Focus on profitability, targeting double-digit RoE[1] by 2024

- 2023 viewed as a transitionary year; with that said, meaningful further improvement expected
  - Significant potential improvement in profitability given stable MGA fee earnings, locked-in investment yields, cost savings and already undertaken underwriting actions
- Expecting to achieve full run-rate benefits of strategic actions in 2024

Notes: [1] Return on average common shareholders' equity attributable to SiriusPoint common shareholders.

Strategic Actions Significantly Advanced…

Priority I: Simplification of the Business Model

Challenges Faced	Merger[1] not fully integrated, leading to an inefficient operating model	Culture sub-optimal for delivery	Shifting away from a "VC model" and enhancing MGA portfolio

	• Announced initiatives include headcount reduction and closure/re-purposing of 5 offices
	• Targeted >$50m of cost savings, to be fully phased in 2024
	• Reviewing other opportunities as we finalize vision on target operating model – update to be provided in 2023
		• New leadership team
		• Remuneration structure amended to better align performance and pay
		  • COR and Book Value growth will be key variables to determine short-term and long-term variable compensation

			• Distribution partnerships are a key element of our strategy, representing ~35% of the premiums
			• Expect to further develop these partnerships
			• Focus on partnering with MGAs as a paper and capacity provider – not just an equity investor
			• Currently have equity interest in 36 MGAs / InsurTechs
			  • Not providing capacity on 10
			• Options being assessed to optimize portfolio, particularly around pure investments, depending on market conditions
