✓	Robust code of ethics in our Global Business Practice Standards
✓	Corporate sustainability report
✓	“Clawback” policy for performance-based compensation
WHAT WE DON'T DO	
✗	No pledging or hedging of Edwards' securities by directors, executives, employees with a title of “vice president” or above and “insiders” under our insider trading policy

✗	No supermajority voting provisions in the Company's organizational documents

ACTIVE STOCKHOLDER ENGAGEMENT (Page 10)

Edwards' Board of Directors (the “Board”) and management are committed to engaging with Edwards' stockholders and incorporating feedback into their decision-making processes. Our Corporate Secretary and Investor Relations teams, together with other members of management and, from time to time, our Presiding Director, engage stockholders to solicit their views and feedback on governance, compensation and other related matters and to discuss the issues that matter most to our stockholders. Stockholder feedback is shared with the Board and its committees, which enhances our governance practices, facilitates future dialogue between stockholders and the Board and provides additional transparency to our stockholders. In the winter of 2016-2017, our Corporate Secretary and Investor Relations teams contacted our top 10 stockholders representing approximately 38% of our outstanding shares, and conducted conversations with stockholders representing approximately 20% of outstanding shares. In this engagement, we received feedback from stockholders on a range of issues including governance, compensation and sustainability.

EXECUTIVE COMPENSATION (Page 24)

Executive Summary. Edwards is the global leader in patient-focused medical innovations for structural heart disease, as well as critical care and surgical monitoring. Driven by a passion to help patients, we collaborate with the world's leading clinicians and researchers to address unmet healthcare needs, working to improve patient outcomes and enhance lives.

Pay-for-Performance Philosophy. The Compensation and Governance Committee of the Board (the “Compensation Committee”) strives to create a pay-for-performance culture and strongly believes that executive compensation should be tied not only to performance, but also directly to the successful implementation of our corporate strategy. As a direct result of our strategy, we have introduced new therapies such as transcatheter aortic valve replacement, rapid-deployment surgical heart valves and noninvasive advanced hemodynamic monitoring, all while achieving our stated financial and operating objectives. Managing our business well in a challenging, highly regulated, dynamic environment requires talented and energetic leaders who champion our strategy and deliver on our commitments.

COMPENSATION PROGRAM HIGHLIGHTS (Page 26)

Compensation Program Highlights. The Compensation Committee believes that its executive compensation and benefits philosophy and objectives have resulted in programs that align executives with stockholder interests.

WHAT WE DO		
<p>✔ Pay for Performance. Approximately 88% of the total direct compensation of our CEO, and an average of 78% of the total direct compensation of our other NEOs, is performance-based.</p>	<p>We align executive compensation with the interests of our stockholders</p> <p>Executive compensation programs are designed to avoid excessive risk and foster sustainable growth</p>	
<p>✔ Linkage Between Performance Measures and Strategic Imperatives. Performance measures for incentive compensation are linked to our Strategic Imperatives through achievement of KODs and are designed to create long-term stockholder value and hold executives accountable for their individual and Edwards’ performance.</p>		
<p>✔ Performance-Based Equity. Our PBRsUs vest based on our relative TSR over a three-year period.</p>		
<p>✔ Minimum Three-Year Vesting. Equity compensation is structured to vest over a minimum period of three years, subject to limited exceptions.</p>		
<p>✔ Robust Executive Stock Ownership Guidelines with Holding Period Requirements. Executives are required to hold Edwards’ stock with a value not less than six times salary for our CEO and three times salary for each other NEO. Fifty percent of net shares received as equity compensation must be retained until the guideline has been met.</p>		
<p>✔ CEO Stock Ownership. Our CEO far exceeds his six-times salary ownership guideline and continues to increase his ownership of Edwards’ stock each year.</p>		
<p>✔ Modest Perquisites. We provide modest perquisites and have a business rationale for the perquisites that we do provide.</p>		
<p>✔ “Double Trigger” in the Event of a Change in Control. Severance benefits are paid, and equity compensation awarded starting in May 2015 vests, only upon a “double trigger” in connection with a change in control (meaning a termination of the executive’s employment is required, in addition to the occurrence of a change in control, in order for the benefits to be triggered).</p>		
<p>✔ Annual Stockholder Approval of Long-Term Stock Program Shares. We provide stockholders an annual opportunity to vote on proposed increases to the number of shares available for grant under the Long-Term Stock Program.</p>		
<p>✔ Use Tally Sheets. The Compensation Committee annually reviews “tally sheets” reflecting all compensation elements for our NEOs.</p>		
<p>✔ “Clawback” Policy. We maintain a recoupment policy for performance-based compensation.</p>	<p>We adhere to strong executive compensation and governance practices</p>	
<p>✔ Independent Compensation Consultant. The Compensation Committee engages an independent compensation consulting firm that provides us with no other services.</p>		
WHAT WE DON'T DO		
<p>✘ No excise tax gross-ups for executive officers.</p>		
<p>✘ No repricing or buyout of underwater stock options.</p>		
<p>✘ No pledging of Edwards’ securities by directors, executives, employees with a title of “vice president” or above, and “insiders” under our insider trading policy.</p>		
<p>✘ No hedging of Edwards’ securities by directors, executives, employees with a title of “vice president” or above, and “insiders” under our insider trading policy.</p>

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE STOCKHOLDERS MEETING TO BE HELD ON MAY 11, 2017

We are pleased to take advantage of Securities and Exchange Commission (the "SEC") rules that allows us to furnish the Proxy Materials over the Internet. As a result, we are mailing to most of our stockholders the Notice instead of a paper copy of the Proxy Materials. The Notice contains instructions on how to access those documents over the Internet and how to submit your proxy via the Internet. The Notice also contains instructions on how to request a paper copy of the Proxy Materials. All stockholders who do not receive a Notice will receive a paper copy of the Proxy Materials by mail. This process allows us to provide our

stockholders with the information they need in a more timely manner, while reducing the environmental impact and lowering the costs of printing and distributing the Proxy Materials. This Proxy Statement and our 2016 Annual Report are available at our website at <http://ir.edwards.com/annuals-proxies.cfm>, which does not have "cookies" that identify visitors to the site.

If you want to vote in person at the Annual Meeting, you must obtain a legal proxy from your broker, bank or other nominee and bring it to the meeting.

Shares Held in Our 401(k) Plan. If you participate in the Edwards Lifesciences Corporation 401(k) Savings and Investment Plan or the Edwards Lifesciences Corporation of Puerto Rico Savings and Investment Plan, you will receive a request for voting instructions with respect to the shares allocated to your plan account. You are entitled to direct the plan trustee how to vote your plan shares. If the plan trustee does not receive voting instructions for shares in your plan account, the shares attributable to your account will be voted in the same proportion as the allocated shares for which voting instructions have been received.

The Board has appointed William J. Link, Michael A. Mussallem and Wesley W. von Schack to serve as proxy holders to vote your shares according to the instructions you submit. If you properly submit a proxy but do not indicate how you want your shares to be voted on one or more items, your shares will be voted in accordance with the recommendations of our Board as

REVOCACTION OF YOUR PROXY

If you are a holder of record, you may revoke your proxy at any time before it is voted at the Annual Meeting by delivering written notice of revocation to the Secretary of the Company by submitting a subsequently dated proxy by mail, telephone or the Internet in the manner described above under “How to Vote,” or by attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not itself revoke an earlier submitted proxy. If you hold your shares in street name, you must follow the instructions provided by your broker, bank or nominee to revoke your voting

BROKER VOTING

Brokers holding shares of record for their customers are entitled to vote on certain routine matters, such as the ratification of the appointment of PwC, our independent registered public accounting firm (Proposal 6), without instructions from their customers. However, these brokers are generally not entitled to vote on certain non-routine matters, including the election of directors, matters relating to equity compensation plans or executive compensation, and certain corporate governance proposals, unless their

customers submit voting instructions. If you hold your shares in street name through a broker and the broker does not receive your voting instructions, the broker will not be permitted to vote your shares in its discretion on any of the proposals at the Annual Meeting other than the proposal to ratify the appointment of PwC. If you do not submit voting instructions and your broker votes your shares on Proposal 6 in its discretion, your shares will constitute “broker non-votes” on each of the other proposals.

GENERAL MEETING AND VOTING INFORMATION

QUORUM

The presence at the Annual Meeting, in person or by proxy, of holders of at least a majority of the outstanding shares of common stock entitled to vote is necessary to constitute a quorum to transact business at the Annual Meeting. Shares represented at the

Annual Meeting are counted toward a quorum even if the holder of such shares abstains from voting. Shares held through brokers are not counted toward a quorum unless the broker has authority to vote upon at least one matter at the Annual Meeting.

Georgeson and our officers, directors and regular employees may also solicit proxies by telephone, facsimile, e-mail and personal solicitation. We will not pay additional compensation to our officers, directors and regular employees for these activities.

BOARD OF DIRECTORS MATTERS

PROPOSAL 1 – ELECTION OF DIRECTORS

THE BOARD RECOMMENDS A VOTE “FOR” THE ELECTION OF EACH OF THE NOMINEES FOR DIRECTOR

General. Our Board currently consists of nine directors forming one single class of directors and at the Annual Meeting, all but one will be standing for election for a one-year term. In accordance with Edwards’ director retirement policy, Mr. John T. Cardis has not been nominated for re-election and will retire from the Board on the date of the Annual Meeting. At that time, we expect the size of the Board will be reduced to eight directors.

Since our 2016 annual meeting, in July 2016, the Board appointed a new director, Leslie S. Heisz. Ms. Heisz has extensive investment banking and previous board experience, as described further in her biography below. The Compensation Committee authorized the retention of Spencer Stuart, an executive search consulting firm, to identify and assess appropriate candidates for director. Spencer Stuart facilitated background checks on Ms. Heisz as part of the director search process. The Compensation Committee and full Board then reviewed the results of Spencer Stuart’s evaluations and screenings, conducted candidate interviews, discussed each potential nominee and appointed Ms. Heisz to the Board.

The Board has nominated the eight individuals identified below, including Ms. Heisz, for election to the Board, to serve until the next annual meeting of

stockholders and until their successors are elected and qualified, or until their earlier resignation or removal.

Each of the nominees standing for election has consented to serve as a director if elected. However, if any nominee becomes unable or unwilling for good cause to serve before the election, the shares represented by proxy may be voted for a substitute nominee designated by the Board. No arrangement or understanding exists between any nominee and any other person or persons pursuant to which any nominee was or is to be selected as a director or nominee, and none of our directors has any family relationship with any other director or with any of our executive officers. More information regarding the Board, the committees of the Board, director independence, and related matters follows this Proposal 1.

Director Nominees. The following biographical information for each of the Board’s director nominees includes information about the director’s age, background, and business experience and the specific experience, qualifications, attributes or skills that led the Board to conclude that the individual should serve as a director.

THE BOARD RECOMMENDS A VOTE "FOR" THE ELECTION OF EACH OF THE NOMINEES FOR DIRECTOR

CORPORATE GOVERNANCE POLICIES AND PRACTICES

Corporate Governance Highlights. The Company and the Board take seriously our commitment to good corporate governance. We believe the regular review of our governance practices with current issues and trends in mind, the discussions we hold with our stockholders and advisers and the practice enhancements we consider as a result, help us to compete more effectively, sustain our successes and build long-term value for our stockholders. Our commitment to good governance practices and accountability to stockholders is described in the following chart.

WHAT WE DO
✔ Annual election of directors
✔ Majority vote standard in uncontested elections, with director resignation policy
✔ Special stockholders meetings can be called by stockholders owning at least 15% of our outstanding shares
✔ Proxy access right to permit a stockholder, or a group of up to 30 stockholders, owning at least 3% of our outstanding shares continuously for at least 3 years, to nominate up to the greater of 2 directors or 20% of our Board for inclusion in our proxy statement
✔ Independent Board , all but our Chief Executive Officer
✔ Executive session of independent directors held at each Board and committee meeting
✔ Independent Presiding Director provides strong independent leadership of our Board
✔ Retirement policy for directors
✔ Annual Board and committee self-evaluations, and peer reviews
✔ Nonemployee directors expected to hold net shares upon vesting or exercise of equity awarded after 2011 until Board service ends
✔ Senior management succession planning considered at each regularly scheduled Board meeting
✔ Active stockholder engagement
✔ Robust code of ethics in our Global Business Practice Standards
✔ Corporate sustainability report
✔ “Clawback” policy for performance-based compensation
WHAT WE DON'T DO
✗ No pledging or hedging of Edwards’ securities by directors, executives, employees with a title of “vice president” or above and “insiders” under our insider trading policy
✗ No stockholder rights plan (“poison pill”)
✗ No supermajority voting provisions in the Company’s organizational documents

Active Stockholder Engagement. The Board and management are committed to engaging with Edwards’ stockholders. Throughout the year our CEO, CFO and Vice President of Investor Relations meet, by phone and face-to-face, with current and prospective stockholders to discuss Edwards’ strategy, business and financial results. Our Corporate Secretary and Investor Relations teams, together with other members of management and, from time to time, our Presiding

Director, engage stockholders to solicit their views and feedback on governance, compensation and other related matters and to discuss the issues that matter most to our stockholders. Stockholder feedback is shared with the Board and its committees, which enhances our governance practices, facilitates future dialogue between stockholders and the Board and provides additional transparency to our stockholders.

