will write off that regulatory asset as a charge against earnings. OE considers the entire regulatory asset balance as the unit of account for the purposes of balance sheet classification rather than the next years recovery and as such net regulatory assets and liabilities are presented in the noncurrent section on OE's Consolidated Balance Sheets. See Note 11, "Regulatory Matters," of the Notes to Consolidated Financial Statements for additional information.

The following table provides information about the composition of net regulatory assets and liabilities as of December 31, 2023 and 2022, and the changes during the year ended December 31, 2023:

	As of December 31,			
Net Regulatory Assets (Liabilities) by Source		2023	2022	Change
			(In millions)	
Customer payables for future income taxes	\$	(272)	\$ (287)	\$ 15
Asset removal costs		_	(18)	18
Deferred transmission costs		15	(17)	32
Deferred generation costs		50	59	(9)
Deferred distribution costs		44	46	(2)
Storm-related costs		74	11	63
Energy efficiency program costs		5	_	5
Other		3	3	
Net Regulatory Liabilities included on the Consolidated Balance Sheets	\$	(81)	\$ (203)	\$ 122

The following is a description of the regulatory assets and liabilities described above:

Customer payables for future income taxes - Reflects amounts to be recovered or refunded through future rates to pay income taxes that become payable when rate revenue is provided to recover items such as AFUDC-equity and depreciation of property, plant and equipment for which deferred income taxes were not recognized for ratemaking purposes, including amounts attributable to federal and state tax rate changes such as the Tax Act and Pennsylvania House Bill 1342. These amounts are being amortized over the period in which the related deferred tax assets reverse, which is generally over the expected life of the underlying asset.

Asset removal costs - Reflects amounts to be recovered or refunded through future rates to pay for the cost of activities to remove assets, including obligations for which an ARO has been recognized, that are expected to be incurred at the time of retirement.

Deferred transmission costs - Primarily relates to the recovery of non-market based costs or fees imposed on or charged to OE and Penn by various regulatory bodies including FERC and RTOs. These costs can include PJM charges and credits for service including, but not limited to, procuring transmission services and transmission enhancement.

Deferred generation costs - Primarily relates to regulatory assets associated with the securitized recovery of certain fuel and purchased power regulatory assets that are amortized through 2034.

Deferred distribution costs - Primarily relates to the deferral of certain distribution-related expenses, including interest (amortized through 2034).

Storm-related costs - Relates to the recovery of storm costs, which vary by jurisdiction. As of December 31, 2023 and 2022, approximately \$29 million and \$18 million, respectively, is currently being recovered through rates at Penn.

Energy efficiency program costs - Relates to the recovery or refund of costs associated with energy efficiency programs including the Ohio Companies' Demand Side Management and Energy Efficiency Rider amortized through 2024.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment reflects original cost (net of any impairments recognized), including payroll and related costs such as taxes, employee benefits, administrative and general costs, and financing costs incurred to place the assets in service. The costs of normal maintenance, repairs and minor replacements are expensed as incurred. Liabilities for planned major maintenance projects are recognized as they are incurred.

OE provides for depreciation on a straight-line basis at various rates over the estimated lives of property included in plant in service. Depreciation expense was approximately 3.0% and 2.9% of average depreciable property in 2023 and 2022.

For the years ended December 31, 2023 and 2022, capitalized financing costs on OE's Consolidated Statements of Income include \$3 million and \$4 million, respectively, of allowance for equity funds used during construction and \$4 million and \$2 million, respectively, of capitalized interest.

Long-lived assets classified as held and used are evaluated for impairment when events or changes in circumstances indicate that the carrying value of the long-lived assets may not be recoverable. First, the estimated undiscounted future cash flows attributable to the assets is compared with the carrying value of the assets. If the carrying value is greater than the undiscounted future cash flows, an impairment charge is recognized equal to the amount the carrying value of the assets exceeds its estimated fair value.

RECEIVABLES

OE's principal business is providing electric service to customers in Ohio. OE's retail customers are metered on a cycle basis. Electric revenues are recorded based on energy delivered through the end of the calendar month. An estimate of unbilled revenues is calculated to recognize electric service provided from the last meter reading through the end of the month. This estimate includes many factors, among which are historical customer usage, load profiles, estimated weather impacts, customer shopping activity and prices in effect for each class of customer. In each accounting period, OE accrues the estimated unbilled amount as revenue and reverses the related prior period estimate. Unbilled customer receivables were \$105 million and \$132 million as of December 31, 2023 and 2022, respectively. Receivables from customers include distribution and retail electric sales to residential, commercial and industrial customers.

The allowance for uncollectible customer receivables is based on historical loss information comprised of a rolling 36-month average net write-off percentage of revenues, in conjunction with a qualitative assessment of elements that impact the collectability of receivables to determine if allowances for uncollectible customer receivables should be further adjusted in accordance with the accounting guidance for credit losses. The allowance for uncollectible customer receivables is reviewed utilizing a quantitative and qualitative assessment. Management contemplates available current information such as changes in economic factors, regulatory matters, industry trends, customer credit factors, amount of receivable balances that are past-due, payment options and programs available to customers, and the methods that the Utilities are able to utilize to ensure payment. This analysis includes consideration of the outbreak of the pandemic and the impact on customer receivable balances outstanding and write-offs since the pandemic began and subsequent economic slowdown.

During 2023, various regulatory actions, including extended installment plans, continue to impact the level of past due balances in certain states, resulting in the allowances for uncollectible customer receivables to remain elevated above 2019 pre-pandemic levels. However, normal collection activity has resumed, and arrears levels continue to decline towards pre-pandemic levels. As a result, OE recognized a \$12 million decrease to its allowance during 2023, of which \$9 million was applied to existing deferred regulatory assets.

Activity associated with the allowance for uncollectible customer receivables is as follows:

(In millions)	2	023	 2022
Customer Receivables:			
Beginning of year balance	\$	21	\$ 28
Charged to income ⁽¹⁾		_	4
Charged to other accounts ⁽²⁾		5	14
Write-offs		(17)	(25)
End of year balance	\$	9	\$ 21

⁽¹⁾ Customer receivable amounts charged to income include approximately \$5 million and \$3 million deferred for future refund for the years ended December 31, 2023 and 2022, respectively.

NEW ACCOUNTING PRONOUNCEMENTS

Recently Issued Pronouncements - The following new authoritative accounting guidance issued by the FASB has not yet been adopted. Unless otherwise indicated, such guidance is currently being assessed for the impact it may have on the financial statements and disclosures, as well as the potential to early adopt where applicable. New accounting standards not described below have been assessed and based upon current expectations will not significantly impact the financial statements.

⁽²⁾ Represents recoveries and reinstatements of accounts previously written off for uncollectible accounts.

ASU 2023-09, "Income taxes (Topic 280): Improvements to Income Tax Disclosures" (Issued in December 2023): ASU 2023-09 enhances disclosures primarily related to existing rate reconciliation and income taxes paid information to help investors better assess how a company's operations and related tax risks and tax planning and operational opportunities affect the tax rate and prospects for future cash flows. For FirstEnergy, the guidance will be effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments within ASU 2023-09 are to be applied on a prospective basis, with retrospective application permitted.

2. REVENUE

OE accounts for revenues from contracts with customers under ASC 606, "Revenue from Contracts with Customers." Revenue from leases, financial instruments, other contractual rights or obligations and other revenues that are not from contracts with customers are outside the scope of the standard and accounted for under other existing GAAP. OE has elected to exclude sales taxes and other similar taxes collected on behalf of third parties from revenue as prescribed in the standard. As a result, tax collections and remittances within the scope of this election are excluded from recognition in the income statement and instead recorded through the balance sheet. Gross receipts taxes that are assessed on OE are not subject to the election and are included in revenue. OE has elected the optional invoice practical expedient for most of its revenues, which eliminates the need to provide certain revenue disclosures regarding unsatisfied performance obligations.

OE's principal business is providing electric service to customers in Ohio and Pennsylvania. OE and Penn's distribution customers are metered on a cycle basis. An estimate of unbilled revenues is calculated to recognize electric service provided from the last meter reading through the end of the month. This estimate includes many factors, among which are historical customer usage, load profiles, estimated weather impacts and prices in effect for each class of customer. In each accounting period, OE and Penn accrues the estimated unbilled amount as revenue and reverses the related prior period estimate. Customer payments are generally due within 30 days. Retail generation sales relate to generation sales in Ohio and Pennsylvania that are regulated by the PUCO and the PPUC.

Distribution services revenue relates to the distribution of electricity. OE and Penn earn revenue from state-regulated rate tariffs under which they provide distribution services to residential, commercial and industrial customers in their service territory. OE and Penn are obligated under the regulated construct to deliver power to customers reliably, as it is needed, which creates an implied monthly contract with the end-use customer. See Note 11, "Regulatory Matters," for additional information on rate recovery mechanisms. Distribution and electric revenues are recognized over time as electricity is distributed and delivered to the customer and the customers consume the electricity immediately as delivery occurs.

Retail generation sales relate to default service requirements in Ohio and SOS requirements in Pennsylvania. Certain of the Utilities have default service obligations to provide power to non-shopping customers who have elected to continue to receive service under regulated retail tariffs. The volume of these sales varies depending on the level of shopping that occurs. Supply plans vary by state and by service territory. Default service for OE and Penn is provided through a competitive procurement process approved by each state's respective commission. Retail generation revenues are recognized over time as electricity is delivered and consumed immediately by the customer.

The following table represents a disaggregation of revenue from contracts with customers for the years ended December 31, 2023 and 2022 by type of service:

	For the Year Ended December 31,					
Revenues by Type of Service		2023	2022			
Distribution services and retail generation						
Residential	\$	1,112	\$	1,049		
Commercial		450		426		
Industrial		220		197		
Street lighting/other		16		14		
Other		30		26		
Total revenues from contracts with customers ⁽¹⁾	\$	1,828	\$	1,712		
Other revenue unrelated to contracts with customers		21		21		
Total revenues	\$	1,849	\$	1,733		

⁽¹⁾ Includes approximately \$25 million as of December 31, 2022 of customer refunds associated with the Ohio Stipulation that became effective in December 2021.

