SiriusPoint Ltd.

Basis of Presentation and Non-GAAP Financial Measures:

Unless the context otherwise indicates or requires, as used in this financial supplement references to “we,” “our,” “us,” the “Company,” and “SiriusPoint” refer to SiriusPoint Ltd. and its directly and indirectly owned subsidiaries, as a combined entity, except where otherwise stated or where it is clear that the terms mean only SiriusPoint Ltd. exclusive of its subsidiaries. We have made rounding adjustments to reach some of the figures included in this financial supplement and, unless otherwise indicated, percentages presented in this financial supplement are approximate.

In presenting SiriusPoint’s results, management has included financial measures that are not calculated under standards or rules that comprise accounting principles generally accepted in the United States (GAAP). SiriusPoint’s management uses this information in its internal analysis of results and believes that this information may be informative to investors in gauging the quality of SiriusPoint’s financial performance, identifying trends in our results and providing meaningful period-to-period comparisons. Book value per share metrics are non-GAAP financial measures. We believe that long-term growth in book value per share is an important measure of our financial performance because it allows our management and investors to track over time the value created by the retention of earnings. In addition, we believe this metric is used by investors because it provides a basis for comparison with other companies in our industry that also report a similar measure. Reconciliations of such measures to the most comparable GAAP figures are included in the attached financial information in accordance with Regulation G.

Safe Harbor Statement Regarding Forward-Looking Statements:

This Financial Supplement includes “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to known and unknown risks and uncertainties, many of which may be beyond the Company’s control. The Company cautions you that the forward-looking information presented in this Financial Supplement is not a guarantee of future events, and that actual events may differ materially from those made in or suggested by the forward-looking information contained in this Financial Supplement. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “plan,” “seek,” “comfortable with,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe” or “continue” or the negative thereof or variations thereon or similar terminology. Actual events, results and outcomes may differ materially from the Company’s expectations due to a variety of known and unknown risks, uncertainties and other factors. Among the risks and uncertainties that could cause actual results to differ from those described in the forward-looking statements are the following: the costs, expense and difficulties of the integration of the operations of Sirius Group; the impact of the novel coronavirus (COVID-19) pandemic or other unpredictable catastrophic events; fluctuations in our results of operations; a downgrade or withdrawal of our financial ratings; inadequacy of loss and loss adjustment expenses reserves; the effects of global climate change; periods characterized by excess underwriting capacity and unfavorable premium rates; reduced returns or losses in SiriusPoint’s investment portfolio; adverse changes in interest rates, foreign currency exchange rates, equity markets, debt markets or market volatility; legal restrictions on certain of SiriusPoint’s insurance and reinsurance subsidiaries’ ability to pay dividends and other distributions to SiriusPoint; SiriusPoint’s significant deferred tax assets, which could become devalued if either SiriusPoint does not generate sufficient future taxable income or applicable corporate tax rates are reduced; the lack of availability of capital; future strategic transactions such as acquisitions, dispositions, mergers, investments or joint ventures; technology breaches; our concentrated exposure in Third Point Enhanced LP (the “TP Enhanced Fund”) whose investment strategy may bear substantial investment risks; conflicts of interest among various members of TP Enhanced Fund, Third Point LLC and SiriusPoint; and other risks and uncertainties listed in the Company’s Quarterly Report on Form 10-Q for the quarters ended March 31, 2021 and June 30, 2021, and any subsequent reports filed with the Securities and Exchange Commission. All forward-looking statements speak only as of the date made and the Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Diluted	160,894,216	92,738,293	139,561,196	92,392,718

- (1) Basic earnings per share is based on the weighted average number of common shares and participating securities outstanding during the period. The weighted average number of common shares excludes any dilutive effect of outstanding warrants, options and unvested restricted shares. Diluted earnings per share is based on the weighted average number of common shares and participating securities outstanding and includes any dilutive effects of warrants, options and unvested restricted shares under share plans and are determined using the treasury stock method. U.S. GAAP requires that participating securities, be treated in the same manner as outstanding shares for earnings per share calculations. The Company treats certain of its unvested restricted shares as participating securities. In the event of a net loss, all participating securities, outstanding warrants, options and restricted shares are excluded from both basic and diluted loss per share since their inclusion would be anti-dilutive.

Tangible diluted book value per share (2)	\$ 14.30	\$ 13.97	\$ 16.71	\$ 15.37	\$ 14.62

- (1) As of December 31, 2020, September 30, 2020 and June 30, 2020, there was no dilution as a result of the Company's share price being under the lowest exercise price for warrants.
- (2) Basic book value per share, tangible basic book value per share, diluted book value per share and tangible diluted book value per share are non-GAAP financial measures. Basic book value per share, as presented, is a non-GAAP financial measure and is calculated by dividing common shareholders' equity attributable to SiriusPoint common shareholders by the number of common shares outstanding, excluding the total number of issued unvested restricted shares, at period end. Tangible basic book value per share, as presented, is a non-GAAP financial measure and is calculated by dividing tangible common shareholders' equity attributable to SiriusPoint common shareholders by the number of common shares outstanding, excluding the total number of unvested restricted shares, at period end. Tangible book value per share is useful to investors because it measures the realizable value of shareholder returns, excluding the impact of intangible assets. Diluted book value per share and tangible diluted book value per share, as presented, are non-GAAP financial measures and are calculated using the treasury stock method. Under the treasury stock method, we assume that proceeds received from in-the-money options and/or warrants exercised are used to repurchase common shares in the market. The dilutive effect of restricted shares, restricted share units and options are calculated in a manner consistent with how dilution is calculated using the treasury stock method for earnings per share. We have also followed a similar approach for calculating dilution for warrants, Series A preference shares, Upside Rights and other potentially dilutive securities issued as part of our acquisition of Sirius Group.
- (3) In the first quarter of 2021, we changed the method for calculating the dilutive effect of restricted shares, restricted share units and options to calculate the dilutive impact in a manner consistent with how dilution is calculated using the treasury stock method for earnings per share. This change had no impact on previously presented basic book value per share.

Diluted earnings per share available to SiriusPoint common shareholders (2)	\$ 0.37	\$ 1.05	\$ 1.43	\$ 0.73	\$ 1.33

(1) As of December 31, 2020, September 30, 2020 and June 30, 2020, there was no dilution as a result of the Company's average share price for the quarter being under the lowest exercise price for warrants and options.

(2) Basic earnings per share is based on the weighted average number of common shares and participating securities outstanding during the period. The weighted average number of common shares excludes any dilutive effect of outstanding warrants, options and unvested restricted shares. Diluted earnings per share is based on the weighted average number of common shares and participating securities outstanding and includes any dilutive effects of warrants, options and unvested restricted shares under share plans and are determined using the treasury stock method. U.S. GAAP requires that participating securities, be treated in the same manner as outstanding shares for earnings per share calculations. The Company treats certain of its unvested restricted shares as participating securities. In the event of a net loss, all participating securities, outstanding warrants, options and restricted shares are excluded from both basic and diluted loss per share since their inclusion would be anti-dilutive.