Director Independence. Under the corporate governance rules of the New York Stock Exchange (“NYSE”), a majority of the members of the Board must satisfy the NYSE criteria for independence. No director qualifies as independent unless the Board affirmatively determines that the director has no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company). The Board has determined that each of Mr. Cardis, Mr. Gallahue, Ms. Heisz, Dr. Link, Mr. Loranger, Ms. Marsh, Mr. Valeriani and Mr. von Schack is independent under the NYSE rules. Mr. Mussallem is not independent as a result of his position as our Chief Executive Officer. The Board has also determined that Dr. McNeil, who retired from the Board in 2016, was independent during her Board service.

Corporate Governance Guidelines. Our Board has adopted a set of Corporate Governance Guidelines (the “Governance Guidelines”) to assist the Board and its committees in performing their duties and serving the best interests of the Company and its stockholders. The Governance Guidelines cover topics including, but not limited to, director selection and qualification, director responsibilities and operation of the Board, director access to management and independent advisors, director compensation, director orientation and continuing education, succession planning, recoupment of performance-based compensation and the annual evaluations of the Board. The Governance Guidelines are available on our website at www.edwards.com under “Investors—Corporate Governance.”

Board Leadership Structure. Our Chief Executive Officer also serves as the Chairman of the Board. This leadership structure has been in place since we first became a public company in 2000. This approach is commonly used by other public companies in the United States, and our Board believes it has been effective for our Company as well. Under this model, the Company has experienced strong financial and operational growth over its 17 years as a public company, most recently providing a cumulative total return of 165% to stockholders from 2011 to 2016. We have a single leader, and our Chairman and Chief Executive Officer is seen by customers, business partners, investors and others as providing strong leadership for the Company in the communities we serve and in our industry. Our Board believes that combining the roles of Chairman and Chief Executive

Officer has fostered a more constructive and cooperative relationship between the Board and management, and that their communications are more open and effective than they would be under a different structure. Our Board also believes that, given its size and constructive working relationships, changing the existing structure would not improve the Board’s performance. The directors bring a broad range of leadership experience to the boardroom and regularly contribute to the thoughtful discussion involved in overseeing the affairs of the Company. All directors are well-engaged in their responsibilities, express their views, and are open to the opinions expressed by other directors.

Our Board believes that it is important to have an active, engaged and independent Board. Our Governance Guidelines provide that a substantial majority of our Board and all of the members of our Audit Committee and Compensation Committee will be independent under the applicable rules of the NYSE. All members of our Board, other than the Chairman, are independent. In order to assure that the independent directors are not inappropriately influenced by management, the non-management members of the Board meet in executive session, without management, in conjunction with each regularly scheduled meeting of the Board and each committee, and otherwise as deemed necessary. These executive sessions allow directors to speak candidly on any matter of interest, without the CEO or other members of management present. Our Governance Guidelines provide that if our Chairman is not independent, our independent directors shall annually select an independent director to serve as Presiding Director. Mr. von Schack is currently designated as the Presiding Director and, as such, he presides at the executive sessions of the Board. In discharging his responsibilities under our Governance Guidelines, Mr. von Schack serves as a liaison between the independent members of the Board and the Chairman and other members of management, providing feedback to management from the Board’s executive sessions, and coordinating the activities of the independent directors, including calling meetings of the independent directors as necessary and appropriate to address their responsibilities. He also provides advice and counsel to the Chairman, and consults and directly communicates with major stockholders, as appropriate, including participation in the Company’s stockholder outreach efforts.

BOARD OF DIRECTORS MATTERS

Board Role in Risk Oversight. Effective risk oversight is an important priority of the Board. Its role includes understanding the critical risks in the business, allocating the responsibilities for risk oversight among the full Board and its committees, evaluating the Company's risk management processes and facilitating open communication between management and the directors.

While the Board oversees risk management, the Company's management is charged with managing risk and bringing to the Board's attention the most material risks. We have robust internal processes that facilitate the identification and management of risks and assure regular communication with the Board and the Audit Committee.

The Board implements its risk oversight function both as a whole and through delegation to its committees. Both committees play significant roles in carrying out the risk oversight function.

The Audit Committee oversees risks related to the financial statements, the financial reporting process and accounting matters. It also regularly reviews Edwards' risk management processes and enterprise-wide risk management, focusing primarily on manufacturing processes and supplier quality, product development processes and systems, continuity of our operations and regulatory compliance issues. The Audit Committee also regularly reviews treasury risks (insurance, credit, debt, currency risk and hedging programs), legal and compliance risks, information technology infrastructure and cybersecurity risk, and other risk management functions. In addition, the Audit Committee considers risks to the Company's reputation and related to the maintenance of a confidential anonymous reporting hotline for ethical and compliance issues. The Audit Committee periodically receives reports on, and discusses, the risk management process and reviews significant risks and exposures identified by management, the internal auditors or the independent public accountants.

The Compensation Committee considers risks related to succession planning, the attraction and retention of talent and risks relating to the design of compensation programs and arrangements. As part of its normal review of these risks, the Compensation Committee considers the Company's compensation policies and practices to determine if their structure or implementation provides incentives to employees to take unnecessary or inappropriate risks that could have a material adverse effect on the Company. The Compensation Committee also reviews compensation

and benefits plans affecting employees, in addition to those applicable to executive officers. The Compensation Committee has determined that the implementation and structure of the compensation policies and practices do not encourage unnecessary and inappropriate risks that could have a material adverse effect on the Company. The Compensation Committee further determined that the Company's compensation programs and practices appropriately encourage employees to maintain a strong balance sheet, improve operating performance and create value for stockholders, without encouraging unreasonable or unrestricted risks. In making these determinations, the Compensation Committee considered the views of the Company's compensation staff, legal counsel and internal audit team, as well as its Compensation Consultant. In addition, the Compensation Committee oversees risks associated with the Company's political activities and expenditures, as well as its sustainability practices.

The full Board considers strategic risks and opportunities and regularly receives reports from the committees regarding risk oversight in their areas of responsibility. Our Board believes that the processes it has established for overseeing risk would be effective under a variety of leadership frameworks and therefore do not materially affect its choice of leadership structure as described under "Board Leadership Structure" above.

Meetings of the Board. During the year ended December 31, 2016, the Board held seven meetings. Each director attended at least 75% of the total of all meetings of the Board and any applicable committee held during the period of his or her tenure in 2016.

The Company encourages, but does not require, its directors to attend annual meetings of stockholders. All of our then-current directors attended the 2016 annual meeting.

Board Composition. Our Board currently has fixed the number of directors at nine, one of whom (Mr. Cardis) is scheduled to retire on the date of the Annual Meeting.

Excluding Mr. Cardis, the ages of our directors range from 53 to 72, with an average age of 63.5. Director lengths of service on our Board range from eight months to 17 years, with an average tenure of approximately 5 years. None of our directors serves on the boards of directors of more than two other public companies.

Committees of the Board. To facilitate independent director review, and to make the most effective use of the directors' time and capabilities, we have established the Audit Committee and the Compensation and Governance Committee. The Board is permitted to establish other committees from time to time as it deems appropriate.

Audit Committee

Audit Committee Membership
John T. Cardis, Chair Kieran T. Gallahue Leslie S. Heisz Wesley W. von Schack

- Ms. Heisz was appointed to the Audit Committee in July 2016.
- Each member is “independent,” “financially literate,” and an “audit committee financial expert” under applicable rules of the NYSE and the SEC.
- The Audit Committee held nine meetings in 2016.
- The responsibilities of the Audit Committee are included in its written charter, which is posted on our website at www.edwards.com under “Investors—Corporate Governance.”

As described more fully in the Audit Committee charter, the primary purpose of the Audit Committee is to assist the Board in fulfilling its oversight responsibilities relating to the integrity of the Company's financial statements; compliance with legal and regulatory requirements; adherence to policies regarding ethics and business practices; and monitoring the independent registered public accounting firm's qualifications, performance and independence; the performance of the Company's internal audit function; the Company's investment and hedging activities; and enterprise-wide risk management practices. Management is responsible for the preparation, presentation, and integrity of the Company's financial statements, as well as adoption of accounting and financial reporting principles and internal controls, and procedures designed to reasonably assure compliance with accounting standards, applicable laws and regulations. The Company has a full-time internal audit function that reports to the Audit Committee and to the CFO, and is responsible for, among other things,

objectively reviewing and evaluating the adequacy, effectiveness and quality of the Company's system of internal controls. The Company also has a Chief Responsibility Officer who manages the Company's ethics and compliance programs and information security reporting to the Audit Committee and the CEO. The Chief Responsibility Officer also manages the Company's sustainability program, which is overseen by the Compensation Committee.

The Audit Committee appoints, retains, terminates, determines compensation for; and oversees the independent registered public accounting firm, reviews the scope of the audit by the independent registered public accounting firm and inquires into the effectiveness of the Company's accounting and internal control functions. The Audit Committee also assists the Board in establishing and monitoring ethics and compliance with the Global Business Practice Standards of the Company. The Company's Global Business Practice Standards are posted on our website at www.edwards.com under “About Us—Corporate Responsibility.” The Audit Committee also reviews, with the Company's management and the independent registered public accounting firm, the Company's policies and procedures with respect to risk assessment and risk management and reviews and approves any related party transactions, as described under “Other Matters and Business—Related Party Transactions” below.

The Audit Committee organizes its activities at each meeting through the use of a periodic agenda, incorporating additional agenda items as suggested by Audit Committee members or to address current Company activities. At each regularly scheduled meeting, the Audit Committee receives reports from the senior members of the Company's financial management team and the Chief Responsibility Officer. Additionally, the Audit Committee meets in executive session at each of its regularly scheduled meetings with the Company's independent registered public accounting firm and, periodically, with the Vice President of Internal Audit, the Company's Chief Financial Officer, the Company's Chief Responsibility Officer, and the Company's General Counsel, in addition to executive sessions without any others present.

BOARD OF DIRECTORS MATTERS

Compensation and Governance Committee

Compensation and Governance Committee Membership
William J. Link, Ph.D. Steven R. Loranger Martha H. Marsh Nicholas J. Valeriani

- Mr. Loranger and Ms. Marsh were appointed to the Compensation Committee in May 2016.
- Dr. McNeil retired in May 2016.
- Each member is “independent” under the rules of the NYSE, a “nonemployee director” under Rule 16b-3 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and an “outside director” as defined in Treasury Regulation § 1.162-27(3).
- The Compensation Committee held five meetings in 2016.
- The responsibilities of the Compensation Committee are included in its written charter, which is posted on our website at www.edwards.com under “Investors—Corporate Governance.”

The Compensation Committee determines the compensation of executive officers and recommends to the Board the compensation of outside directors, exercises the authority of the Board concerning employee benefit plans, advises the Board on other compensation and employee benefit matters and approves the compensation clawback policy applicable to our executive officers. The Compensation Committee may, and has, delegated authority to the CEO to grant rights in, or options to purchase, shares of the Company’s common stock to eligible employees who are not executive officers, and oversees the evaluation of the Board and executive officers.

In 2016, the Compensation Committee retained the services of Semler Brossy Consulting Group as its independent compensation Consultant (“Compensation Consultant”). See “Compensation Discussion and Analysis—Independent Compensation Consultant” for additional information regarding the Compensation Committee’s engagement of its Compensation Consultant.