Other revenue (customer and revenue unrelated to contracts with customers) primarily includes \$12 million and \$11 million for the years ended December 31, 2023 and 2022 respectively, related to amounts collected from customers to repay bonds associated with the Ohio Securitization (See Note 7, "Variable Interest Entities"), intercompany lease revenues from ATSI of \$12 million for both the years ended December 31, 2023 and 2022, and pole attachment revenue of \$17 million and \$16 million for the years ended December 31, 2023 and 2022, respectively.

3. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The changes in AOCI, net of tax, for the years ended December 31, 2023 and 2022 for OE are shown in the following tables:

	2023	2022		
	(In millions)			
Defined Benefit Pension & OPEB Plans ⁽¹⁾⁽²⁾				
AOCI Balance, January 1,	(7)	(6)		
Amounts reclassified from AOCI	(1)	(2)		
Income tax (benefits) on other comprehensive loss	<u> </u>	(1)		
Other comprehensive loss, net of tax	(1)	(1)		
AOCI Balance, December 31,	(8)	(7)		

⁽¹⁾ Amortization of prior service costs are reported within Miscellaneous income, net within Other Income (Expense) on OE's Consolidated Statements of Income. Components are included in the computation of net periodic cost (credits), see Note 4, "Pension and Other Postemployment Benefits," for additional details.

4. PENSION AND OTHER POSTEMPLOYMENT BENEFITS

FirstEnergy provides noncontributory qualified defined benefit pension plans that cover substantially all of its employees and non-qualified pension plans that cover certain employees, including employees of OE. The plans provide defined benefits based on years of service and compensation levels. Under the cash-balance portion of the pension plan (for employees hired on or after January 1, 2014), FirstEnergy makes contributions to eligible employee retirement accounts based on a pay credit and an interest credit. In addition, FirstEnergy provides a minimum amount of noncontributory life insurance to retired employees in addition to optional contributory insurance. Health care benefits, which include certain employee contributions, deductibles and co-payments, are also available upon retirement to certain employees, their dependents and, under certain circumstances, their survivors. OE recognizes its allocated portion of the expected cost of providing pension and OPEB to employees and their beneficiaries and covered dependents from the time employees are hired until they become eligible to receive those benefits. OE also recognizes its allocated portion of obligations to former or inactive employees after employment, but before retirement, for disability-related benefits.

On May 12, 2023, FirstEnergy made a \$750 million voluntary cash contribution to the qualified pension plan. The size of the voluntary contribution made in relation to total pension assets triggered a remeasurement of the pension plan. FirstEnergy elected the practical expedient to remeasure pension plan assets and obligations as of April 30, 2023, which is the month-end closest to the date of the voluntary contribution.

FirstEnergy's pension funding policy is based on actuarial computations using the projected unit credit method. FirstEnergy does not currently expect to have a required contribution to the pension plan until 2028, which based on various assumptions, including an expected rate of return on assets of 8.00%, is expected to be approximately \$260 million. However, FirstEnergy may elect to contribute to the pension plan voluntarily.

On May 9, 2023, FirstEnergy announced a voluntary retirement program for eligible non-bargaining employees, known as the PEER. More than 65% of eligible employees, totaling approximately 450 employees, accepted the PEER, which included lump sum compensation equivalent to severance benefits, healthcare continuation costs and a temporary pension enhancement. Most PEER participating employees departed in 2023. The temporary pension enhancement and healthcare continuation costs are classified as special termination costs within net periodic benefit costs (credits).

⁽²⁾ Income tax (benefits) on other comprehensive income (loss) affects Income taxes line item in Consolidated Statements of income.

The following is a summary of the plan status:

		Pension			OPEE			В	
For The Years Ended		2023		2022		2023		2022	
		(In mil				ns)			
FirstEnergy benefit obligation	\$	8,363	\$	8,828	\$	441	\$	439	
FirstEnergy fair value of plan assets		6,879		6,693		516		460	
FirstEnergy funded status	\$	(1,484)	\$	(2,135)	\$	75	\$	21	
	_								
FirstEnergy accumulated benefit obligation	\$	7,324	\$	8,500	\$	_	\$	_	
FirstEnergy net periodic costs (credit) ⁽¹⁾	\$	128	\$	(296)	\$	(38)	\$	(10)	
OE's share of FirstEnergy funded status ⁽²⁾⁽³⁾	\$	(45)	\$	(119)	\$	(16)	\$	(16)	
OE's share of net periodic costs (credit) ⁽¹⁾	\$	(44)	\$	(36)	\$	_	\$	_	

⁽¹⁾ Includes pension and OPEB mark-to-market adjustment, amounts capitalized and special terminations benefits associated with PEER.

The FirstEnergy total pension and OPEB mark-to-market adjustment gain (loss), for the years ended December 31, 2023 and 2022 were \$(78) million and \$72 million, respectively. OE's pension and OPEB mark-to-market adjustments, gains or (losses), for the years ended December 31, 2023 and 2022, were \$29 million and \$(5) million, respectively

Pension and OPEB costs are affected by employee demographics (including age, compensation levels and employment periods), the level of contributions made to the plans and earnings on plan assets. Pension and OPEB costs may also be affected by changes in key assumptions, including anticipated rates of return on plan assets, the discount rates and health care trend rates used in determining the projected benefit obligations for pension and OPEB costs. FirstEnergy uses a December 31 measurement date for its pension and OPEB plans or whenever a plan is determined to qualify for a remeasurement. The fair value of the plan assets represents the actual market value as of the measurement date.

	Pension		Pension OPE		
Actuarial Assumptions	2023	2022	2023	2022	
Assumptions Related to Benefit Obligations:					
Discount rate	5.05 %	5.23 %	4.97 %	5.16 %	
Rate of compensation increase	4.30 %	4.30 %	N/A	N/A	
Cash balance weighted average interest crediting rate	4.94 %	4.04 %	N/A	N/A	
Assumptions Related to Benefit Costs: (1)(2)					
Effective rate for interest on benefit obligations	5.10% / 4.80%	2.44 %	5.06 %	2.18 %	
Effective rate for service costs	5.34% / 5.11%	3.28 %	5.41 %	3.41 %	
Effective rate for interest on service costs	5.22% / 4.94%	2.96 %	5.33 %	3.24 %	
Expected return on plan assets	8.00 %	7.50 %	7.00 %	7.50 %	
Rate of compensation increase	4.30 %	4.10 %	N/A	N/A	
Assumed Health Care Cost Trend Rates:					
Health care cost trend rate assumed (pre/post-Medicare)	N/A	N/A	7.00%-6.50%	6.00%-5.50%	
Rate to which the cost trend rate is assumed to decline (ultimate trend rate)	N/A	N/A	4.50 %	4.50 %	
Year that the rate reaches the ultimate trend rate	N/A	N/A	2033	2029	

⁽¹⁾ Excludes impact of pension and OPEB mark-to-market adjustment.

⁽²⁾ Excludes \$298 million and \$270 million as of December 31, 2023 and 2022, respectively, of affiliated noncurrent liabilities related to pension and OPEB mark-to-market costs allocated to OE.

⁽³⁾ Includes a \$19 million decrease in OPEB plan assets associated with a reallocation among certain FirstEnergy companies at December 31, 2022.

⁽²⁾ As a result of the interim pension plan remeasurement during 2023, there were different rates in effect from January 1, 2023, through April 30, 2023 compared to May 1, 2023 through December 31, 2023.

Net Periodic Benefit Costs (Credits) - In addition to service costs, interest on obligations, expected return on plan assets, and prior service costs, FirstEnergy recognizes in net periodic benefit costs a pension and OPEB mark-to-market adjustment for the change in the fair value of plan assets and net actuarial gains and losses annually in the fourth quarter of each fiscal year and whenever a plan is determined to qualify for a remeasurement. Service costs, net of capitalization, are reported within Other operating expenses. Non-service costs, other than the pension and OPEB mark-to-market adjustment, which is separately shown, are reported within Miscellaneous income, net, within Other Income (Expense).

Discount Rate - In selecting an assumed discount rate, FirstEnergy considers currently available rates of return on high-quality fixed income investments expected to be available during the period to maturity of the pension and OPEB obligations. The assumed rates of return on plan assets consider historical market returns and economic forecasts for the types of investments held by FirstEnergy's pension trusts. The long-term rate of return is developed considering the portfolio's asset allocation strategy. FirstEnergy utilizes a spot rate approach in the estimation of the components of benefit cost by applying specific spot rates along the full yield curve to the relevant projected cash flows.

Expected Return on Plan Assets - The expected return on pension and OPEB assets is based on input from investment consultants, including the trusts' asset allocation targets, the historical performance of risk-based and fixed income securities and other factors. The gains or losses generated as a result of the difference between expected and actual returns on plan assets is recognized as a pension and OPEB mark-to-market adjustment in the fourth quarter of each fiscal year and whenever a plan is determined to qualify for remeasurement.

Pension and OPEB Returns		2023	2022		
Actual gains or (losses) on plan assets - \$ millions	\$	751	\$	(1,830)	
Actual gains or (losses) on plan assets - %		11.2 %		(19.1)%	
Expected return on plan assets - \$ millions	\$	601	\$	696	
	8.00% for pension				
Expected return on plan assets - %	7.00% fc	or OPEB		7.50 %	

Mortality Rates - During 2023, the Society of Actuaries elected not to release a new mortality improvement scale due to data available being severely impacted by COVID-19. It was determined that the Pri-2012 mortality table with projection scale MP-2021, actuarially adjusted to reflect increased mortality due to the ongoing impact of COVID-19 was most appropriate and such was utilized to determine the obligation as of December 31, 2023, for the FirstEnergy pension and OPEB plans. This adjustment acknowledges COVID-19 cannot be eradicated and assumes reductions in other causes will not offset future COVID-19 deaths enough to produce a normal level of improvements.

