

## **SIRIUSPOINT ENVIRONMENTAL POLICY STATEMENT**

SiriusPoint is committed to operating a sustainable business. We demonstrate our commitment by considering sustainability in our day-to-day operations, endorsing sustainability initiatives, supporting organizations that foster sustainability in our communities, and proactively setting sustainability goals to hold ourselves accountable for our actions.

As part of SiriusPoint's Environmental Policy, SiriusPoint is committed to:

- Educating SiriusPoint's workforce about climate change, our commitment to sustainability, and promoting efforts to protect the environment;
- Encouraging the reduction of carbon emissions and use of fossil fuels with remote and hybrid work arrangements, virtual client meetings, and shrinking SiriusPoint's real estate footprint;
- Transitioning from company-owned physical servers to the cloud, thereby reducing energy usage;
- SiriusPoint's "Go Paperless" initiative resulting in a dramatic reduction in paper;
- Embedding within SiriusPoint's Enterprise Risk Management (ERM) process the impact of climate change, such as the increase of frequency and severity of major climate-related events, to ensure the Company addresses this risk factor in its business practices, (re)insurance pricing, operations and investment strategy;
- Supporting recommendations from the Task Force on Climate-Related Financial Disclosures (TCFD) and aligning SiriusPoint's disclosures on climate risk with TCFD principles;
- Considering environmental building standards in the selection of office facilities;
- Conscious purchasing efforts of recycled and biodegradable products whenever possible;
- Encouraging recycling and reducing the use of plastics; and
- Communicating our sustainability standards and expectations to our third party vendors.

Importantly, SiriusPoint continues to look at new ways to minimize its impact on the environment. It is SiriusPoint's belief and expectation that long-term its sustainability approach will benefit its communities, customers, employees and shareholders.

This Environmental Policy has been approved by SiriusPoint's Governance & Nominating Committee and will be communicated to all SiriusPoint employees.