The Compensation Committee also advises the Board on board committee structure and membership and corporate governance matters. It evaluates the

governance environment, receives feedback from management interactions with stockholders, and reviews and recommends to the full Board governance enhancements that are in the best interest of the Company and its stockholders.

In addition, the Compensation Committee makes recommendations to the Board regarding candidates for election as directors of the Company and is otherwise responsible for matters relating to the nomination of directors. The Compensation Committee maintains formal criteria for selecting director nominees who will best serve the interests of the Company and its stockholders. These criteria are described in more detail below under “Board Criteria and Diversity Policy.” In addition to these requirements, the Compensation Committee also evaluates whether the candidate’s skills and experience are complementary to the existing Board members’ skills and experience, as well as the need of the Board for operational, management, financial, international, technological or other expertise. Some or all of the members of the Compensation Committee interview candidates that meet the criteria and the Compensation Committee selects nominees that it believes best suit the needs of the Board.

Since 2014, the Board has embarked upon a thoughtful and deliberate process of Board refreshment, resulting in the election of five new directors. This process has involved participation of all directors to take advantage of their broad range of expertise and experience as part of the decision-making process.

From time to time, the Compensation Committee may engage the services of an executive search firm to assist in identifying and evaluating candidates for the Board. The Compensation Committee will consider qualified candidates for director nominees suggested by the Company’s stockholders. Stockholders can suggest qualified candidates for director nominees by writing to the Secretary of the Company at One Edwards Way, Irvine, California 92614. Submissions received that meet the criteria described below are forwarded to the Compensation Committee for further review and consideration. The Compensation Committee does not intend to evaluate candidates proposed by stockholders any differently than other candidates.

The Compensation Committee also oversees Edwards' political activities, including the periodic review of its policy on political expenditures and its payments that may be used for political purposes, and confirms that political expenditures from corporate funds are consistent with the policy. In addition, the Compensation Committee reviews and oversees Edwards' principles, programs and practices on sustainability topics, including environmental and social affairs. Reports concerning political activities and sustainability efforts and metrics are presented periodically to the Compensation Committee.

Board Criteria and Diversity Policy. The Compensation Committee is responsible for identifying, evaluating and recommending to the Board individuals qualified to be directors of the Company. The Compensation Committee's charter sets forth the membership criteria against which potential director candidates are evaluated. These written membership criteria state that the Company "seeks a board with diversity of background among its members, including diversity of experience, gender, race, ethnic or national origin, and age." In performing this responsibility, the Compensation Committee considers women and minority candidates consistent with the membership criteria and the Company's non-discrimination policies. The Compensation Committee also considers fundamental qualities of intelligence, honesty, perceptiveness, good judgment, maturity, high ethics and standards, integrity, fairness and responsibility; a background that demonstrates an understanding of business and financial affairs and the complexities of a large, multifaceted, global business, governmental or educational organization; and the ability to hold independent opinions and express them in a constructive manner. Of equal importance, the Compensation Committee and the Board seek individuals who are compatible and able to work well with other directors and executives. The satisfaction of these criteria is implemented and assessed through ongoing consideration of directors and potential nominees by the Compensation Committee and the Board, with a discussion of Board succession planning held at regularly scheduled meetings of the Board and certain specially called meetings. These discussions have included reviews of current director skills against an established skills matrix and consideration of each director's retirement horizon, as well as the Board's self-evaluation and peer evaluation processes, as described below under "Board Evaluations." Based upon these activities and its review of the current composition of the Board, the Compensation Committee and the Board believe that the nominating criteria have been satisfied. As a result, the members of the Board represent diverse backgrounds and experience in many areas, including financial, industrial, entrepreneurial, and international.

Board Evaluations. The Board conducts an annual self-evaluation every July or August, soliciting each director's views on, among other things, Board and committee performance and effectiveness, size, composition, agenda, processes and schedule. In addition, the directors conduct annual peer evaluations specifically to seek feedback on directors' personal interactions and skills. Our Board views the self- and peer-evaluation processes as an integral part of its commitment to cultivating excellence and best practices in its performance.

Board Retirement Policy. As set forth in the Governance Guidelines, the Board has adopted a retirement policy that no director shall stand for election to the Board after reaching the age of 75.

Succession Planning. Our Board is actively engaged and involved in talent management to identify and cultivate our future leaders. At every Board meeting, directors discuss the Company's leadership and talent development. Our directors also have an opportunity to meet with Company leaders, including executive officers, business group leaders and functional leaders through regular reports to the Board from senior management, technology showcases and meals with management. In addition, Board members have freedom of access to all employees, and have made site visits to meet local management.

We maintain a robust mid-year and annual performance review process for our employees, as well as a leadership development program that cultivates leadership principles in our future leaders. Management develops leadership at lower levels of the organization by identifying key talent and exposing them to the skills and capabilities that will allow these individuals to become future leaders.

Sustainability Report. Edwards' Sustainability Report discusses programs and practices we have in place to promote ethical business practices, good governance and the well-being and health of our environment, employees and the communities in which we live and work. Recently, we completed and published online our 2015 Sustainability Report. We conducted a comprehensive materiality assessment through engagement with internal and external stakeholders that identified the sustainability topics that matter most for the Company. Sustainability targets were set that align with our five Corporate Aspirations. And, we published our Sustainability Metrics at-a-Glance to provide a snapshot of our environmental, social responsibility and governance data from 2015 and 2014. Our Sustainability Report is posted on our website at www.edwards.com under "About Us—Corporate Responsibility."

(4) Mr. Loranger joined the Board on March 17, 2016.

(5) Dr. McNeil retired from the Board on May 12, 2016 in accordance with the Company’s director retirement policy.

Retainers and Fees. Nonemployee directors received the following retainers and fees in 2016.

Nonemployee Director Retainers and Fees	
Annual Retainer	
Nonemployee Director	\$60,000
Presiding Director	\$25,000
Audit Committee Chair	\$20,000
Compensation Committee Chair	\$18,000
Fees per Committee Meeting Attended	\$1,000

In 2016, the annual retainer paid to each nonemployee director was increased from \$40,000 to \$60,000. A director may elect to receive stock options or restricted shares in lieu of the annual cash retainers as described in “Deferral Election Program” below. Retainers are paid in advance, and fees are paid in arrears. Directors beginning service during the year receive a prorated amount of the retainer.

Nonemployee Directors Stock Incentive Program.

In order to align the nonemployee directors’ interests more closely with the interests of our stockholders, we have implemented our Nonemployee Directors Stock Incentive Program (the “Nonemployee Directors Program”), pursuant to which each nonemployee director receives an annual grant of options for up to 40,000 shares of our common stock, or restricted stock units (“RSUs”) for up to 16,000 shares of our common stock, or a combination of options and RSUs with a maximum grant date value of approximately \$200,000. The Compensation Committee recommends to the Board for its approval the actual amount and type of award for each year.

The annual equity award is granted on the day after our annual meeting. The option exercise price is the closing price of our common stock on the grant date. Options are valued as of the grant date using the Black-Scholes valuation model, and the RSUs are valued at the fair market value of the common stock on the grant date.

On May 13, 2016, each nonemployee director who was serving on that date received 1,941 RSUs as an annual grant (the grant-date fair value of such award was \$199,904, determined as noted in footnote (2) to the table above).

These RSUs vest 100% upon the earlier of the completion of one year of service on the Board measured from the grant date, or the date of the next annual meeting, subject to earlier vesting in the event of the nonemployee director’s death or disability. Once the RSUs vest, the shares must be held until the nonemployee director no longer serves on the Board.

In addition to the annual equity award described above, upon a nonemployee director’s initial election to the Board, the director receives a grant of the number of RSUs or stock options determined by dividing \$200,000 by the fair value of a share on the grant date for RSUs, or the fair value of an option on the grant date, estimated using the Black-Scholes valuation model, and in either case rounding up to the nearest whole share, provided that in no event shall such number exceed twenty thousand (20,000) shares. In 2016, initial equity awards were made in options that vest one-third each year over three years from the grant date, subject to the nonemployee director’s continued service on the Board, and subject to earlier vesting in the event of the nonemployee director’s death or disability. The exercise price of an option is the closing price of our common stock on the date of the award. With respect to initial stock option awards granted after May 14, 2013, the shares of our common stock issued upon exercise of the options must be held until the nonemployee director no longer serves on the Board. On May 12, 2016, Mr. Loranger received an initial equity award of 6,599 stock options and on July 14, 2016, Ms. Heisz received an initial equity award of 6,557 stock options (the grant-date fair values of such awards were \$200,002 and \$200,014, respectively, determined as noted in footnote (2) to the table above).

Deferral Election Program. In lieu of all or part of a nonemployee director’s annual cash retainer, the director may elect to receive either stock options or restricted shares under the Nonemployee Directors Program. If a director makes a timely election to receive stock options, such options are granted on the date the cash retainer would otherwise have been paid, and the number of shares subject to the option is equal to four times the number of shares that could have been purchased on the grant date with the amount of the director’s cash retainer that was foregone to receive the award. The options are exercisable and vested in full on the grant date, and the exercise price per share is the fair market value of the common stock on the grant date. If a director makes a timely election to receive a restricted share award, the shares are granted on the date the cash retainer would otherwise have been paid, and the number of shares granted is equal to the portion of the cash retainer to be paid in the form of restricted shares divided by the fair market value per share of the common stock on the grant date. The restrictions on the restricted shares lapse upon the earlier of (1) the one-year anniversary of the grant date or (2) the date of the next regular annual meeting of

BOARD OF DIRECTORS MATTERS

stockholders at which members of the Board are to be elected.

On May 13, 2016, Messrs. Gallahue and von Schack and Dr. Link each received a grant of 583 restricted shares in lieu of his annual cash retainer (the grant-date fair value of each such award was \$60,043, determined as noted in footnote (2) to the table above).

Directors' Stock Ownership Guidelines and Holding Requirement. Under the stock ownership guidelines, each nonemployee director is expected to own shares of our common stock equal to \$360,000. This amount equals six (6) times the annual cash retainer received by each nonemployee director. Stock that is counted toward meeting the guideline includes any shares owned outright, restricted stock, RSUs and

25% of the value of vested, in-the-money stock options. Upon vesting or exercise of equity awarded after 2011, each director is required to hold the underlying common stock (net of any shares sold to cover the exercise price and applicable taxes) until the director's Board service ends. The holding requirement does not apply to equity awards directors elect to receive in lieu of their cash retainers.

Expense Reimbursement Policy. Directors are reimbursed for travel expenses related to their attendance at Board and committee meetings as well as for the costs of attending director continuing education programs.

The Board may change compensation arrangements for nonemployee directors from time to time.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis describes and provides disclosure about the objectives and policies underlying our executive compensation programs.

Executive Summary

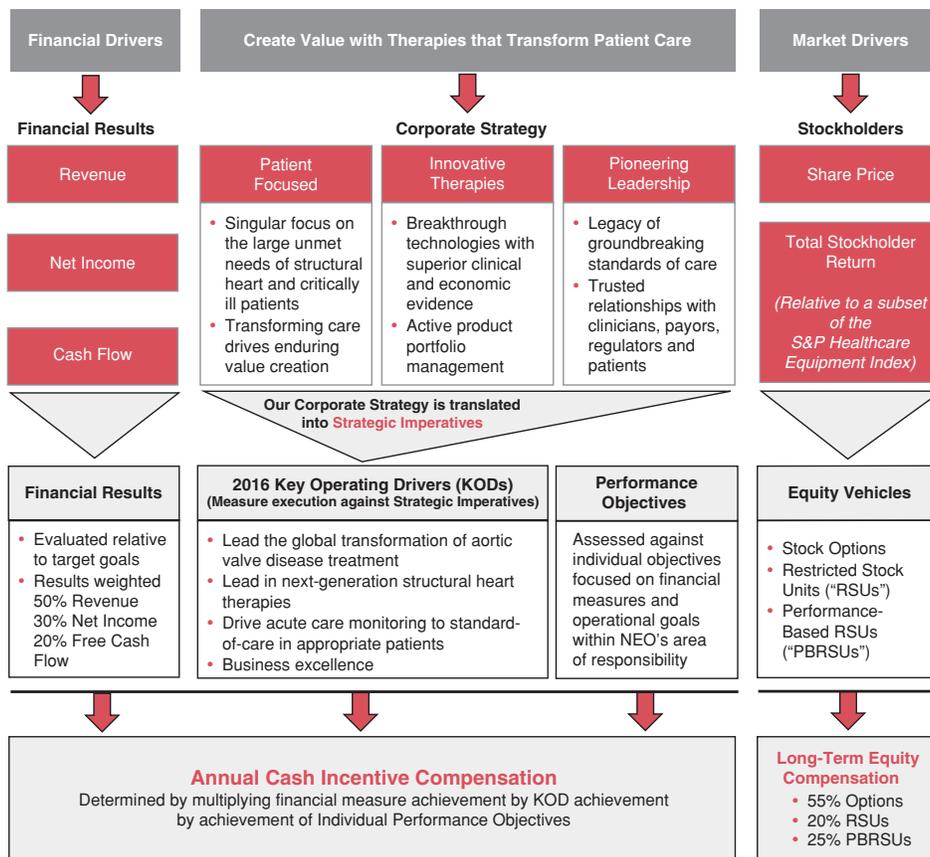

Edwards is the global leader in patient-focused medical innovations for structural heart disease, as well as critical care and surgical monitoring. Driven by a passion to help patients, we collaborate with the world’s leading clinicians and researchers to address unmet healthcare needs, working to improve patient outcomes and enhance lives.