5. TAXES

OE records income taxes in accordance with the liability method of accounting. Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts recognized for tax purposes. Investment tax credits, which were deferred when utilized, are being amortized over the recovery period of the related property. Deferred income tax liabilities related to temporary tax and accounting basis differences and tax credit carryforward items are recognized at the statutory income tax rates in effect when the liabilities are expected to be paid. Deferred tax assets are recognized based on income tax rates expected to be in effect when they are settled.

For federal income tax purposes, OE files as a member of the FirstEnergy consolidated group. OE is party to an intercompany income tax allocation agreement with FirstEnergy that provides for the allocation of consolidated tax liabilities.

On August 16, 2022, President Biden signed into law the IRA of 2022, which, among other things, imposes a new 15% corporate AMT based on AFSI applicable to corporations with a three-year average AFSI over \$1 billion. The AMT is effective for the 2023 tax year and, if applicable, corporations must pay the greater of the regular corporate income tax or the AMT. Although NOL carryforwards created through the regular corporate income tax system cannot be used to reduce the AMT, financial statement net operating losses can be used to reduce AFSI and the amount of AMT owed. The IRA of 2022 as enacted requires the U.S. Treasury to provide regulations and other guidance necessary to administer the AMT, including further defining allowable adjustments to determine AFSI, which directly impacts the amount of AMT to be paid. Based on interim guidance issued by the U.S. Treasury during 2022 and 2023, FirstEnergy continues to believe that it is more likely than not it will be subject to the AMT beginning in 2023. Accordingly, FirstEnergy made a first quarter estimated payment of AMT of approximately \$49 million in April 2023, of which approximately \$4 million related to OE's estimated allocable share of consolidated AMT. In June 2023, the U.S. Treasury issued additional guidance that eliminated the requirement of corporations to include AMT in quarterly estimated tax payments, pending further guidance on the application and administration of AMT. Therefore, as a result of guidance issued to date, the current forecast of AMT obligation, and the amount of AMT already paid in April 2023, FirstEnergy did not make any additional AMT payments for the 2023 tax year. Until final U.S. Treasury regulations are issued, the amount of AMT FirstEnergy pays could be significantly different than current estimates or it may not be a payer at all. The regulatory treatment of the impacts

of this legislation may also be subject to the regulation by FERC and/or applicable state regulatory authorities. Any adverse development in this legislation, including guidance from the U.S. Treasury and/or the IRS or unfavorable regulatory treatment, could negatively impact FirstEnergy's cash flows, results of operations and financial condition.

	F	For the Years Ended December 31,

Federal		39		33			
State		9		(2)			
		48		31			
Total income taxes	\$	46	\$	47			

OE's tax rates are affected by permanent items, such as AFUDC equity and other flow-through items, as well as discrete items that may occur in any given period, but are not consistent from period to period. The following table provides a reconciliation of federal income tax expense at the federal statutory rate to the total income taxes for the years ended December 31, 2023 and 2022:

	For the Years Ended December 31,					
(In millions)		2023		2022

501		
17		
(87)		
(29)		
10		
22		
434		
B		

OE records as deferred income tax assets the effect of NOLs and tax credits that will more likely than not be realized through future operations and through the reversal of existing temporary differences. As of December 31, 2023, OE's deferred income tax assets attributable to loss carryforwards consisted of approximately \$5 million (\$1 million, net of tax) of federal NOL carryforwards that begin to expire in 2031 and approximately \$1,114 million (\$19 million, net of tax) of municipal NOLs, of which

approximately \$295 million (\$5 million, net of tax) is expected to be utilized based on current estimates and assumptions prior to expiration, which will begin in 2025. In addition, OE's tax credit carryforwards primarily consisted of AMT credits of \$8 million, which have no expiration.

OE accounts for uncertainty in income taxes recognized in its financial statements. A recognition threshold and measurement attribute is utilized for financial statement recognition and measurement of tax positions taken or expected to be taken on a company's tax return. As of December 31, 2023 and 2022, OE's total unrecognized income tax benefits were immaterial. As of December 31, 2023, OE does not anticipate any of the unrecognized income tax benefits will be resolved during 2024.

OE recognizes interest expense or income and penalties related to uncertain tax positions in income taxes. That amount is computed by applying the applicable statutory interest rate to the difference between the tax position recognized and the amount previously taken or expected to be taken on the tax return. During 2023 and 2022, OE did not record any interest related to uncertain tax positions, nor does OE have a cumulative net interest payable recorded on its Consolidated Balance Sheets.

OE has tax returns under review by municipal taxing authorities at the audit or appeals level for tax years 2020-2022.

General Taxes

Details of general taxes for the years ended December 31, 2023 and 2022 are shown below:

(In millions)	2	023	2022		
kWh excise	\$	86	\$	88	
Gross receipts		22		21	
Real and personal property		117		113	
Social security and unemployment		12		11	
Total general taxes	\$	237	\$	233	

6. LEASES

OE primarily leases vehicles as well as building space, office equipment, and other property and equipment under cancelable and noncancelable leases.

In addition, ATSI has a ground lease with OE and Penn under an operating lease agreement. Land use is rented to ATSI under the terms and conditions of a ground lease. OE and Penn reserve the right to use (and to permit authorized others to use) the land for any purpose that does not cause a violation of electrical safety code or applicable law, or does not impair ATSI's ability to satisfy its service obligations. Additional uses of such land for ATSI's facilities requires prior written approval from the applicable operating companies. ATSI purchases directly any new property acquired for transmission use. ATSI makes fixed quarterly lease payments for the ground lease to OE and Penn through December 31, 2049, unless terminated prior to maturity, or extended by ATSI for up to 10 additional successive periods of 50 years each. Revenue associated with this agreement was approximately \$12 million for 2023 and 2022.

OE accounts for leases under, "Leases (Topic 842)". Leases with an initial term of 12 months or less are recognized as lease expense on a straight-line basis over the lease term and not recorded on the balance sheet. Most leases include one or more, options to renew, with renewal terms that can extend the lease term from 1 to 40 years, and certain leases include options to terminate. The exercise of lease renewal options is at OE's sole discretion. Renewal options are included within the lease liability if they are reasonably certain based on various factors relative to the contract. Certain leases also include options to purchase the leased property. The depreciable life of leased assets and leasehold improvements are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise. OE has elected a policy to not separate lease components from non-lease components for all asset classes.

Finance leases for assets used in regulated operations are recognized in OE's Statement of Income such that amortization of the right-of-use asset and interest on lease liabilities equals the expense recorded for ratemaking purposes. All operating lease expenses are recognized in Other operating expense. The components of lease expense were as follows:

	For the Years Ended December 31,							
(In millions)	2	023		2022				
Operating lease costs ⁽¹⁾	\$	10	\$	11				
Finance lease costs:								
Amortization of right-of-use assets		1_		3				
Total finance lease cost		1		3				
Total lease cost	\$	11	\$	14				

⁽¹⁾ Includes \$3 million and \$5 million of short-term lease costs for the years ended December 31, 2023 and 2022, respectively.

Supplemental balance sheet information related to leases was as follows:

			As of Dec	emb	er 31,
(In millions)	Financial Statement Line Item	2023			2022
Assets					
Operating lease assets ⁽¹⁾	Investments and other noncurrent assets	\$	29	\$	34
Finance lease assets(2)	Property, plant and equipment		_		1
Total leased assets		\$	29	\$	35
Liabilities					
Current:					
Operating	Other current liabilities	\$	6	\$	6
Finance	Currently payable long-term debt		_		1
Noncurrent:					
Operating	Other noncurrent liabilities		21		27
Total leased liabilities		\$	27	\$	34

⁽¹⁾ Operating lease assets are recorded net of accumulated amortization of \$20 million and \$15 million as of December 31, 2023 and 2022, respectively.

Lease terms and discount rates were as follows:

	As of December 31, 2023	As of December 31, 2022
Weighted-average remaining lease terms (years)		
Operating leases	5.0	5.8
Finance leases	0.4	1.0
Weighted-average discount rate ⁽¹⁾		
Operating leases	3.24 %	3.09 %
Finance leases	3.88 %	3.86 %

⁽¹⁾ When an implicit rate is not readily determinable, an incremental borrowing rate is utilized, determining the present value of lease payments. The rate is determined based on expected term and information available at the commencement date.

⁽²⁾ Finance lease assets are recorded net of accumulated amortization of \$5 million and \$11 million as of December 31, 2023 and 2022, respectively.

Supplemental cash flow information related to leases was as follows:

	For the Years Ended December 31,						
(In millions)		23	2022				
Cash paid for amounts included in the measurement of lease liabilities							
Operating cash flows from operating leases	\$	7 \$	7				
Operating cash flows from finance leases		_	_				
Finance cash flows from finance leases		1	2				
Right-of-use assets obtained in exchange for lease obligations:							
Operating leases	\$	1 \$	5				
Finance leases		_	_				

Maturities of lease liabilities as of December 31, 2023, were as follows:

(In millions)	Operating Leases			
2024	\$	7		
2025		6		
2026		5		
2027		5		
2028		4		
Thereafter		3		
Total lease payments		30		
Less imputed interest		3		
Total net present value	\$	27		

As of December 31, 2023, additional operating leases agreements, primarily for vehicles, that have not yet commenced are \$10 million. These leases are expected to commence in the next 18 months with lease terms of 5 to 10 years.

7. VARIABLE INTEREST ENTITY

OE performs qualitative analyses to determine whether a variable interest gives OE a controlling financial interest in a VIE. This analysis identifies the primary beneficiary of a VIE as the enterprise that has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity that could potentially be significant to the VIE or the right to receive benefits from the entity that could potentially be significant to the VIE. OE consolidates a VIE when it is determined that it is the primary beneficiary.

Consolidated VIEs

VIEs in which OE is the primary beneficiary consist of the following (included in OE's consolidated financial statements):

Ohio Securitization - In September 2012, OE formed OE Funding LLC as a separate, wholly owned limited liability SPE. The phase-in recovery bonds issued by the SPE are payable only from, and secured by, phase-in recovery property owned by the SPE (i.e. the right to impose, charge and collect irrevocable non-bypassable usage-based charges payable by retail electric customers in the service territories of OE) and the bondholder has no recourse to the general credit of FirstEnergy or OE. OE, as servicer of the SPE, manages and administers the phase-in recovery property including the billing, collection and remittance of usage-based charges payable by retail electric customers. The SPE is considered a VIE and is consolidated into the financial statements of OE. The cash collected from OE customers is used to service debt of the funding company and is reflected as restricted cash on the Consolidated Balance Sheets. As of December 31, 2023 and 2022, \$101 million and \$110 million of the phase-in recovery bonds were outstanding, respectively.

Unconsolidated VIEs

OE does not have any unconsolidated VIEs.

8. FAIR VALUE MEASUREMENTS

INVESTMENTS

All temporary cash investments purchased with an initial maturity of three months or less are reported as cash equivalents on the Consolidated Balance Sheets at cost, which approximates their fair market value. Investments other than cash and cash equivalents include held-to-maturity securities.

LONG-TERM DEBT

All borrowings with initial maturities of less than one year are defined as short-term financial instruments under GAAP and are reported as Short-term borrowings on the Consolidated Balance Sheets at cost. Since these borrowings are short-term in nature, OE believes that their costs approximate their fair market value. The following table provides the approximate fair value and related carrying amounts of long-term debt, which excludes finance lease obligations, net unamortized debt issuance costs and discounts:

	 December 31, 2023			December 31, 2022			
(In millions)	arrying /alue		Fair /alue		arrying /alue		Fair Value
Long-term debt	\$ 1,276	\$	1,358	\$	1,285	\$	1,320

The fair value of long-term debt reflects the present value of the cash outflows relating to those securities based on the current call price, the yield to maturity or the yield to call, as deemed appropriate at the end of each respective period. The yields assumed were based on securities with similar characteristics offered by corporations with credit ratings similar to those of OE. OE classified long-term debt as Level 2 in the fair value hierarchy as of December 31, 2023 and 2022.

9. CAPITALIZATION

COMMON STOCK

In addition to paying dividends from retained earnings, OE has authorization from the FERC to pay cash dividends to FirstEnergy from paid-in capital accounts, as long as its FERC-defined equity-to-total-capitalization ratio remains above 35%. If such dividends are paid from paid in capital, it is deemed a return of capital. Prior to the consolidation of the Pennsylvania Companies that occurred on January 1, 2024, Penn had authorization from the FERC to pay cash dividends to FirstEnergy from paid-in capital accounts, as long as its FERC-defined equity-to-total-capitalization ratio remained above 35%.

PREFERRED AND PREFERENCE STOCK

OE and Penn are authorized to issue preferred stock and preference stock as of December 31, 2023, as follows:

	Preferred Stock			Preference Stock			
	Shares Authorized		Par Value	Shares Authorized	Par Value		
OE	6,000,000	\$	100	8,000,000	no par		
OE	8,000,000	\$	25				
Penn	1,200,000	\$	100				

As of December 31, 2023, and 2022, there were no preferred or preference shares outstanding.

LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS

The following table presents outstanding long-term debt and finance lease obligations for OE and Penn as of December 31, 2023 and 2022:

	As of December 31, 2023			As of Dece	ember 31,	
	Maturity Date	Interest Rate	2023		023 203	
				(ln mil	lions	5)
FMBs	2032 - 2056	3.790% - 8.250%	\$	525	\$	525
Secured notes - fixed rate	2034	3.450%		101		110
Unsecured notes - fixed rate	2033 - 2036	5.500% - 6.875%		650		650
Finance lease obligations				_		1
Unamortized debt premiums/discounts				(6)		(7)
Unamortized debt issuance costs				(7)		(7)
Currently payable long-term debt				(8)		(9)
Total long-term debt and other long-term obligations			\$	1,255	\$	1,263

The following table presents scheduled debt repayments for outstanding long-term debt, excluding finance leases and unamortized debt discounts and premiums, for the next five years as of December 31, 2023.

(In millions)	2024	2025	2026	2027	2028
Scheduled debt repayments	\$8	\$9	\$9	\$9	\$10

Phase-In Recovery Bonds

In June 2013, the SPEs formed by the Ohio Companies issued pass-through trust certificates (OE - \$170 million) supported by phase-in recovery bonds to securitize the recovery of certain all electric customer heating discounts, fuel and purchased power regulatory assets. As of December 31, 2023 and 2022, \$101 million and \$110 million of the phase-in recovery bonds were outstanding at OE, respectively.

See Note 7, "Variable Interest Entity," for additional information on securitized bonds.

FMBs

OE and Penn have a first mortgage indenture under which it can issue FMBs secured by a direct first mortgage lien on substantially all of its property and franchises, other than specifically excepted property. The outstanding debt under the FMBs of specific FE PA predecessors (WP and Penn) were assumed by FE PA.

Debt Covenant Default Provisions

OE has various debt covenants under certain financing arrangements, including its revolving credit facility. The most restrictive of the debt covenants relate to the nonpayment of interest and/or principal on such debt and the maintenance of certain financial ratios. The failure by OE to comply with the covenants contained in any of its financing arrangements could result in an event of default, which may have an adverse effect on OE's financial condition.

Additionally, there are cross-default provisions in certain financing arrangements of FE and its subsidiaries, including OE. These provisions generally trigger a default in the applicable financing arrangement of an entity if it or any of its significant subsidiaries default under another financing arrangement in excess of a certain principal amount, typically \$100 million. Although such defaults by OE would cross-default FE financing arrangements containing these provisions, defaults by FE would generally not cross-default applicable OE financing arrangements.

As of December 31, 2023, OE and Penn were in compliance with all debt covenant default provisions.

10. SHORT-TERM BORROWINGS AND BANK LINES OF CREDIT

OE had \$134 million of outstanding short-term borrowings as of December 31, 2023 and no outstanding short-term borrowings as of December 31, 2022.

Revolving Credit Facility

On October 18, 2021, FE, FET, the Utilities and the Transmission Companies entered into the 2021 Credit Facilities, which were six separate senior unsecured five-year syndicated revolving credit facilities with JPMorgan Chase Bank, N.A., Mizuho Bank, Ltd. and PNC Bank, National Association that replaced the FE Revolving Facility and the FET Revolving Facility, and provide for aggregate commitments of \$4.5 billion. Under the 2021 Credit Facilities, an aggregate amount of \$4.5 billion is available to be borrowed, repaid and reborrowed, subject to each borrower's respective sublimit under the respective facilities. These credit facilities provide substantial liquidity to support the Regulated businesses, and each of the operating companies within the businesses.

On October 20, 2023, FE and certain of its subsidiaries entered into the amendments to each of the 2021 Credit Facilities to, among other things; (i) amend the FE Revolving Facility to release FET as a borrower and (ii) extend the maturity date of the 2021 Credit Facilities for an additional one-year period, from October 18, 2026 to October 18, 2027. Also, on October 20, 2023, each of FET and KATCo entered into the 2023 Credit Facilities. In connection with PA Consolidation, the Pennsylvania Companies' rights and obligations under their revolving credit facility were assumed by FE PA on January 1, 2024.

Under the FET Revolving Facility, \$1.0 billion is available to be borrowed, repaid and reborrowed until October 20, 2028. Under the KATCo Revolving Facility, (i) \$150 million is available to be borrowed, repaid and reborrowed until October 20, 2027, (ii) borrowings will mature on the earlier of 364 days from the date of borrowing or the commitment termination date, as the same may be extended; upon KATCo demonstrating to the administrative agent authorization to borrow amounts maturing more than 364 days from the date of borrowing, its borrowings will mature on the latest commitment termination date. KATCo may not draw on the KATCo Credit Facility until the satisfaction of certain conditions, including the availability of first quarter financial statements, which are expected to be completed during the second quarter of 2024.

The 2021 Credit Facilities and 2023 Credit Facilities are as follows:

- FE, \$1.0 billion revolving credit facility;
- FET, \$1.0 billion revolving credit facility;
- · Ohio Companies, \$800 million revolving credit facility;
- FE PA⁽¹⁾, \$950 million revolving credit facility;
- JCP&L, \$500 million revolving credit facility;
- MP and PE, \$400 million revolving credit facility;
- Transmission Companies, \$850 million revolving credit facility; and
- KATCo, \$150 million revolving credit facility.

(1) Effective January 1, 2024, FE PA succeeded the Pennsylvania Companies as the borrower under the Pennsylvania Companies' revolving credit facility.

Borrowings under the 2021 Credit Facilities and 2023 Credit Facilities may be used for working capital and other general corporate purposes. Generally, borrowings under each of the credit facilities are available to each borrower separately and mature on the earlier of 364 days from the date of borrowing or the commitment termination date, as the same may be extended. Each of the 2021 Credit Facilities and 2023 Credit Facilities contain financial covenants requiring each borrower, with the exception of FE, to maintain a consolidated debt-to-total-capitalization ratio (as defined under each of the 2021 Credit Facilities and 2023 Credit Facilities) of no more than 65%, and 75% for FET, measured at the end of each fiscal quarter.

Under their credit facilities, OE and Penn (Penn prior to the consolidation of Pennsylvania companies) may borrow up to \$300 million and \$100 million, respectively, all of which was available to OE and Penn as of December 31, 2023. These short-term debt limitations are subject to the regulatory short-term debt authorization of \$500 million and \$150 million, respectively, which also includes amounts that may be borrowed under the regulated companies' money pool.

The 2021 Credit Facilities and 2023 Credit Facilities do not contain provisions that restrict the ability to borrow or accelerate payment of outstanding advances in the event of any change in credit ratings of the borrowers. Pricing is defined in "pricing grids," whereby the cost of funds borrowed under the 2021 Credit Facilities and the 2023 Credit Facilities are related to the credit ratings of the company borrowing the funds. Additionally, borrowings under each of the 2021 Credit Facilities and 2023 Credit Facilities are subject to the usual and customary provisions for acceleration upon the occurrence of events of default, including a cross-default for other indebtedness in excess of \$100 million.

As of December 31, 2023, OE and Penn had a debt-to-total-capitalization ratio of 50.5% and 46.1%, respectively, which was in compliance with the applicable covenants under their respective 2021 Credit Facility and 2023 Credit Facility.