Pay for Performance Philosophy. The Compensation Committee strives to create a pay-for-performance culture and strongly believes that executive compensation should be tied not only to performance but also directly to the successful implementation of our corporate strategy.

We embrace a corporate strategy that puts patients first and creates value with therapies that transform care. We execute our strategy by focusing on the right thing for patients, identifying unmet clinical needs and developing breakthrough therapies, doing so in a way that establishes trusted relationships with our stakeholders. As a direct result of our strategy, we have introduced new therapies such as transcatheter aortic valve replacement, rapid-deployment surgical heart valves and noninvasive advanced hemodynamic monitoring, all while achieving our stated financial and operating objectives, and strengthening our leadership positions. Managing our business well in a challenging, highly regulated, dynamic environment requires talented and energetic leaders who champion our strategy and deliver on our commitments.

Our executive compensation programs are designed to emphasize performance-based compensation, reward financial performance and the implementation of our corporate strategy, and align the financial interests of our executives with those of our stockholders.

EDWARDS’ CORPORATE STRATEGY INFORMS PAY DESIGN

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Long-term incentive awards are designed to align the financial interests of our executives with those of stockholders. Awards granted to our NEOs in 2016 included stock options, PBRsUs and time-based RSUs. The value of stock options is dependent upon stock price appreciation after the date of grant of the award, reinforcing the performance-based nature of these awards. Edwards continues to believe the use of stock options is appropriate and essential to retain executive talent and reinforce our long-term growth strategy, as a company focused on exceptional revenue growth, strong profitability, and long-term stockholder returns. The payout of PBRsUs is based on relative TSR over a three-year period compared to a pre-selected peer group. Since RSUs are paid out in shares of Edwards' stock, their value is also directly linked to stock price.

Edwards' 2016 named executive officers ("NEOs") are as follows:

NEO NAMES AND POSITIONS
Michael A. Mussallem Chairman and Chief Executive Officer
Scott B. Ullem Chief Financial Officer
Donald E. Bobo Corporate Vice President, Strategy and Corporate Development
Catherine M. Szyman Corporate Vice President, Critical Care
Larry L. Wood Corporate Vice President, Transcatheter Heart Valves

2016 Financial and Operating Performance.

Overall, we achieved outstanding financial results and operating performance in 2016, including revenue growth of 18.5% on a non-GAAP basis. We made important progress on future advancements for patients:

- Based on impressive clinical results in patients at intermediate risk for surgery, we secured FDA approval to treat a broader group of patients with our SAPIEN 3 transcatheter aortic heart valve replacement technology;
- We continued to dedicate research and development to enhancing our surgical heart valve options for patients, achieving the FDA approval of our INTUITY Elite rapid-deployment valve; and
- We made key advancements in critical care, receiving authorization to market a breakthrough hypotension indicator and a new advanced monitoring platform in Europe.

Stock Performance. One indicator of our pay-for-performance culture is the relationship of our NEOs' total direct compensation to total stockholder return. Over the past five years, an average of 88% of the CEO's total direct compensation has been performance-based, and 73% has been tied to stock performance. As a general indicator, the Compensation Committee considers how Edwards' cumulative total return to stockholders compares to both the S&P 500 and our 12-company medical products peer group, the SPHEI. As the table below illustrates, Edwards has outperformed these indices over the five-, three- and one-year periods ending December 31, 2016.

Cumulative Total Return

	Last 5 Years	Last 3 Years	Last Year
EDWARDS	165%	185%	19%
S&P 500	98%	29%	12%
SPHEI	107%	38%	7%

2016 Annual Incentive Plan Outcomes and Long-Term Incentives. The three measures used to evaluate financial achievement under our annual cash incentive plan were revenue growth, net income and free cash flow, all computed on a non-GAAP basis. Our financial results in 2016 surpassed the cash incentive plan target percentages of achievement for all three of these measures by significant margins, surpassing the maximum for one measure, and resulted in financial performance at 159% of target under the cash incentive plan. In addition, our overall achievement of KODs for 2016 was 100%. Accordingly, our cash incentive plan for corporate employees funded at 159% of target. Final incentive amounts for the NEOs for 2016 also took into account each employee's individual performance, as more fully described below under "Elements of Compensation—Annual Cash Incentive Payment."

The PBRsUs awarded to NEOs in 2013 that vested in 2016 were based on Edwards' TSR over a three-year performance period relative to the TSR of companies in the RXP for that same period. The payout of these PBRsUs tracked the strong performance of our stock after the three-year period and paid out at 175% of target, as more fully described under "Elements of Compensation—Determination as to 2013 PBRsU Awards."

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Compensation Program Highlights. The Compensation Committee believes that its executive compensation and benefits philosophy and objectives have resulted in programs that align executives with stockholder interests.

WHAT WE DO	
✔ Pay for Performance. Approximately 88% of the total direct compensation of our CEO, and an average of 78% of the total direct compensation of our other NEOs, is performance-based.	<p>We align executive compensation with the interests of our stockholders</p> <p>Executive compensation programs are designed to avoid excessive risk and foster sustainable growth</p> <p>We adhere to strong executive compensation and governance practices</p>
✔ Linkage Between Performance Measures and Strategic Imperatives. Performance measures for incentive compensation are linked to our Strategic Imperatives through achievement of KODs, and are designed to create long-term stockholder value and hold executives accountable for their individual and Edwards’ performance.	
✔ Performance-Based Equity. Our PBRsUs vest based on our relative TSR over a three-year period.	
✔ Minimum Three-Year Vesting. Equity compensation is structured to vest over a minimum period of three years, subject to limited exceptions.	
✔ Robust Executive Stock Ownership Guidelines with Holding Period Requirements. Executives are required to hold Edwards’ stock with a value not less than six times salary for our CEO and three times salary for each other NEO. Fifty percent of net shares received as equity compensation must be retained until the guideline has been met.	
✔ CEO Stock Ownership. Our CEO far exceeds his six-times salary ownership guideline and continues to increase his ownership of Edwards’ stock each year.	
✔ Modest Perquisites. We provide modest perquisites, and have a business rationale for the perquisites that we do provide.	
✔ “Double Trigger” in the Event of a Change in Control. Severance benefits are paid, and equity compensation awarded starting in May 2015 vests, only upon a “double trigger” in connection with a change in control (meaning a termination of the executive’s employment is required, in addition to the occurrence of a change in control, in order for the benefits to be triggered).	
✔ Annual Stockholder Approval of Long-Term Stock Program Shares. We provide stockholders an annual opportunity to vote on proposed increases to the number of shares available for grant under the Long-Term Stock Program.	
✔ Use Tally Sheets. The Compensation Committee annually reviews “tally sheets” reflecting all compensation elements for our NEOs.	
✔ “Clawback” Policy. We maintain a recoupment policy for performance-based compensation.	
✔ Independent Compensation Consultant. The Compensation Committee engages an independent compensation consulting firm that provides us with no other services.	
WHAT WE DON’T DO	
✘ No excise tax gross-ups for executive officers.	
✘ No repricing or buyout of underwater stock options.	
✘ No pledging of Edwards’ securities by directors, executives, employees with a title of “vice president” or above, and “insiders” under our insider trading policy.	
✘ No hedging of Edwards’ securities by directors, executives, employees with a title of “vice president” or above, and “insiders” under our insider trading policy.	

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Consideration of Say-on-Pay Vote Results. At our 2016 annual meeting, our stockholders cast an advisory vote on the compensation of our NEOs (a “say-on-pay” vote). Approximately 96% of the votes cast on this proposal voted in favor of our NEO compensation. We believe this vote reflects stockholders’ continued strong support of compensation programs for our NEOs. The Compensation Committee will continue to consider the results of say-on-pay votes when making future compensation decisions for the NEOs.

Compensation Philosophy and Objectives for NEOs. Our compensation programs are designed to attract, retain, motivate and engage executives with superior leadership and management capabilities to enhance stockholder value. Within this overall philosophy, our objectives are to:

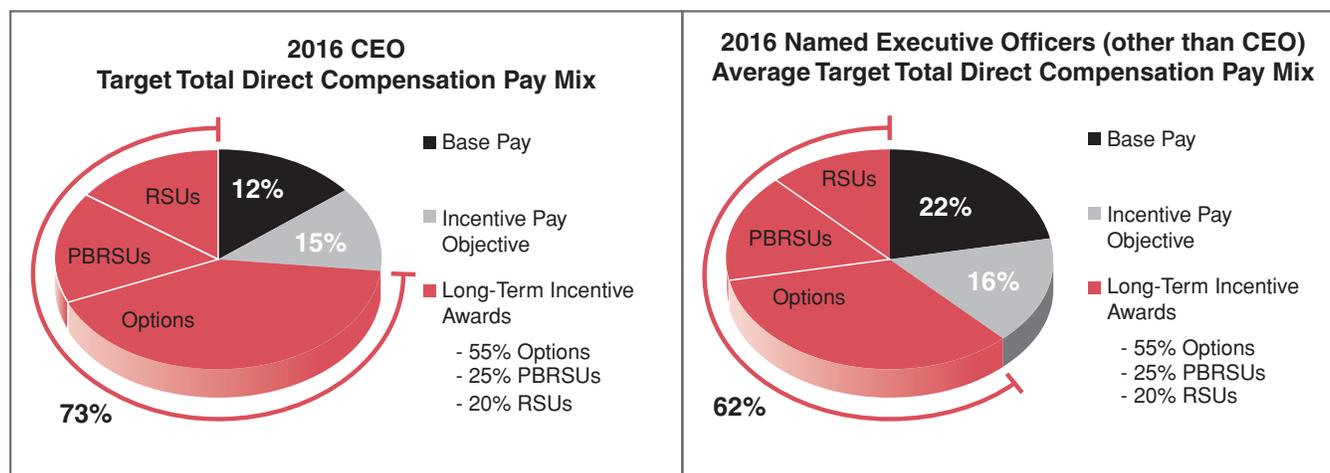

- offer programs that place a higher emphasis on performance-based compensation than fixed compensation;
- align the financial interests of executives with those of our stockholders; and
- provide compensation that is competitive.

We strongly believe that a significant amount of compensation for the NEOs should be composed of short- and long-term incentives, or at-risk pay, to focus the executives on near-term goals and strategic initiatives. The amount of such short- and long-term incentive compensation is dependent on achievement of our annual goals, individual performance, and long-term increases in the value of our stock. The target total direct compensation for each NEO consists of (i) base salary, (ii) Incentive Pay Objective (as defined under “Elements of Compensation—Annual Cash Incentive Payment” below), and (iii) long-term incentive awards (presented using their grant-date fair values).

The charts below illustrate the proportions of the 2016 target total direct compensation for the CEO and the average for the other NEOs.

Compensation Process. The Compensation Committee is responsible for discussing, evaluating and approving the compensation of the CEO and the other NEOs, including the specific objectives and target performance levels to be included in our executive compensation plans. The CEO and other members of the executive leadership team develop our Strategic Imperatives, as well as the KODs that measure our achievement of these imperatives. The Board reviews and approves the Strategic Imperatives and KODs at the start of every year. The CEO provides input to the Compensation Committee after year-end regarding achievement of our Strategic Imperatives and KODs and the way results were achieved. In addition, the CEO and the Corporate Vice President of Human Resources provide recommendations to the Compensation Committee regarding compensation of the NEOs (other than the CEO). The Compensation Committee then determines the compensation of the CEO and reviews and approves the compensation of the other NEOs.