FirstEnergy Money Pool

FE's utility operating subsidiary companies, including OE and Penn (Penn prior to the consolidation of Pennsylvania companies that occured on January 1, 2024), also have the ability to borrow from each other and FE to meet their short-term working capital requirements. FESC administers these money pools and tracks surplus funds of FE and the respective regulated and unregulated subsidiaries, as the case may be, as well as proceeds available from bank borrowings. Companies receiving a loan under the money pool agreements must repay the principal amount of the loan, together with accrued interest, within 364 days of borrowing the funds. The rate of interest is the same for each company receiving a loan from their respective pool and is based on the average cost of funds available through the pool. Interest rates have increased significantly, which has caused the rate and interest expense on borrowings under the various FirstEnergy credit facilities to be significantly higher. The average interest rates for borrowings in 2023 and 2022 were 6.30% and 2.27% per annum, respectively.

11. REGULATORY MATTER

STATE REGULATION

OE's retail rates, conditions of service, issuance of securities and other matters are subject to regulation in Ohio by the PUCO. In addition, under Ohio law, municipalities may regulate rates of a public utility, subject to appeal to the PUCO if not acceptable to the utility. The key terms of OE's current rate orders for distribution customer billings, which have been effective since January 2009, include an allowed debt/equity ratio of 51%/49% and an allowed ROE of 10.5%.

Penn's retail rates, conditions of service, issuance of securities and other matters were subject to regulation in Pennsylvania by the PPUC. As of December 31, 2023, the key terms of Penn's current rate orders for distribution customer billings, which have been effective since January 2017, include an allowed debt/equity ratio of 49.9%/50.1% (reflecting the filed debt/equity as final settlement/orders do not specifically include capital structure). The PPUC-approved settlement agreement for such rates did not disclose ROE. As discussed below, on January 1, 2024, FirstEnergy consolidated the Pennsylvania Companies into FE PA, making it a new, single operating entity, and will operate under the rate districts of the former Pennsylvania Companies, including Penn.

OHIO

The Ohio Companies operate under PUCO-approved base distribution rates that became effective in 2009. The Ohio Companies currently operate under ESP IV, effective June 1, 2016 and continuing through May 31, 2024, that continues the supply of power to non-shopping customers at a market-based price set through an auction process. ESP IV also continues the Rider DCR, which supports continued investment related to the distribution system for the benefit of customers, with increased revenue caps of \$20 million per year from June 1, 2019 through May 31, 2022; and \$15 million per year from June 1, 2022 through May 31, 2024. In addition, ESP IV includes: (1) continuation of a base distribution rate freeze through May 31, 2024; (2) a goal across FirstEnergy to reduce CO₂ emissions by 90% below 2005 levels by 2045; and (3) contributions, totaling \$51 million to: (a) fund energy conservation programs, economic development and job retention in the Ohio Companies' service territories; (b) establish a fuel-fund in each of the Ohio Companies' service territories to assist low-income customers; and (c) establish a Customer Advisory Council to ensure preservation and growth of the competitive market in Ohio.

On April 5, 2023, the Ohio Companies filed an application with the PUCO for approval of ESP V, for an eight-year term beginning June 1, 2024, and continuing through May 31, 2032. ESP V proposes to continue providing power to non-shopping customers at market-based prices set through an auction process, with process enhancements designed to reduce costs to customers. ESP V also proposes to continue riders supporting investment in the Ohio Companies' distribution system, including Rider DCR with annual revenue cap increases of \$15 to \$21 million per year, based on reliability performance, and Rider AMI for recovery of approved grid modernization investments. ESP V proposes new riders to support continued maintenance of the distribution system, including vegetation management and storm restoration operating expense. In addition, ESP V proposes four-year energy efficiency and peak demand reduction programs for residential and commercial customers, with cost recovery spread over eight years. ESP V further includes a commitment to spend \$52 million in total over the eight-year term, without recovery from customers, on initiatives to assist low-income customers, education and incentives to help ensure customers have good experiences with electric vehicles. Hearings commenced on November 7, 2023 and concluded on December 6, 2023. On December 6, 2023, certain intervenors filed a motion requesting a limited stay of the Ohio Companies' proposal to continue Rider DCR. The Ohio Companies contested the motion, which is pending.

On May 16, 2022, the Ohio Companies filed their application for determination of the existence of SEET under ESP IV for calendar year 2021, which demonstrated that each of the individual Ohio Companies did not have significantly excessive earnings. This matter remains pending before the PUCO.

On July 15, 2022, the Ohio Companies filed an application with the PUCO for approval of phase two of their distribution grid modernization plan that would, among other things, provide for the installation of an additional 700 thousand smart meters, distribution automation equipment on approximately 240 distribution circuits, voltage regulating equipment on approximately 220 distribution circuits, and other investments and pilot programs in related technologies designed to provide enhanced customer benefits. The Ohio Companies propose that phase two will be implemented over a four-year budget period with estimated capital

investments of approximately \$626 million and operations and maintenance expenses of approximately \$144 million over the deployment period. Under the proposal, costs of phase two of the grid modernization plan would be recovered through the Ohio Companies' AMI rider, pursuant to the terms and conditions approved in ESP IV. Hearings are scheduled to commence on April 16, 2024. On January 22, 2024, OCC filed a motion requesting a stay of phase two. The Ohio Companies contested the motion, which is pending.

On September 8, 2020, the OCC filed motions in the Ohio Companies' corporate separation audit and DMR audit dockets, requesting the PUCO to open an investigation and management audit, hire an independent auditor, and require FirstEnergy to show it did not improperly use money collected from consumers or violate any utility regulatory laws, rules or orders in its activities regarding HB 6. On December 30, 2020, in response to the OCC's motion, the PUCO reopened the DMR audit docket, and directed PUCO staff to solicit a third-party auditor and conduct a full review of the DMR to ensure funds collected from customers through the DMR were only used for the purposes established in ESP IV. On June 2, 2021, the PUCO selected an auditor, and the auditor filed the final audit report on January 14, 2022, which made certain findings and recommendations. The report found that spending of DMR revenues was not required to be tracked, and that DMR revenues, like all rider revenues, are placed into the regulated money pool as a matter of routine, where the funds lose their identity. Therefore, the report could not suggest that DMR funds were used definitively for direct or indirect support for grid modernization. The report also concluded that there was no documented evidence that ties revenues from the DMR to lobbying for the passage of HB 6, but also could not rule out with certainty uses of DMR funds to support the passage of HB 6. The report further recommended that the regulated companies' money pool be audited more frequently and the Ohio Companies adopt formal dividend policies. Final comments and responses were filed by parties during the second quarter of 2022. The proceeding was stayed in its entirety, including discovery and motions, and all related procedural schedules were vacated after the PUCO granted the request by the U.S. Attorney for the Southern District of Ohio to stay the proceeding on August 16, 2022. The PUCO granted additional requests by the U.S. Attorney for the Southern District of Ohio to stay the proceeding for six months on March 8, 2023 and August 23, 2023. On February 21, 2023, the PUCO ordered that the stay be lifted, effective February 26, 2024. On February 26, 2024, the Attorney Examiner consolidated this proceeding with the expanded Rider DCR audit proceeding described below and set a procedural schedule with evidentiary hearings scheduled to begin June 3, 2024. OCC has appealed the February 26, 2024, order requesting certain revisions to the procedural schedule.

On September 15, 2020, the PUCO opened a new proceeding to review the political and charitable spending by the Ohio Companies in support of HB 6 and the subsequent referendum effort, and directing the Ohio Companies to show cause, demonstrating that the costs of any political or charitable spending in support of HB 6, or the subsequent referendum effort, were not included, directly or indirectly, in any rates or charges paid by customers. The Ohio Companies initially filed a response stating that the costs of any political or charitable spending in support of HB 6, or the subsequent referendum effort, were not included, directly or indirectly, in any rates or charges paid by customers, but on August 6, 2021, filed a supplemental response explaining that, in light of the facts set forth in the DPA and the findings of the Rider DCR audit report further discussed below, political or charitable spending in support of HB 6, or the subsequent referendum effort, affected pole attachment rates paid by approximately \$15 thousand. On October 26, 2021, the OCC filed a motion requesting the PUCO to order an independent external audit to investigate FE's political and charitable spending related to HB 6, and to appoint an independent review panel to retain and oversee the auditor. In November and December 2021, parties filed comments and reply comments regarding the Ohio Companies' original and supplemental responses to the PUCO's September 15, 2020, show cause directive. On May 4, 2022, the PUCO selected a third-party auditor to determine whether the show cause demonstration submitted by the Ohio Companies is sufficient to ensure that the cost of any political or charitable spending in support of HB 6 or the subsequent referendum effort was not included, directly or indirectly, in any rates or charges paid by ratepayers. The proceeding was stayed in its entirety, including discovery and motions, and all related procedural schedules were vacated after the PUCO granted the request by the U.S. Attorney for the Southern District of Ohio to stay the proceeding on August 16, 2022. The PUCO granted additional requests by the U.S. Attorney for the Southern District of Ohio to stay the proceeding for six months on March 8, 2023 and August 23, 2023. On February 21, 2023, the PUCO ordered that the stay be lifted, effective February 26, 2024. On February 26, 2024, the Attorney Examiner directed the third-party auditor to file its report by August 28, 2024.

In connection with an ongoing audit of the Ohio Companies' policies and procedures relating to the code of conduct rules between affiliates, on November 4, 2020, the PUCO initiated an additional corporate separation audit as a result of the FirstEnergy leadership transition announcement made on October 29, 2020, as further discussed below. The additional audit is to ensure compliance by the Ohio Companies and their affiliates with corporate separation laws and the Ohio Companies' corporate separation plan. The additional audit is for the period from November 2016 through October 2020. The final audit report was filed on September 13, 2021. The audit report makes no findings of major non-compliance with Ohio corporate separation requirements, minor non-compliance with eight requirements, and findings of compliance with 23 requirements. Parties filed comments and reply comments on the audit report. The proceeding was stayed in its entirety, including discovery and motions, and all related procedural schedules were vacated after the PUCO granted the request by the U.S. Attorney for the Southern District of Ohio to stay the proceeding on August 16, 2022. The PUCO granted additional requests by the U.S. Attorney for the Southern District of Ohio to stay the proceeding for six months on March 8, 2023 and August 23, 2023. On February 21, 2023, the PUCO ordered that the stay be lifted, effective February 26, 2024. On February 26, 2024, the Attorney Examiner set a procedural schedule with evidentiary hearings scheduled to begin July 22, 2024. OCC has appealed the February 26, 2024, order requesting certain revisions to the procedural schedule.

In connection with an ongoing annual audit of the Ohio Companies' Rider DCR for 2020, and as a result of disclosures in FirstEnergy's Form 10-K for the year ended December 31, 2020 (filed on February 18, 2021), the PUCO expanded the scope of the audit on March 10, 2021, to include a review of certain transactions that were either improperly classified, misallocated, or lacked supporting documentation, and to determine whether funds collected from customers were used to pay the vendors, and if so, whether or not the funds associated with those payments should be returned to customers through Rider DCR or through an alternative proceeding. On August 3, 2021, the auditor filed its final report on this phase of the audit, and the parties submitted comments and reply comments on this audit report in October 2021. Additionally, on September 29, 2021, the PUCO expanded the scope of the audit in this proceeding to determine if the costs of the naming rights for FirstEnergy Stadium have been recovered from the Ohio Companies' customers. On November 19, 2021, the auditor filed its final report, in which the auditor concluded that the FirstEnergy Stadium naming rights expenses were not recovered from Ohio customers. On December 15, 2021, the PUCO further expanded the scope of the audit to include an investigation into an apparent nondisclosure of a side agreement in the Ohio Companies' ESP IV settlement proceedings, but stayed its expansion of the audit until otherwise ordered by the PUCO. The proceeding was stayed in its entirety, including discovery and motions, and all related procedural schedules were vacated after the PUCO granted the request by the U.S. Attorney for the Southern District of Ohio to stay the proceeding on August 16, 2022. The PUCO granted additional requests by the U.S. Attorney for the Southern District of Ohio to stay the proceeding for six months on March 8, 2023 and August 23, 2023. On February 21, 2023, the PUCO ordered that the stay be lifted, effective February 26, 2024. On February 26, 2024, the Attorney Examiner consolidated this proceeding with the Rider DMR audit proceeding described above, further lifted the stay of the portion of the investigation relating to an apparent nondisclosure of a side agreement, and set a procedural schedule with evidentiary hearings scheduled to begin on June 3, 2024. OCC has appealed the February 26, 2024, order requesting certain revisions to the procedural schedule.

On March 1, 2024, the Attorney Examiner issued an Entry in all four PUCO investigations that, among other things, precluded from taking or offering the testimony of Charles E. Jones, Michael J. Dowling, or Samuel Randazzo through deposition or other means, or requiring these individuals to produce documents, in any PUCO proceeding, until otherwise ordered.

On September 22, 2023, OCC filed an application for rehearing challenging the PUCO's August 23, 2023, order to stay the pending HB 6 related matters above, which the PUCO denied on October 18, 2023. On November 17, 2023, OCC filed an application for rehearing challenging the October 18, 2023 entry to the extent the PUCO decided not to stay ESP V as well as Grid Mod I along with the investigations. On November 27, 2023, the Ohio Companies filed a memorandum contra OCC's application for rehearing.

In the fourth quarter of 2020, motions were filed with the PUCO requesting that the PUCO amend the Ohio Companies' riders for collecting the OVEC-related charges required by HB 6 to provide for refunds in the event such provisions of HB 6 are repealed. Neither the Ohio Companies nor FE benefit from the OVEC-related charges the Ohio Companies collect. Instead, the Ohio Companies are further required by HB 6 to remit all the OVEC-related charges they collect to non-FE Ohio electric distribution utilities. The Ohio Companies contested the motions, which are pending before the PUCO.

On May 15, 2023, the Ohio Companies filed their application for determination of the existence of SEET under ESP IV for calendar year 2022, which demonstrated that each of the individual Ohio Companies did not have significantly excessive earnings. This matter remains pending before the PUCO.

See Note 12, "Commitments and Contingencies - Other Legal Proceedings" below for additional details on the government investigations and subsequent litigation surrounding the investigation of HB 6.

PENNSYLVANIA

The Pennsylvania Companies operated under rates approved by the PPUC, effective as of January 27, 2017. On January 1, 2024, each of the Pennsylvania Companies merged with and into FE PA. As a result of the PA Consolidation, FE PA will have five rate districts in Pennsylvania – four that correspond to the territories previously serviced by ME, PN, Penn, and WP and one rate district that corresponds to WP's service provided to The Pennsylvania State University. The rate districts created by the PA Consolidation will continue the current rate structure of ME, PN, Penn, and WP until the earlier of 2033 or in the fourth base rate case filed after January 1, 2025.

Pursuant to Pennsylvania Act 129 of 2008 and PPUC orders, the Pennsylvania Companies implemented energy efficiency and peak demand reduction programs with demand reduction targets, relative to 2007 to 2008 peak demands, at 2.9% MW for ME, 3.3% MW for PN, 2.0% MW for Penn, and 2.5% MW for WP; and energy consumption reduction targets, as a percentage of the Pennsylvania Companies' historic 2009 to 2010 reference load at 3.1% MWh for ME, 3.0% MWh for PN, 2.7% MWh for Penn, and 2.4% MWh for WP. The fourth phase of FE PA's energy efficiency and peak demand reduction program, which runs for the five -year period beginning June 1, 2021 through May 31, 2026, was approved by the PPUC on June 18, 2020, providing through cost recovery of approximately \$390 million to be recovered through Energy Efficiency and Conservation Phase IV Riders for each FE PA rate district.

Pennsylvania EDCs are permitted to seek PPUC approval of an LTIIP for infrastructure improvements and costs related to highway relocation projects, after which a DSIC may be approved to recover LTIIP costs. On January 16, 2020, the PPUC

approved the Pennsylvania Companies' LTIIPs for the five-year period beginning January 1, 2020 and ending December 31, 2024 for a total capital investment of approximately \$572 million for certain infrastructure improvement initiatives. On June 25, 2021, the Pennsylvania Office of Consumer Advocate filed a complaint against Penn's quarterly DSIC rate, disputing the recoverability of the Companies' automated distribution management system investment under the DSIC mechanism. On January 26, 2022, the parties filed a joint petition for settlement that resolves all issues in this matter, which was approved by the PPUC without modification on April 14, 2022.

Following the Pennsylvania Companies' 2016 base rate proceedings, the PPUC ruled in a separate proceeding related to the DSIC mechanisms that the Pennsylvania Companies were not required to reflect federal and state income tax deductions related to DSIC-eligible property in DSIC rates. The decision was appealed to the Pennsylvania Supreme Court and in July 2021 the court upheld the Pennsylvania Commonwealth Court's reversal of the PPUC's decision and remanded the matter back to the PPUC for determination as to how DSIC calculations shall account for accumulated deferred income taxes and state taxes. The PPUC issued the order as directed.

On March 6, 2023, FirstEnergy filed applications with the PPUC, NYPSC and FERC seeking approval to consolidate the Pennsylvania Companies into a new, single operating entity. The PA Consolidation includes, among other steps: (a) the transfer of certain Pennsylvania-based transmission assets owned by WP to KATCo, (b) the contribution of Class B equity interests of MAIT then held by PN and ME to FE (and ultimately transferred to FET as part of the FET Minority Equity Interest Sale), (c) the formation of FE PA and (d) the merger of each of the Pennsylvania Companies with and into FE PA, with FE PA surviving such mergers as the successor-in-interest to all assets and liabilities of the Pennsylvania Companies. On August 30, 2023, the parties filed a settlement agreement recommending that the PPUC approve the PA Consolidation subject to the terms of the settlement, which include among other things, \$650 thousand over five years in bill assistance for income-eligible customers and the Pennsylvania Companies' commitment to (i) not seek full distribution rate unification until the earlier of 10 years or in the fourth base rate case filed after January 1, 2025 and (ii) track and share with customers certain operational and administrative efficiency costs associated with the PA Consolidation. The PPUC, NYPSC and FERC approved FirstEnergy's applications on December 7, 2023, November 16, 2023, and August 14, 2023, respectively. The transaction closed on January 1, 2024 making FE PA FirstEnergy's only regulated utility in Pennsylvania.

On May 5, 2023, FirstEnergy and Brookfield submitted applications to FERC and to the PPUC to facilitate the FET Minority Equity Interest Sale. On May 12, 2023, the parties also filed an application with the VSCC, which was approved on June 20, 2023. On August 14, 2023, FERC issued an order approving the FET Minority Equity Interest Sale. On November 24, 2023, CFIUS notified FET, Brookfield and the Abu Dhabi Investment Authority that it has determined that there were no unresolved national security issues and its review of the transaction was concluded. On November 29, 2023, the parties filed a settlement agreement recommending that the PPUC approve the transaction subject to the terms of the settlement, which include among other things, a number of ring-fencing provisions and a commitment to improve transmission reliability over the next five years. The settlement has been approved without modification by the administrative law judges and is currently pending final PPUC approval.

FERC REGULATORY MATTERS

With respect to its wholesale services and rates, OE is subject to regulation by FERC. Under the FPA, FERC regulates rates for interstate wholesale sales, accounting and other matters. FERC regulates the sale of power for resale in interstate commerce in part by granting authority to public utilities to sell wholesale power at market-based rates upon showing that the seller cannot exert market power in generation or transmission or erect barriers to entry into markets. OE has been authorized by FERC to sell wholesale power in interstate commerce and has a market-based rate tariff on file with FERC, although major wholesale purchases remain subject to review and regulation by the relevant state commissions.