The CEO and the Corporate Vice President of Human Resources are invited to, and regularly attend, Compensation Committee meetings as non-voting guests. The Compensation Committee regularly meets in executive session without participation by the CEO or other management representatives. Meetings of the Compensation Committee may only be called by members of the Compensation Committee. In addition, our CEO and Corporate Vice President of Human Resources meet with the Compensation Consultant in preparation for Compensation Committee meetings, and the Compensation Consultant also regularly attends Compensation Committee meetings and executive sessions.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Independent Compensation Consultant. The Compensation Consultant, Semler Brossy Consulting Group, has been retained by and reports to the Compensation Committee and provides executive and director compensation consulting services to the Compensation Committee.

The Compensation Consultant does not provide any other services to the Board or the Company. The Compensation Committee has assessed the independence of the Compensation Consultant pursuant to the NYSE rules and determined that the Compensation Consultant is independent, and free of conflicts of interest with us or any of our directors or executive officers.

Use of Competitive Data. We generally position each NEO's total direct compensation to approximate the median for comparable positions at competitive peer companies. However, in determining the appropriate positioning level of each NEO's total direct compensation and each component of compensation for an NEO, the Compensation Committee also takes into account its assessment of the Company's or business unit's general performance, as applicable for each executive, and the executive's tenure, experience, level of individual performance and potential to contribute to our future growth. Accordingly, an NEO's actual compensation may be higher or lower than the median for the position based on the Compensation Committee's assessment of these other factors. If the Compensation Committee determines that changes are appropriate, it has the flexibility to make adjustments for one or more executives.

Consistent with our philosophy of emphasizing pay for performance, annual cash incentive payments are designed to be above Incentive Pay Objectives when

we exceed our goals and below the Incentive Pay Objectives when we do not achieve our goals. In the event threshold levels of performance are not attained, no annual incentive payment is earned.

For purposes of establishing the value of equity awards, stock options are valued as of the grant date using the Black-Scholes valuation model. RSUs and, commencing in 2015, PBRsUs, are valued at the fair market value of the underlying shares on the grant date. Except as otherwise noted above or described below, the Compensation Committee's executive compensation determinations are subjective and the result of the Compensation Committee's business judgment, which is informed by the experiences of the members of the Compensation Committee as well as the input from the Compensation Consultant and peer group data provided by the Compensation Consultant. In order to establish competitive compensation market data for the NEOs, the Compensation Consultant uses public proxy information from companies primarily in the medical technology industry. These peer companies are chosen based on the Compensation Committee's assessment of their market capitalization, revenue, business focus, complexity, geographic location and the extent to which the Compensation Committee believes they compete with us for executive talent (the "Comparator Group"). The composition of the Comparator Group is reviewed periodically to monitor the appropriateness of the profiles of the companies included so that the group continues to reflect our competitive market and provides statistical reliability. The review of the Comparator Group for pay decisions in 2016 was conducted in July 2015. For 2016, the Comparator Group consisted of the following companies:

Edwards' 2016 Comparator Group	
Becton, Dickinson and Company	Intuitive Surgical, Inc.
Boston Scientific Corporation	PerkinElmer, Inc.
C. R. Bard, Inc.	ResMed Inc.
The Cooper Companies, Inc.	St. Jude Medical, Inc.
DENTSPLY International, Inc.	Stryker Corporation
Hologic, Inc.	Varian Medical Systems, Inc.
Illumina, Inc.	Zimmer Biomet Holdings, Inc.
Integra Lifesciences Holdings Corporation	

EXECUTIVE COMPENSATION AND OTHER INFORMATION

The Compensation Committee made changes to the comparator group used to make 2016 executive compensation decisions, including (1) removing CareFusion Corporation due to its acquisition by Becton, Dickinson and Company, (2) removing Thoratec Corporation due to its acquisition by St. Jude Medical, Inc., (3) removing Hospira, Inc. due to its acquisition by Pfizer Inc., and (4) replacing them with The Cooper Companies, Inc. and DENTSPLY International Inc.

As of July 1, 2015, Edwards ranked at the 54th percentile of this group in terms of market capitalization. Compensation data are generally regressed for market capitalization to ensure that the data are not distorted by larger companies. Regression analysis is a commonly used technique to size-adjust data, which allows for more statistically valid comparisons. The key measure used in our regression model is market capitalization. Based on this measure, the regression formula correlates and adjusts the raw data for base salary, total cash compensation and total direct compensation to predict those items based on the market capitalization for each of the Comparator Group companies.

Although data from the Comparator Group are the primary data input for compensation decisions for the NEOs, consideration is given to compensation data for companies in the high technology, life sciences and medical technology industries reported in the following

nationally recognized surveys: Aon Hewitt's U.S. Total Compensation Measurement Executive Survey and Radford Global Lifesciences Survey, Radford U.S. Executive Survey. The survey data are considered generally, without focusing on any one particular group or subset of companies included in the data (other than the Comparator Group identified above). The Compensation Committee believes it is appropriate to refer to these additional data because we compete with these types of companies for executive talent.

When compared to similar positions at our 2016 Comparator Group companies, total direct compensation and the elements of compensation (base salary, annual cash incentive, and long-term incentive award value) approximated or were below the median for all of the NEOs.

Elements of Compensation. The compensation package for each NEO consists primarily of (a) base salary; (b) an annual cash incentive payment based on attainment of pre-established financial measures, operating goals and individual performance; and (c) long-term stock-based incentive awards. Each of these three components of compensation is intended to promote one or more of our objectives of designing executive compensation that is performance-based, is competitive and aligns the interests of the executives with our stockholders.

Base Salary. The Compensation Committee generally reviews each NEO's base salary in February and any approved changes are effective with the first pay period in April. The base salary for the CEO is established in a similar manner and is described more fully under "Employment and Post-Termination Agreements" below. Base salaries paid to the NEOs increased between 3% and 4% in 2016 over the level in effect in 2015 to help maintain market competitiveness and based on the Compensation Committee's assessment of internal roles and contributions.

Annual Cash Incentive Payment. All of the NEOs and many other management and non-management-level salaried employees (approximately 3,115 employees) participated in the 2016 Edwards Incentive Plan (the "Incentive Plan").

The Incentive Plan for the NEOs is structured to preserve the tax deductibility of payments under Section 162(m) ("Section 162(m)") of the Internal Revenue Code (the "Code"). See "Tax and Accounting Implications—Policy Regarding Section 162(m)" below. As such, cash incentives for all NEOs are established at the maximum amounts payable under the Incentive Plan. The Compensation Committee also establishes for each NEO the amount of incentive payment that will be earned for expected performance, referred to as the "Incentive Pay Objective."

The Compensation Committee utilizes the Incentive Pay Objective so that the total cash compensation (base salary plus incentive payment for expected performance) for the NEOs will be at approximately the median of the Comparator Group.

Cognizant of the maximum cash incentive limits and the Incentive Pay Objectives, the Compensation Committee then considers performance results to determine the actual cash incentive payments. In applying its discretion, the Compensation Committee may reduce, but may not increase, the cash incentive payment. Consequently, a reduction from the maximum amount is not necessarily a negative reflection on performance.

The accompanying "Grants of Plan-Based Awards in Fiscal Year 2016" table reports the maximum amounts payable and the Incentive Pay Objective (called the "Target" in the table) established for each NEO.

The Incentive Plan for NEOs in 2016 provided that achievement at the threshold of any one of three Company financial measures (revenue growth, net income and free cash flow) would result in initial funding for the Incentive Plan being set at the maximum level. Then, the Compensation Committee applied its discretion in a two-step process to determine the final annual cash incentive payments for the NEOs. Each of these two steps is discussed below:

EXECUTIVE COMPENSATION AND OTHER INFORMATION

(1) Incentive Plan Funding

The Compensation Committee, after consultation with management, sets annual incentive performance goals each year for achievement of financial measures and KODs. Financial measures are non-GAAP calculations generally on the same basis as contained in our financial guidance, subject to further adjustment to account for material developments during the year. In February 2016, the Compensation Committee initially established the financial measures at the threshold, target and maximum levels set forth in the chart below, except that the maximum amounts were initially set at 15% revenue growth, \$598 million of net income and \$550 million of free cash flow. In May 2016, the Compensation Committee reassessed these goals to make them more difficult to attain by increasing the levels that would produce the maximum achievement to 20% revenue growth, \$615 million of net income and \$600 million of free cash flow. The Compensation Committee understood that this was an unusual step to take during the plan year, but felt that it was desirable to maintain the incentive character of the program in light of how well the Compensation Committee believed the Company was performing early in the year and the desire for the maximum level to remain a stretch goal throughout the year.

The “threshold” level of net income, and the “target” level of free cash flow, were set above the levels of net income and free cash flow, respectively, actually achieved in 2015. Incentive Plan funding is determined after results of achievement of the predetermined financial measures and KODs are known.

The following illustration shows how the Incentive Plan is funded.

Initially, the Board assesses the percentage of achievement of pre-established Company financial measures. No funding is earned if actual performance associated with at least one of the financial goals does not exceed the pre-established minimum threshold. All three thresholds were exceeded in 2016. Achievement of the maximum level specified for each financial goal would result in funding for this measure at 175%.

For 2016, our financial goals, and the corresponding weightings, were as follows: revenue growth (50% weighting); net income (30% weighting); and free cash flow (20% weighting). The following table sets forth the target level for each goal as well as the level of achievement required to reach the various levels of financial measure achievement. Interpolation is applied for results between the levels shown in the chart.

Based on the performance levels in the chart below, our financial measures funded at 159%.

2016 Company Financial Performance Measures*

	Percentage of Financial Measure Achievement			
	Minimum (25%)	Target (100%)	Maximum (175%)	Actual (159%)
Revenue Growth – 50% Weight	7%	11%	20%	18.5%
Net Income (\$M) – 30% Weight	\$533	\$565	\$615	\$633
Free Cash Flow**(\$M) – 20% Weight	\$450	\$500	\$600	\$536

* Performance measures used in setting and determining incentive compensation are not calculated in accordance with GAAP and reflect adjustments for items such as foreign exchange, transcatheter heart valve sales returns reserve and related expenses, intellectual property litigation expenses, intellectual property amortization expense, acquired in-process R&D charges and the tax impact on other special items. Professional fees of \$3.2 million related to mergers and acquisitions activity were not excluded in determining incentive compensation. A reconciliation of non-GAAP financial measures to the most comparable GAAP measure can be found in Edwards’ Q4 2016 earnings release on our investor website at <http://ir.edwards.com/results.cfm>.

** Defined as cash flow from operations less capital expenditures, on a non-GAAP basis, excluding the impact of a \$8 million payment related to a litigation settlement.

Then, the financial measure achievement is multiplied by the level of achievement of pre-established Key Operating Drivers, or KODs. The Board establishes KODs each year to address specific business initiatives derived from our Strategic Imperatives and operating plans. The KODs address specific tangible and measurable progress toward our Strategic Imperatives, and focus the executive team on the areas and strategic initiatives most important to our future success. We have established a range of performance for each KOD with the expectation that the target range should be achievable with the expected level of performance. Performance within the expected range results in a multiplier of 100%. Performance below the range is considered sub-optimal and will result in a discount to the financial measure. Performance above the range is considered extraordinary and results in a multiplier above 100%. The aggregate KOD multiplier may not exceed 150%.

In 2016, there were four KODs:

- Lead the global transformation of aortic valve disease treatment
- Lead in next-generation structural heart therapies
- Drive acute care monitoring to standard of care in appropriate patients
- Business excellence

After evaluating actual achievement of 40 different metrics and milestones underlying these KODs, the Board determined in its judgment that overall KOD performance for 2016 was 100%.

Based on the formula above, combining financial performance of 159% with KOD performance of 100%, the Compensation Committee arrived at an actual calculated Incentive Plan funding of 159%.

(2) Individual Performance

Individual performance objectives for the CEO are established collaboratively by the CEO and the

Compensation Committee, and the individual performance objectives for the other NEOs are established collaboratively by the CEO and each such executive. The Compensation Committee believes each executive has an appropriate number of meaningful individual performance objectives. The goal in choosing the individual performance objectives is to create goals, the attainment of which is designed to implement our strategic and operating plans, with a focus on the achievement of the financial measures and operational goals within each executive's individual area of responsibility.