Federally enforceable mandatory reliability standards apply to the bulk electric system and impose certain operating, record-keeping and reporting requirements on OE. NERC is the ERO designated by FERC to establish and enforce these reliability standards, although NERC has delegated day-to-day implementation and enforcement of these reliability standards to six regional entities, including RFC. All of the facilities that FirstEnergy operates, including those of OE, are located within RFC. FirstEnergy actively participates in the NERC and RFC stakeholder processes, and otherwise monitors and manages its companies, including OE, in response to the ongoing development, implementation and enforcement of the reliability standards implemented and enforced by RFC.

FirstEnergy, including OE, believes that it is in material compliance with all currently-effective and enforceable reliability standards. Nevertheless, in the course of operating its extensive electric utility systems and facilities, FirstEnergy, including OE, occasionally learns of isolated facts or circumstances that could be interpreted as excursions from the reliability standards. If and when such occurrences are found, FirstEnergy, including OE, develops information about the occurrence and develops a remedial response to the specific circumstances, including in appropriate cases "self-reporting" an occurrence to RFC. Moreover, it is clear that NERC, RFC and FERC will continue to refine existing reliability standards as well as to develop and adopt new reliability standards. Any inability on FirstEnergy's, including OE's, part to comply with the reliability standards for its bulk electric system could result in the imposition of financial penalties, or obligations to upgrade or build electric facilities that could have a material adverse effect on OE's financial condition, results of operations and cash flows.

FERC Audit

FERC's Division of Audits and Accounting initiated a nonpublic audit of FESC in February 2019. Among other matters, the audit is evaluating FirstEnergy's compliance with certain accounting and reporting requirements under various FERC regulations. On February 4, 2022, FERC filed the final audit report for the period of January 1, 2015 through September 30, 2021, which included several findings and recommendations that FirstEnergy has accepted. The audit report included a finding and related recommendation on FirstEnergy's methodology for allocation of certain corporate support costs to regulatory capital accounts under certain FERC regulations and reporting. Effective in the first quarter of 2022 and in response to the finding, FirstEnergy had implemented a new methodology for the allocation of these corporate support costs to regulatory capital accounts for its regulated distribution and transmission companies on a prospective basis. On December 8, 2023, FERC audit staff issued a letter advising that two unresolved audit matters, primarily related to FirstEnergy's plan to recover the reclassified operating expenses in formula transmission rates, were being referred to other offices within FERC for further review. Furthermore, OE and Penn are in the process of addressing the outcomes of the FERC Audit with the applicable state commissions and proceedings, which includes seeking continued rate base treatment of approximately \$46 million at OE and \$7 million at Penn of certain corporate support costs allocated to distribution capital assets. If OE or Penn are unable to recover these or distribution costs, it could result in future charges and/or adjustments and have an adverse impact on OE's or Penn's financial condition.

12. COMMITMENTS AND CONTINGENCIES

ENVIRONMENTAL MATTERS

Various federal, state and local authorities regulate OE with regard to air and water quality, hazardous and solid waste disposal, and other environmental matters. While OE's environmental policies and procedures are designed to achieve compliance with applicable environmental laws and regulations, such laws and regulations are subject to periodic review and potential revision by the implementing agencies. OE cannot predict the timing or ultimate outcome of any of these reviews or how any future actions taken as a result thereof may materially impact its business, results of operations, cash flows and financial condition.

OTHER LEGAL PROCEEDINGS

United States v. Larry Householder, et al.

On July 21, 2020, a complaint and supporting affidavit containing federal criminal allegations were unsealed against the now former Ohio House Speaker Larry Householder and other individuals and entities allegedly affiliated with Mr. Householder. In March 2023, a jury found Mr. Householder and his co-defendant, Matthew Borges, guilty and in June 2023, the two were sentenced to prison for 20 and 5 years, respectively. Messrs. Householder and Borges have appealed their sentences. Also, on July 21, 2020, and in connection with the DOJ's investigation, FirstEnergy received subpoenas for records from the U.S. Attorney's Office for the Southern District Ohio. FirstEnergy was not aware of the criminal allegations, affidavit or subpoenas before July 21, 2020.

On July 21, 2021, FE entered into a three-year DPA with the U.S. Attorney's Office that, subject to court proceedings, resolves this matter. Under the DPA, FE has agreed to the filing of a criminal information charging FE with one count of conspiracy to commit honest services wire fraud. The DPA requires that FirstEnergy, among other obligations: (i) continue to cooperate with the U.S. Attorney's Office in all matters relating to the conduct described in the DPA and other conduct under investigation by the U.S. government; (ii) pay a criminal monetary penalty totaling \$230 million within sixty days, which shall consist of (x) \$115 million paid by FE to the United States Treasury and (y) \$115 million paid by FE to the ODSA to fund certain assistance programs, as determined by the ODSA, for the benefit of low-income Ohio electric utility customers; (iii) publish a list of all payments made in 2021 to either 501(c)(4) entities or to entities known by FirstEnergy to be operating for the benefit of a public official, either directly or indirectly, and update the same on a quarterly basis during the term of the DPA; (iv) issue a public statement, as dictated in the DPA, regarding FE's use of 501(c)(4) entities; and (v) continue to implement and review its compliance and ethics program, internal controls, policies and procedures designed, implemented and enforced to prevent and detect violations of the U.S. laws throughout its operations, and to take certain related remedial measures. The \$230 million payment will neither be recovered in rates or charged to FirstEnergy customers nor will FirstEnergy seek any tax deduction related to such payment. The entire amount of the monetary penalty was recognized as expense in the second quarter of 2021 and paid in the third guarter of 2021. Under the terms of the DPA, the criminal information will be dismissed after FirstEnergy fully complies with its obligations under the DPA.

Legal Proceedings Relating to United States v. Larry Householder, et al.

On August 10, 2020, the SEC, through its Division of Enforcement, issued an order directing an investigation of possible securities laws violations by FE, and on September 1, 2020, issued subpoenas to FE and certain FE officers. On April 28, 2021, July 11, 2022, and May 25, 2023, the SEC issued additional subpoenas to FE, with which FE has complied. While no contingency has been reflected in its consolidated financial statements, FE believes that it is probable that it will incur a loss in connection with the resolution of the SEC investigation. Given the ongoing nature and complexity of the review, inquiries and investigations, FE cannot yet reasonably estimate a loss or range of loss that may arise from the resolution of the SEC investigation.

On June 29, 2023, the OOCIC served FE a subpoena, seeking information relating to the conduct described in the DPA. FirstEnergy was not aware of the OOCIC's investigation prior to receiving the subpoena and understands that the OOCIC's investigation is also focused on the conduct described in the DPA. FirstEnergy is cooperating with the OOCIC in its investigation. On February 12, 2024, and in connection with the OOCIC's ongoing investigation, an indictment by a grand jury of Summit County, Ohio was unsealed against the former chairman of the PUCO, Samuel Randazzo, and two former FirstEnergy senior officers, Charles E. Jones, and Michael J. Dowling, charging each of them with several felony counts, including bribery, telecommunications fraud, money laundering and aggravated theft, related to payments described in the DPA. No contingency has been reflected in FirstEnergy's consolidated financial statements, as a loss is neither probable, nor is a loss or range of loss reasonably estimable.

In addition to the subpoenas referenced above under "—United States v. Larry Householder, et. al." and the SEC investigation, certain FE stockholders and FirstEnergy customers filed several lawsuits against FirstEnergy and certain current and former directors, officers and other employees, and the complaints in each of these suits is related to allegations in the complaint and supporting affidavit relating to HB 6 and the now former Ohio House Speaker Larry Householder and other individuals and entities allegedly affiliated with Mr. Householder. The plaintiffs in each of the below cases seek, among other things, to recover an unspecified amount of damages (unless otherwise noted). Unless otherwise indicated, no contingency has been reflected in FirstEnergy's consolidated financial statements with respect to these lawsuits as a loss is neither probable, nor is a loss or range of a loss reasonably estimable.

- In re FirstEnergy Corp. Securities Litigation (S.D. Ohio); on July 28, 2020 and August 21, 2020, purported stockholders of FE filed putative class action lawsuits alleging violations of the federal securities laws. Those actions have been consolidated and a lead plaintiff, the Los Angeles County Employees Retirement Association, has been appointed by the court. A consolidated complaint was filed on February 26, 2021. The consolidated complaint alleges, on behalf of a proposed class of persons who purchased FE securities between February 21, 2017 and July 21, 2020, that FE and certain current or former FE officers violated Sections 10(b) and 20(a) of the Exchange Act by issuing misrepresentations or omissions concerning FE's business and results of operations. The consolidated complaint also alleges that FE, certain current or former FE officers and directors, and a group of underwriters violated Sections 11, 12(a)(2) and 15 of the Securities Act of 1933 as a result of alleged misrepresentations or omissions in connection with offerings of senior notes by FE in February and June 2020. On March 30, 2023, the court granted plaintiffs' motion for class certification. On April 14, 2023, FE filed a petition in the U.S. Court of Appeals for the Sixth Circuit seeking to appeal that order, which the Sixth Circuit granted on November 16, 2023. On November 30, 2023, FE filed a motion with the S.D. Ohio to stay all proceedings pending the circuit court appeal. All discovery is stayed during the pendency of the district court motion. FE believes that it is probable that it will incur a loss in connection with the resolution of this lawsuit. Given the ongoing nature and complexity of such litigation, FE cannot yet reasonably estimate a loss or range of loss.
- MFS Series Trust I, et al. v. FirstEnergy Corp., et al. and Brighthouse Funds II MFS Value Portfolio, et al. v. FirstEnergy Corp., et al. (S.D. Ohio) on December 17, 2021 and February 21, 2022, purported stockholders of FE filed complaints against FE, certain current and former officers, and certain current and former officers of EH. The complaints allege that the defendants violated Sections 10(b) and 20(a) of the Exchange Act by issuing alleged misrepresentations or omissions regarding FE's business and its results of operations, and seek the same relief as the *In re FirstEnergy Corp. Securities Litigation* described above. All discovery is stayed during the pendency of the district court motion in *In re FirstEnergy Corp. Securities Litigation* described above. FE believes that it is probable that it will incur losses in connection with the resolution of these lawsuits. Given the ongoing nature and complexity of such litigation, FE cannot yet reasonably estimate a loss or range of loss.
- State of Ohio ex rel. Dave Yost, Ohio Attorney General v. FirstEnergy Corp., et al. and City of Cincinnati and City of Columbus v. FirstEnergy Corp. (Common Pleas Court, Franklin County, OH, all actions have been consolidated); on September 23, 2020 and October 27, 2020, the OAG and the cities of Cincinnati and Columbus, respectively, filed complaints against several parties including FE, each alleging civil violations of the Ohio Corrupt Activity Act and related claims in connection with the passage of HB 6. On January 13, 2021, the OAG filed a motion for a temporary restraining order and preliminary injunction against FirstEnergy seeking to enjoin FirstEnergy from collecting the Ohio Companies' decoupling rider. On January 31, 2021, FE reached a partial settlement with the OAG and the cities of Cincinnati and Columbus with respect to the temporary restraining order and preliminary injunction request and related issues. In connection with the partial settlement, the Ohio Companies filed an application on February 1, 2021, with the PUCO to set their respective decoupling riders (Conservation Support Rider) to zero. On February 2, 2021, the PUCO approved the application of the Ohio Companies setting the rider to zero, and no additional customer bills will include new decoupling rider charges after February 8, 2021. On August 13, 2021, new defendants were added to the complaint, including two former officers of FirstEnergy. On December 2, 2021, the cities and FE entered a stipulated dismissal with prejudice of the cities' suit. After a stay, pending final resolution of the United States v. Larry Householder, et al. criminal proceeding described above, the litigation has resumed pursuant to an order, dated March 15, 2023. Discovery is ongoing. On July 31, 2023, FE and other defendants filed motions to dismiss in part the OAG's section amended complaint, which the OAG opposed. On February 16, 2024, the OAG moved to stay the case in its entirety in light of the February 9, 2024, indictments against defendants in this action.