These objectives are considered in the aggregate to determine an overall performance assessment for each NEO for the purposes of determining compensation. Although some of the individual performance objectives are expressed in qualitative terms that require subjective evaluation, objectives also include several quantitative measures. However, the assessment of the overall performance for each NEO involves a subjective process. The CEO reviews the performance of each NEO (other than the CEO) with the Compensation Committee and recommends a performance assessment for each executive. The Compensation Committee assesses the CEO's performance. The Compensation Committee then exercises subjective judgment, reviewing the individual performance objectives, the overall performance of the individual executive against all of his or her individual objectives, taken together, and the executive's performance relative to the environment and to other executives. There is no formal weighting of the individual performance objectives. Individual performance may impact an executive's cash incentive payment, subject to an overall cap on incentive payments of 200% of the Incentive Pay Objective.

The individual performance objectives for the CEO and the other NEOs and the factors considered by the Compensation Committee for 2016 are described below.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Committee Review Process. The Compensation Committee generally meets each February to review and approve annual incentive payments for the prior year and to set incentive performance targets for the current year. The Compensation Committee may adjust the incentive payment levels based on financial measure achievement, KOD achievement, individual performance, and TSR. In February 2017, after reviewing the Company's 2016 performance versus financial and operational goals, TSR performance, and business unit performance, the Compensation Committee awarded incentive payments to the NEOs that ranged from 156% to 191% of the Incentive Pay Objectives for the NEOs. The amount awarded to each NEO for 2016 is reported in the accompanying "Summary Compensation" table. The incentive payments were paid in March 2017.

Long-Term Incentive Awards. The mix of long-term incentive awards granted to our NEOs in 2016 included stock options, PBRsUs and RSUs. The Compensation Committee views stock options as performance-based equity compensation, tying our executives' pay directly to stockholder value creation over the long term because the value of our common stock must increase after the date of grant of the options in order for the options to have any value. Having a seven-year time horizon, stock options also promote the retention of our executives and are consistent with our focus on top-line growth, innovation and our longer-term investment horizon and product pipeline. PBRsU awards measure relative TSR, which the Compensation Committee believes is a straightforward and objective metric for our stockholders to evaluate our performance against the performance of other companies and to align with stockholder interests. As the RSU awards have value regardless of stock price performance, they help promote the stability and retention of a strong executive team over the longer term (vesting schedules generally require continuous service over multiple years, as described below).

Of the total 2016 long-term incentive award granted to each of our NEOs, the values of stock options were weighted 55%, PBRsUs were weighted 25%, and time-based RSUs were weighted 20% (based on the grant-date fair value of the awards). We believe measuring a combination of absolute TSR (through stock options), relative TSR (through PBRsUs), and providing stock-denominated time-based vesting RSUs, results in a balance between these incentives

that appropriately aligns our executives' pay with stockholder value and promotes the stability and retention of the executive team. Given the different risk and reward characteristics of these three types of awards and our executive compensation philosophy, the Compensation Committee believes that the equity awards granted to executives should comprise a greater proportion of stock options and PBRsUs relative to RSUs.

Stock options granted to Mr. Bobo, Mr. Ullem, Ms. Szyman and Mr. Wood vest annually over four years and have a seven-year term. Stock options granted to Mr. Mussallem vest monthly over 36 months, consistent with the vesting standards established by the Company for its stock option grants to executives who are retirement-eligible, and have a seven-year term. Stock options granted during 2016 have an exercise price equal to the closing price on the day of the regular Board meeting held on the next day following Compensation Committee approval.

PBRsUs awarded in 2016 are based on relative TSR performance as measured for the performance period beginning April 30, 2016 and ending April 30, 2019. The percentage of the target PBRsU awards that will vest at the end of the three-year performance period depends on the percentage by which our TSR exceeds or falls short of the median TSR (calculated assuming dividend reinvestment) of the S&PHEI Companies (as defined below). The chart below illustrates the maximum, target and threshold performance levels and the PBRsU payout at each level.

2016 PBRsU Performance Levels	TSR vs Median of S&PHEI Companies	Payout as a Percentage of Target Award
Maximum	+7.5% points from median	175%
Target	Median	100%
Threshold	-7.5% points from median	25%
No Payout	More than -7.5% points from median	0%

The maximum and threshold performance levels applicable to the awards were set at levels that the Compensation Committee believed were consistent with the historical 75th and 25th percentile levels, respectively, for the TSRs of the S&PHEI Companies. The "S&PHEI Companies" are a subset of 23 companies in the S&P Healthcare Equipment Index that are also on the S&P 500 and S&P 400 Midcap Index.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

RSUs granted to the NEOs become vested as to 50% of the total number of units subject to the award on each of the third and fourth anniversaries of the award date, subject to continued employment of the award recipient through the applicable vesting date.

At the Compensation Committee meeting immediately preceding the stockholder meeting in May of each year, the Compensation Committee generally determines the size of the long-term incentive award for each NEO. In keeping with our commitment to provide a total compensation package that emphasizes at-risk components of pay, long-term incentives for 2016 comprised, on average, 67% of the value of the NEO's total direct compensation package.

For 2016, the CEO evaluated each NEO's performance (other than his own), as discussed previously (see "Compensation Process" above), and established specific recommendations for the Compensation Committee's consideration. Accordingly, the Compensation Committee established awards for the NEOs (other than the CEO) based on these recommendations and the Committee's assessment of the factors noted above for each executive. The Compensation Committee evaluated the CEO's performance using the same criteria as discussed above in "Compensation Process" to establish the appropriate award for the CEO. Awards are granted under the Long-Term Stock Program, which was last approved by the stockholders in May 2016. The awards made to the NEOs for 2016 are set forth in the accompanying "Grants of Plan Based Awards in Fiscal Year 2016" table below.

Value of Equity Awarded in 2016. Under applicable accounting rules, the grant-date fair value of the PBRsUs awarded to our NEOs (at the "target" level of performance) is calculated using a Monte Carlo simulation pricing model. The PBRsUs are included as compensation for our NEOs in the "Summary Compensation Table" based on this valuation methodology. For information on the assumptions used in this fair value computation, refer to Note 13 of the "Notes to Consolidated Financial Statements" in the 2016 Annual Report.

The value of the PBRsUs awarded to our NEOs using this model in each of 2013 and 2014 differed from the Company's stock price on the grant date, either positively or negatively, by approximately 30% as a result of applying the Monte Carlo simulation. As a

result, the number of PBRsUs awarded to our executives has varied significantly year over year. Beginning in 2015, the Compensation Committee decided to calculate the number of PBRsUs to be awarded to executives using the stock price on the grant date, rather than by applying the Monte Carlo simulation model, in order to simplify the process and to provide more consistent award sizing (based on the number of shares subject to the awards) from year to year. The Monte Carlo simulation model will continue to be applied, as required under applicable accounting rules, for purposes of valuing these awards in our financial disclosures and in presenting the grant-date fair value of these awards in the "Summary Compensation Table."

The following chart shows the values of the PBRsUs awards approved by the Compensation Committee in 2016 that were used to determine the number of shares subject to the awards (based on the \$105.59 closing price per share of our common stock on the grant date for PBRsUs, calculated at the "target" level of performance and without taking the Monte Carlo simulation model into account), as well as the accounting grant-date fair value of the PBRsUs we are required to use under applicable SEC rules to report in the "Summary Compensation Table" (calculated as noted in the footnotes to the "Summary Compensation Table," and including the impact of the Monte Carlo simulation model).

Name	2016 PBRsUs Awards	
	Value Based on May 12, 2016 Stock Price	Value Required to be Included in Summary Compensation Table
Mr. Mussallem	\$1,549,533	\$1,703,181
Mr. Ullem	388,043	426,521
Mr. Bobo	388,043	426,521
Ms. Szyman	361,646	397,506
Mr. Wood	374,845	412,013

The grant-date fair value of all the long-term incentive awards granted by the Company to the NEOs in 2016 is included in the "Grants of Plan-Based Awards in Fiscal Year 2016" table below.

Determination as to 2013 PBRsUs Awards. In May 2013, the Compensation Committee granted awards of PBRsUs to certain of our executives. For these awards to vest, Edwards' TSR had to reach the 25th percentile relative to that of the other companies that were listed

EXECUTIVE COMPENSATION AND OTHER INFORMATION

in the Morgan Stanley Healthcare Product Companies Index (“RXP”) on the grant date and were still publicly traded on March 31, 2016, the last day of the three-year performance period. Edwards’ percentile ranking compared to the threshold, target and maximum percentile ranks of the RXP companies as of March 31, 2016, as well as the 3-year TSRs relative to each level are as follows:

2013 PBRSU Performance Levels	Rank of RXP Companies	TSR Over Three-Year Period	Payout as a Percentage of Target Award
Maximum	75 th Percentile	77%	175%
Target	50 th Percentile	63%	100%
Threshold	25 th Percentile	37%	25%
Edwards	86 th Percentile	88%	175%

The Compensation Committee determined that as of March 31, 2016 our relative TSR was at the 86th percentile, higher than the maximum level and, accordingly, 175% of the target award for each executive vested. Amounts realized by our NEOs attributable to these awards can be found in the “Option Exercises and Stock Vested in Fiscal Year 2016” table below.

Stock Ownership Guidelines and Holding Requirement. Under our guidelines, executives are expected to own shares of Edwards’ stock as follows:

CEO	Other NEOs
6 times base salary	3 times base salary
All of the NEOs are in compliance with the ownership guidelines.	

Stock ownership guidelines were established to create additional owner commitment and to emphasize stockholder value creation. Expected ownership levels are adjusted as the executives’ annual base salaries change. Executives who have not met the guidelines must hold 50% of the net shares of our common stock acquired in connection with the exercise of stock options and the vesting of restricted stock and RSU awards (after satisfaction of applicable taxes and, in the case of options, payment of the exercise price) until the guidelines are met. In the event an executive achieved the guideline but was unable to maintain the ownership level due to a decline in the price of our common stock, the 50% holding requirement is reinstated.

Prohibition on Pledging and Hedging. We have adopted a policy prohibiting directors, the executive

leadership team, employees with a title of “vice president” or above and employees designated as “insiders” under our insider trading policy from (1) holding the Company’s securities in a margin account or otherwise pledging the Company’s securities as collateral for a loan, and (2) hedging the Company’s securities, including entering into short sales, options, puts, calls and sales against the box, as well as derivative transactions including swaps, forwards, futures, collars and exchange funds. To our knowledge, none of our NEOs has engaged in hedging or pledging with respect to our common stock.

Market Timing of Equity Awards. We do not have any program, plan or practice to time equity grants in coordination with the release of material information. Annual equity awards for the NEOs are generally approved at the Compensation Committee meeting in May of each year and awarded on the date of the Board meeting immediately following that Committee Meeting. Any other equity awards to the NEOs, including grants to new hires, are generally made on the date of the next regularly scheduled Board meeting.

Benefits and Perquisites. The NEOs are eligible to participate in employee benefit programs generally offered to other of our employees employed in the same jurisdiction as the NEO including, for all NEOs employed in the United States, the Edwards Lifesciences Corporation 401(k) Savings and Investment Plan (“401(k)”), which provides for a Company matching contribution. We match contributions dollar for dollar up to the first 3% of cash compensation, and 50% on the next 2%. In addition, we provide certain other perquisites to our NEOs that are not generally available to our employees.

The Compensation Committee conducts an annual review of the competitiveness of our perquisite program, including its individual components and levels, against the perquisite programs of companies in the Comparator Group. As a result of these reviews, the Compensation Committee may make adjustments from time to time in the benefits and perquisites provided as it determines to be appropriate.

We believe that providing perquisites enhances the competitiveness of the executive’s compensation in a relatively inexpensive way. These perquisites are described below and reported in the “Summary Compensation Table.”

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Our perquisite program for the NEOs includes the following:

Car Allowance. An annual car allowance is paid as follows: \$13,200 for the CEO, and \$10,800 for the other NEOs. It is intended to cover expenses related to the lease, purchase, insurance and maintenance of a vehicle, and mileage for business use. The car allowance is provided in recognition of the need to have executives visit customers, business partners and other stakeholders in order to fulfill their job responsibilities.

Executive Physical Examination. The Company paid up to \$1,500 for each annual executive physical examination received by an NEO. This benefit encourages the proactive management of the executive's health, helping best position the executive team to be able to address the ongoing and day-to-day issues we face.

Perquisite Allowance. NEOs receive a fixed annual allowance for certain expenses. The CEO receives \$40,000 (plus two club memberships that are being used for corporate business purposes, at a combined cost of \$10,260 in 2016), and the other NEOs each receive \$20,000. This benefit recognizes the diverse nature of expenses that have a business nexus that may be incurred by our executives. The allowance may also be used to cover certain personal financial, estate and tax planning costs, as we believe that it is appropriate for the executives to have professional assistance in managing their total compensation, permitting them to focus their full attention on growing and managing our business.

Deferred Compensation. We have adopted a deferred compensation plan for the NEOs and certain other management employees to enable them to save for retirement by deferring their income and the associated tax to a future date or termination of employment. Under the Executive Deferred Compensation Plan (the "EDCP"), return on compensation deferred by participants is based on investment alternatives selected by the participant. We believe that the EDCP is comparable to similar plans offered by companies in the Comparator Group.

The amounts deferred and accrued under the EDCP for the NEOs are reported below in the "Summary Compensation Table" and the "Nonqualified Deferred Compensation Plans" table.

Employment and Post-Termination Agreements.

We have entered into an employment agreement with the CEO, as well as change-in-control severance agreements (the "change-in-control severance agreements") with the CEO and our other NEOs as discussed below. Mr. Bobo, Mr. Ullem, Ms. Szyman and Mr. Wood are eligible to participate in a general severance plan for eligible employees to receive severance benefits upon an involuntary termination of employment due to the elimination of their position or a reduction in workforce.

Chief Executive Officer Employment Agreement.

We entered into an amended and restated employment agreement with Mr. Mussallem on March 9, 2009, which was approved by the Compensation Committee and provides for, among other things, his appointment as Chief Executive Officer, an annual base salary, bonus and long-term incentive awards as determined by the Board, and, in certain circumstances, severance payments upon termination of employment.

Mr. Mussallem's base salary is reviewed and may be adjusted annually based on the Compensation Committee's review of the Comparator Group data in consultation with the Compensation Consultant, and Mr. Mussallem's performance. The Compensation Committee followed the same philosophy and programs described above for executives in determining 2016 compensation for Mr. Mussallem. In addition, the Compensation Committee reviewed a tally sheet, which affixed a dollar amount to all components of Mr. Mussallem's compensation, including current compensation, equity awards and benefits.

The Compensation Committee believes, after reviewing Mr. Mussallem's total direct compensation, individual performance and contribution to our financial results during 2016, that Mr. Mussallem's total compensation and each component thereof were in line with our compensation philosophy and objectives.

If Mr. Mussallem's employment is involuntarily terminated by us without "cause," as defined in the employment agreement, we are required to pay certain severance benefits, provided he is not receiving the severance benefits under his change-in-control severance agreement. The material terms of the severance arrangement are described in the section "Potential Payments upon Termination or Change in Control" below.

Change-in-Control Severance Agreements. We have entered into agreements with the NEOs pursuant to which such individuals will be provided certain payments and benefits in the event of termination of employment following a change in control of the Company. We believe that these agreements enhance the likelihood of retaining the services of the executives in the event we were to become an acquisition target and allow the NEOs to continue to focus their attention on our business operations, stockholder value and the attainment of long-term and short-term objectives without undue concern over their employment or financial situations. The material terms of the agreements are described in the section “Potential Payments upon Termination or Change in Control,” below.

We believe that the level of severance payments is fair and reasonable based on the value we would derive from the services provided by the executives with change-in-control severance agreements prior to, and following, a change in control.

Tax and Accounting Implications – Policy Regarding Section 162(m). Section 162(m) generally limits the corporate deduction for annual compensation deemed paid to the NEOs, excluding the CFO, to \$1,000,000 per individual, unless that compensation qualifies as performance-based under Section 162(m). The Compensation Committee considers the impact of Section 162(m) in designing our executive compensation program. We believe that our stock option and PBRSU awards will qualify as performance-based compensation not subject to the \$1,000,000 limitation under Section 162(m). In addition, the awards to the NEOs under the Incentive Plan are currently intended to qualify as performance-based compensation not subject to the \$1,000,000

limitation under Section 162(m). The rules and regulations promulgated under Section 162(m) are complicated, however, and subject to change from time to time, sometimes with retroactive effect. In addition, a number of requirements must be met in order for particular compensation to qualify under Section 162(m). There can be no assurance that the compensation intended to qualify for deductibility under Section 162(m) awarded or paid by the Company will be fully deductible.

The Compensation Committee recognizes the importance of preserving our ability to design compensation programs to attract and retain skilled and qualified individuals in a highly competitive market. The Compensation Committee will continue to design salary, annual incentive bonuses and long-term incentive compensation in a manner that the Compensation Committee believes prudent or necessary to hire and retain our NEOs, and may approve compensation arrangements for our executive officers from time to time that do not satisfy the requirements of Section 162(m) (such as base salaries and our time-based vesting RSUs) when it believes that these other considerations outweigh the benefit of the tax deductibility of the compensation.

2017 Compensation Decisions. At its February 2017 meeting, the Compensation Committee approved average base salary increases of approximately 3.3% for the NEOs to maintain market competitiveness. The Compensation Committee also approved other base salary increases to recognize performance for other executives. In addition, the Compensation Committee established the Incentive Pay Objectives and the maximum bonus for each NEO, and established the Company’s 2017 financial measures and operational goals under the Incentive Plan.

EXECUTIVE COMPENSATION

The “Summary Compensation Table” quantifies the value of the different forms of compensation earned by or awarded to our NEOs for 2016. The primary elements of each NEO’s total compensation reported in the table are base salary, annual bonus and long-term equity incentives consisting of stock options, PBRsUs and RSUs. NEOs also received the other benefits listed in the “All Other Compensation” column of the “Summary Compensation Table,” as further described in the footnotes to the table.

The “Summary Compensation Table” should be read in conjunction with the tables and narrative descriptions that follow. A description of the material terms of each NEO’s base salary and annual bonus is provided immediately following the “Summary Compensation Table.” The “Grants of Plan-Based Awards in Fiscal Year 2016” table, and the accompanying description of the material terms of the stock options and stock unit awards granted in 2016, provides information regarding the long-term equity incentives awarded to NEOs in 2016. The “Outstanding Equity Awards at 2016 Fiscal Year-End” and “Option Exercises and Stock Vested in Fiscal Year 2016” tables provide further information on the NEOs’ potential realizable value and actual value realized with respect to their equity awards.

Summary Compensation Table

The following table sets forth a summary, for the years indicated, of the compensation of the principal executive officer, the principal financial officer and our three other most highly compensated executive officers whose total compensation for 2016 was in excess of \$100,000 and who were serving as executive officers at the end of 2016. No other executive officers that would have otherwise been includable in the table on the basis of total compensation for 2016 have been excluded by reason of their termination of employment or change in executive status during that year.

The EDCP is more fully described in the section following the “Nonqualified Deferred Compensation Plans” table below.
- (2) The base salaries for 2015 for the NEOs are slightly lower than previously reported, and the base salaries for 2014 for the NEOs are slightly higher than previously reported, to account for year ends that occur in the middle of a payroll period. The presentation in the table above reports the base salary actually earned by each NEO for the corresponding fiscal year, including salary earned during the final pay period of a particular fiscal year but not actually paid until the following fiscal year.
- (3) The amounts reported in these columns reflect the aggregate grant-date fair value of the stock awards and option awards during the applicable year. These values have been determined under the principles used to calculate the grant-date fair value of equity awards for purposes of our financial statements in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718. For a discussion of the assumptions and methodologies used to value the awards reported in these columns, please see the discussion of stock awards and option awards contained in Note 13 of the “Notes to Consolidated Financial Statements” in the 2016 Annual Report.

The table below sets forth the grant-date fair value determined in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718 for the PBRsUs awarded in fiscal 2016, 2015, and 2014 based upon the probable outcome of the performance-related vesting conditions as of the grant date (we judged the “target” level of performance to be the probable outcome as of the grant date of the awards), and the grant-date fair value of these awards determined on that basis but assuming that the maximum level of performance was achieved.

- (1) Our practice is to grant equity-based awards on the date of the Board meeting following the Compensation Committee's approval of the grants.
- (2) These are awards payable under the Incentive Plan for 2016. See the discussion on "Annual Cash Incentive Payment" at page 31 for additional information.
- (3) The awards to Mr. Mussallem, Mr. Bobo, Ms. Szyman and Mr. Wood under the Incentive Plan for 2016 were intended to qualify as performance-based compensation so as not to be subject to the \$1,000,000 limitation under Section 162(m). See the discussions at page 31 on "Annual Cash Incentive Payment" and on "Incentive Pay Objective" for additional information. The amounts set forth above represent the Incentive Pay Objective anticipated to be paid for performance that meets pre-established objectives, after the exercise of negative discretion by the Compensation Committee.
- (4) These are PBRsUs granted under the Long-Term Stock Program that vest based on a combination of certain length of service and market conditions. The material terms of the PBRsUs are described in the section "Equity Incentive Plan Awards—Performance-Based Restricted Stock Units" below.
- (5) RSUs with respect to shares of common stock are granted under the Long-Term Stock Program. RSUs become vested as to 50% of the total number of units subject to the award on each of the third and fourth anniversaries of the award date and are subject to the executive's continued employment with the Company. The material terms of the RSUs are described in the section "Equity Incentive Plan Awards—Restricted Stock Units" below.
- (6) Options to acquire common stock are granted under the Long-Term Stock Program. Consistent with vesting standards established by the Company for its stock option grants to executives who are retirement-eligible, options vest and become exercisable in 36 equal monthly installments beginning one month after the award date, and are subject to the executive's continued employment with the Company. The material terms of the options are described in the section "Equity Incentive Plan Awards—Stock Options" below.
- (7) Options to acquire common stock are granted under the Long-Term Stock Program. The options vest and become exercisable in four equal annual installments beginning on the first anniversary of the grant date. The material terms of the options are described in the section "Equity Incentive Plan Awards—Stock Options" below.
- (8) The amounts reported in this column reflect the grant-date fair value of the stock award or option award determined under the principles used to calculate the grant-date fair value of equity awards for purposes of our financial statements. For the assumptions and methodologies used to value the awards, see footnote 3 to the "Summary Compensation Table" above.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Non-Equity Incentive Plan Awards. The material terms of the non-equity incentive plan awards reported in the table above are described in the “Compensation Discussion and Analysis” section under the heading, “Elements of Compensation—Annual Cash Incentive Payment.”

Equity Incentive Plan Awards. Each of the equity incentive awards reported in the table above was granted under, and is subject to, the terms of the Long-Term Stock Program. The Compensation Committee administers the Long-Term Stock Program and has authority to interpret the plan provisions and make all required determinations thereunder. Additional terms of the equity incentive awards reported in the table above are described in the “Compensation Discussion and Analysis” section

- (1) The dollar amounts shown in this column are determined by multiplying the number of shares or units reported in the "Number of Shares or Units of Stock That Have Not Vested" column by \$93.70, the closing price of our common stock on the last trading day of 2016.
- (2) Options to acquire common stock granted under the Long-Term Stock Program. Consistent with vesting standards established for executives who were retirement eligible before May 12, 2011, including Mr. Mussallem, options granted prior to May 2015 vest and become exercisable in 24 equal monthly installments beginning one month after the award date, and are subject to the executive's continued employment.
- (3) Options to acquire common stock granted under the Long-Term Stock Program. Consistent with vesting standards established for executives who are retirement eligible, including Mr. Mussallem, options granted since May 2015 vest and become exercisable in 36 equal monthly installments beginning one month after the award date, and are subject to the executive's continued employment.
- (4) RSUs under the Long-Term Stock Program. RSUs become vested as to 50% of the total number of units subject to the award on each of the third and fourth anniversaries of the award date, and are subject to the executive's continued employment.
- (5) Target number of PBRsUs under the Long-Term Stock Program. PBRsUs vest on the third anniversary of the award date, and are subject to the executive's continued employment. The number of shares issuable upon vesting of these PBRsUs will range from 0% to 175% of the target number of shares subject to the award and depend on satisfaction of applicable performance requirements over a three-year performance period.
- (6) Options to acquire common stock granted under the Long-Term Stock Program. The options vest and become exercisable in four equal annual installments beginning on the first anniversary of the award date, and are subject to the executive's continued employment.
- (7) RSUs under the Long-Term Stock Program. "Buyout" RSUs granted in 2014 to Mr. Ullem and "inducement" RSUs granted in 2015 to Ms. Szyman become vested in four equal annual installments beginning on the first anniversary of the award date, and are subject to the executive's continued employment.