On February 9, 2022, FE, acting through the SLC, agreed to a settlement term sheet to resolve the following shareholder derivative lawsuits relating to HB 6 and the now former Ohio House Speaker Larry Householder and other individuals and entities allegedly affiliated with Mr. Householder that were filed in the S.D. Ohio, the N.D. Ohio, and the Ohio Court of Common Pleas, Summit County:

- Gendrich v. Anderson, et al. and Sloan v. Anderson, et al. (Common Pleas Court, Summit County, Ohio, all actions have been consolidated); on July 26, 2020 and July 31, 2020, respectively, purported stockholders of FE filed shareholder derivative action lawsuits against certain current and former FE directors and officers, alleging, among other things, breaches of fiduciary duty.
- Miller v. Anderson, et al. (N.D. Ohio); Bloom, et al. v. Anderson, et al.; Employees Retirement System of the City of St. Louis v. Jones, et al.; Electrical Workers Pension Fund, Local 103, I.B.E.W. v. Anderson et al.; Massachusetts Laborers Pension Fund v. Anderson et al.; The City of Philadelphia Board of Pensions and Retirement v. Anderson et al.; Atherton v. Dowling et al.; Behar v. Anderson, et al. (S.D. Ohio, all actions have been consolidated); beginning on August 7, 2020, purported stockholders of FE filed shareholder derivative actions alleging the FE Board and officers breached their fiduciary duties and committed violations of Section 14(a) of the Exchange Act.

On March 11, 2022, the parties executed a stipulation and agreement of settlement, and filed a motion the same day requesting preliminary settlement approval in the S.D. Ohio, which the S.D. Ohio granted on May 9, 2022. Subsequently, following a hearing on August 4, 2022, the S.D. Ohio granted final approval of the settlement on August 23, 2022.

The settlement includes a series of corporate governance enhancements and a payment to FE of \$180 million, to be paid by insurance after the judgment has become final, less approximately \$36 million in court-ordered attorney's fees awarded to plaintiffs. On September 20, 2022, a purported FE stockholder filed a motion for reconsideration of the S.D. Ohio's final settlement approval. The parties filed oppositions to that motion on October 11, 2022, and the S.D. Ohio denied that motion on May 22, 2023. On June 15, 2023, the purported FE stockholder filed an appeal in the U.S. Court of Appeals for the Sixth Circuit. On February 16, 2024, the U.S. Court of Appeals for the Sixth Circuit affirmed the district court's final settlement approval. Once all appeal options are exhausted the judgement will become final. The settlement agreement is expected to resolve fully these shareholder derivative lawsuits.

On June 2, 2022, the N.D. Ohio entered an order to show cause why the court should not appoint new plaintiffs' counsel, and thereafter, on June 10, 2022, the parties filed a joint motion to dismiss the matter without prejudice, which the N.D. Ohio denied on July 5, 2022. On August 15, 2022, the N.D. Ohio issued an order stating its intention to appoint one group of applicants as new plaintiffs' counsel, and on August 22, 2022, the N.D. Ohio ordered that any objections to the appointment be submitted by August 26, 2022. The parties filed their objections by that deadline, and on September 2, 2022, the applicants responded to those objections. In the meantime, on August 25, 2022, a purported FE stockholder represented by the applicants filed a motion to intervene, attaching a proposed complaint-in-intervention purporting to assert claims that the FE Board and officers breached their fiduciary duties and committed violations of Section 14(a) of the Exchange Act as well as a claim against a third party for professional negligence and malpractice. The parties filed oppositions to that motion to intervene on September 8, 2022, and the proposed intervenor's reply in support of his motion to intervene was filed on September 22, 2022. On August 24, 2022, the parties filed a joint motion to dismiss the action pending in the N.D. Ohio based upon and in light of the approval of the settlement by the S.D. Ohio. On August 30, 2022, the parties filed a joint motion to dismiss the state court action, which the court granted on September 2, 2022. On September 29, 2023, the N.D. Ohio issued a stay of the case pending the appeal in the U.S. Court of Appeals for the Sixth Circuit.

In letters dated January 26, and February 22, 2021, staff of FERC's Division of Investigations notified FirstEnergy that the Division was conducting an investigation of FirstEnergy's lobbying and governmental affairs activities concerning HB 6, and staff directed FirstEnergy to preserve and maintain all documents and information related to the same as such have been developed as part of an ongoing non-public audit being conducted by FERC's Division of Audits and Accounting. On December 30, 2022, FERC approved a Stipulation and Consent Agreement that resolves the investigation. The agreement includes a FirstEnergy admission of violating FERC's "duty of candor" rule and related laws, and obligates FirstEnergy to pay a civil penalty of \$3.86 million, and to submit two annual compliance monitoring reports to FERC's Office of Enforcement regarding improvements to FirstEnergy's compliance programs. FE paid the civil penalty on January 4, 2023 and it will not be recovered from customers. The first annual compliance monitoring report was submitted in December 2023.

The outcome of any of these lawsuits, governmental investigations and audit is uncertain and could have a material adverse effect on FE's or its subsidiaries' reputation, business, financial condition, results of operations, liquidity, and cash flows.

Other Legal Matters

There are various lawsuits, claims (including claims for asbestos exposure) and proceedings related to OE's normal business operations pending against OE and its subsidiaries. The loss or range of loss in these matters is not expected to be material to OE or its subsidiaries. The other potentially material items not otherwise discussed above are described under Note 11, "Regulatory Matters."

OE accrues legal liabilities only when it concludes that it is probable that it has an obligation for such costs and can reasonably estimate the amount of such costs. In cases where OE determines that it is not probable, but reasonably possible that it has a material obligation, it discloses such obligations and the possible loss or range of loss if such estimate can be made. If it were ultimately determined that OE or its subsidiaries have legal liability or are otherwise made subject to liability based on any of the matters referenced above, it could have a material adverse effect on OE's or its subsidiaries' financial condition, results of operations and cash flows.

13. TRANSACTIONS WITH AFFILIATED COMPANIES

OE's revenues, expenses, miscellaneous income and interest expenses include transactions with affiliated companies. These affiliated company transactions include support service billings, interest on affiliated company notes including the money pool and other transactions.

The primary affiliated company transactions for OE during the years ended December 31, 2023 and 2022 are as follows:

	For T	For The Years Ended December 31,					
	2	2023	2022				
		(In millions)					
Revenues ⁽¹⁾	\$	12	\$	12			
Expenses:							
Support services		153		137			
Miscellaneous income		7		7			
Interest expense		5		3			

⁽¹⁾ Includes ground lease revenues from ATSI. See Note 6, "Leases", for additional information.

FE does not bill directly or allocate any of its costs to any subsidiary company. FESC provides corporate support and other services, including executive administration, accounting and finance, risk management, human resources, corporate affairs, communications, information technology, legal services and other similar services at cost, in accordance with its cost allocation manual, to affiliated FirstEnergy companies under FESC agreements. Allocated costs are for services that are provided on behalf of more than one company, or costs that cannot be precisely identified and are allocated using formulas developed by FESC. Intercompany transactions are generally settled under commercial terms within thirty days.

OE recognizes its allocated portion of the expected cost of providing pension and OPEB to employees and their beneficiaries and covered dependents from the time employees are hired until they become eligible to receive those benefits. OE also recognizes its allocated portion of obligations to former or inactive employees after employment, but before retirement, for disability-related benefits.

Under the FirstEnergy money pool, FE's utility and transmission operating subsidiary companies, including OE and Penn, have the ability to borrow from each other and the holding company to meet their short-term working capital requirements. Affiliated company notes receivables and payables related to the money pool are reported as Notes receivable from affiliated companies or Short-term borrowings - affiliated companies on the Consolidated Balance Sheets. Affiliate accounts receivable and accounts payable balances relate to intercompany transactions that have not yet settled through the FirstEnergy money pool (see Note 10, "Short-Term Borrowings and Bank Lines of Credit").

OE is party to an intercompany income tax allocation agreement with FirstEnergy that provides for the allocation of consolidated tax liabilities. Prior to tax returns for years before 2022, net tax benefits attributable to FE, excluding any tax benefits derived from certain interest expense, were generally reallocated to the subsidiaries of FE that have taxable income. Effective January 1, 2022, the intercompany income tax allocation agreement was amended and revised such that FE no longer reallocates such tax benefits to the FE subsidiaries. See Note 5, "Taxes" for additional information.