Option Exercises and Stock Vested in Fiscal Year 2016

The following table sets forth for each of the NEOs the number of shares of our common stock acquired and the value realized on each exercise of stock options

during the year ended December 31, 2016. No stock appreciation rights have been granted to the NEOs.

- (2) The dollar amounts shown in the “Value Realized on Vesting” column are determined by multiplying (i) the number of shares or units, as applicable, that vested, by (ii) the per-share closing market price of our common stock on the day prior to vesting.
- (3) All 638,700 options exercised by Mr. Mussallem were exercised pursuant to a pre-arranged stock trading plan established under Rule 10b5-1 of the Exchange Act (a “Rule 10b5-1 Plan”).
- (4) All 60,000 options exercised by Mr. Bobo were exercised pursuant to a Rule 10b5-1 Plan.

Nonqualified Deferred Compensation Plans

Executive Deferred Compensation Plan. The following table sets forth information relating to our nonqualified deferred compensation plan (“EDCP”), for 2016 for the NEOs.

Name	Executive Contributions in Last Fiscal Year \$(1)	Registrant Contributions in Last Fiscal Year \$(2)	Aggregate Earnings in Last Fiscal Year \$(3)	Aggregate Withdrawals/Distributions (\$)	Aggregate Balance at Last Fiscal Year-End (\$)

Mr. Wood	60,542	40,362	11,798	—	428,788

- (1) Executive contributions for 2016 are included in the “Salary” column of the “Summary Compensation Table” above.
- (2) Company contributions for 2016 are included in the “All Other Compensation” column of the “Summary Compensation Table” above.
- (3) “Earnings” is defined to reflect the difference in the account balance between the beginning and end of the year, less any executive or Company contributions and any amounts withdrawn or distributed. Earnings include realized and unrealized gains and losses, capital gains and losses, and dividends paid.

The EDCP provides the NEOs and certain other employees with the opportunity to defer specified percentages (up to 25%) of their cash compensation and receive matching employer contributions that could not be deferred or contributed to the 401(k) because of the limitations under such plan imposed by the Code. The EDCP also permits the participants to defer up to 100% of their annual cash incentive bonus and an additional 55% of their base pay, but we do not match the employee contribution above 25%. Participants may elect deferred amounts to be paid in the form of either a lump sum or in up to 15 annual installments either upon separation

from service, a specified date or death. Deferrals are credited with gains or losses based on the performance of one or more investment alternatives selected by the participant from among investment funds chosen by the Compensation Committee or its delegate. Investment elections made for each plan year may not be revoked, changed or modified except as permitted under the EDCP, and subject to applicable law. No actual investments will be held in the participants’ accounts and participants will at all times remain general unsecured creditors of the Company with respect to their account balances.

Potential Payments Upon Termination or Change in Control

Included below is a summary of the material terms and conditions of the only agreements we have entered into with our NEOs that provide for certain payments and benefits in connection with a termination of their employment, other than benefits that are part of employee benefit plans that apply on the same terms to all salaried employees. Also described below are the terms of the Long-Term Stock Program with respect to outstanding equity awards in the event of a change in control of the Company.

Change-in-Control Severance Agreements. We have entered into change-in-control severance agreements with each of the NEOs and certain other executives. The change-in-control severance agreements entered into with Messrs. Mussallem, Bobo and Wood were subject to an initial term ending December 31, 2013, and the change-in-control severance agreements entered into with Ms. Szyman and Mr. Ullem were subject to initial terms ending December 31, 2015 and December 31, 2014, respectively. The change-in-control severance agreements are subject to automatic one-year extensions each year unless we provide notice that the agreement will not be extended. Under the terms of the change-in-control severance agreement, each executive is entitled to receive certain severance payments if, at any time during the period commencing six months prior to and ending on the date that is 24 months following a change in control, the executive incurs a “qualifying termination” of employment. For these purposes, a “qualifying termination” means (i) the executive is involuntarily terminated by us without cause; or (ii) the executive voluntarily terminates employment for good reason.

For purposes of the change-in-control severance agreements, “cause” generally includes (1) certain willful and deliberate material breaches by the executive of the executive’s duties and responsibilities that are not timely remedied; (2) the executive engaging in conduct that is willfully, demonstrably and materially injurious to the Company that is not timely remedied; or (3) the executive being convicted of, or pleading guilty or *nolo contendere* to, a felony that adversely affects the reputation of the executive or the Company.

For the NEOs other than Mr. Mussallem, “good reason” generally includes (1) a material change of the executive’s responsibilities or status or the assignment

of the executive to duties materially inconsistent with such responsibilities or status; (2) a relocation in excess of 50 miles of the executive’s principal job location; (3) a reduction of the executive’s base salary, incentive plans or benefits; (4) our failure to require any successor company to assume the obligations under the agreement; or (5) a material breach by the Company of the material terms of the agreement. For Mr. Mussallem, “good reason” generally has the same meaning described above, except that the definition also includes that following a change in control (1) Mr. Mussallem is no longer a member of the Board or fails to be nominated for reelection to the Board; or (2) Mr. Mussallem and the Company (or any successor company) have not mutually agreed (within five business days following a change in control) on the terms and conditions of his continued employment.

In the event of a qualifying termination, the executive would be entitled to receive a lump sum payment equal to the sum of (1) two times (three times in the case of Mr. Mussallem) the annual base salary as of the time of termination (or during the 12 months preceding the change in control, if higher); (2) two times (three times in the case of Mr. Mussallem) the Incentive Pay Objective for the year of termination (or the dollar amount of the actual bonus paid in the preceding year, if higher); (3) a pro-rated bonus for the year of termination; (4) all then-outstanding and unvested long-term incentive awards would generally be subject to accelerated vesting; and (5) continued participation in our medical and dental plans for three years following termination of employment. In addition, the executive would be entitled to reasonable outplacement services. If any such payments or benefits would constitute a parachute payment under Section 280G of the Code, then such payments and benefits would be reduced to the extent necessary to assure that the executive receives only the greater of (1) the amount of the payments which would not constitute a parachute payment, or (2) the amount which yields the greatest after-tax benefit after taking into account any excise taxes imposed under Section 4999 of the Code. The change-in-control severance agreements do not provide for tax gross-up payments. Receipt of these severance benefits is conditioned upon the executive executing and not revoking a general release of any claims in favor of the Company.

The change-in-control severance agreements for the NEOs other than Mr. Mussallem provide that, in the event the executive is entitled to benefits under our Severance Pay Plan (the “Severance Plan”), which is described below, and the executive also has a qualifying termination under the change-in-control severance agreement, the executive will be entitled to the benefits under the change-in-control severance agreement only, and installment payments under the Severance Plan will immediately terminate without offset or reduction for any benefits already received under the Severance Plan. In the event Mr. Mussallem becomes entitled to the benefits under his change-in-control severance agreement following the time at which he became entitled to certain severance benefits under the terms of his employment agreement (which is described below), any then-remaining severance benefits under his employment agreement will immediately terminate and he will only be entitled to benefits under his change-in-control severance agreement, and the amount of certain severance benefits payable under his change-in-control severance agreement will be reduced by the amount of the severance benefits previously paid under his employment agreement.

Employment Agreement with CEO. On March 9, 2009, the Company entered into an amended and restated employment agreement with Mr. Mussallem pursuant to which he is eligible to receive benefits in connection with certain termination circumstances. If Mr. Mussallem’s employment is terminated without cause, we will pay him the sum of (1) two times his highest base salary in the preceding 12 months; (2) the higher of one times his maximum target bonus for the year of termination, or two times the actual bonus paid in the preceding year; (3) a pro-rated bonus for the year of termination; and (4) an amount equal to the cost of continued medical and dental coverage for up to 24 months. Mr. Mussallem will not be entitled to receive any such payments if he receives payments under his change-in-control severance agreement and, as described above, any severance benefits Mr. Mussallem may receive under his change-in-control severance agreement will be offset by any benefits he received under his employment agreement. For purposes of Mr. Mussallem’s employment agreement, “cause” generally includes (1) the executive willfully engaging in conduct that is demonstrably and materially injurious to the Company; or (2) the executive’s conviction of a felony.

If Mr. Mussallem’s employment is terminated due to retirement, disability or death, he will receive his pro-rated bonus for the year of termination and additional benefits as determined in accordance with our benefit plans.

For a period of 24 months following his termination of employment, Mr. Mussallem may not employ or solicit for employment any of our employees or consultants.

Severance Pay Plan. We maintain the Severance Plan, under which the NEOs (other than Mr. Mussallem) and certain other employees are eligible to receive severance benefits in connection with a termination of the individual’s employment due to elimination of his or her position or a reduction in the size of our workforce. Benefits paid to an NEO (other than Mr. Mussallem) under the Severance Plan consist of cash severance equal to one and one-half times the executive’s “monthly compensation” (as defined in the Severance Plan), plus 4% of the monthly compensation multiplied by the number of whole months of service completed as of the date of termination. In no event will this cash severance exceed two times the annual compensation received in the preceding 12 months. See “Change-in-Control Severance Agreements” section above for a description of the treatment of Severance Plan benefits if an NEO is also entitled to severance benefits under the change-in-control severance agreement.

Acceleration of Equity Awards. Pursuant to the terms of the Long-Term Stock Program applicable to awards granted prior to May 2015, in the event of a change in control of the Company, all outstanding stock options, restricted stock, RSUs and PBRsUs held by all employees (including the NEOs) will vest in full. This provision was amended as to awards granted since May 2015 such that both a change in control and a specified termination of employment (a “double-trigger”) are required, or the awards must be terminated in the change-in-control transaction, in order for vesting of the awards to accelerate in connection with the change-in-control transaction.

Estimated Payments. The following tables set forth the estimated payments and benefits that would have been payable to the NEOs under the terms of their agreements as described above had their employment been terminated on December 31, 2016 under the termination circumstances indicated below. Unless otherwise noted, all cash payments would be made in a lump sum and would be paid by us or our successor. The amounts set forth in these tables represent estimates and forward-looking information that is subject to substantial variation based on the timing of the applicable triggering event. We caution the reader to consider these limitations in reviewing the following tables.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

For purposes of estimating the amount of payments and benefits payable as a result of a termination of the executive's employment following a change in control, we have made the following assumptions where applicable:

- the change in control occurred on December 31, 2016;
- the stock price was \$93.70 per share, which was the closing price of our common stock on December 30, 2016;
- all NEOs were terminated on the date of the change in control; and
- the NEOs received continued participation in our medical and dental plans for three years following termination of employment.

We have also assumed that outstanding and unvested stock options and RSUs held by the executive accelerated and became vested (to the extent required in the circumstances) on the applicable event. If the awards were accelerated in connection with a change in control pursuant to which the awards were to be terminated, the value of the acceleration would be the same as the applicable value indicated below for "Qualifying Termination in Connection with a Change in Control" assuming that the change in control occurred on December 31, 2016. In these circumstances, there would be no additional value for the accelerated vesting of the awards in connection with a termination of employment if the awards had previously accelerated because of the change in control.

(1) Pursuant to the terms of Mr. Mussallem's change-in-control severance agreement. Mr. Mussallem's payments and benefits will be reduced to the extent necessary to ensure that he receives only the greater of (1) the amount of the payments which would not constitute a parachute payment, or (2) the amount which yields the executive the greatest after-tax amount of benefits after taking into account any excise taxes imposed on the executive under Section 4999 of the Code. The value of Mr. Mussallem's severance benefits presented in the table assumes that no such reduction in his benefits would be required.

(2) Pursuant to the terms of Mr. Mussallem's amended and restated employment agreement, and assuming that the termination of employment is not in connection with a change in control.

Cutback	(79,992)(4)	—	—	—
Total	\$18,325,244	\$9,618,805	\$8,168,110	\$9,896,007

- (1) Under the change-in-control severance agreements, payments and benefits will be reduced to the extent necessary to ensure that the executive receives only the greater of (1) the amount of the payments which would not constitute a parachute payment or (2) the amount which yields the executive the greatest after-tax amount of benefits after taking into account any excise taxes imposed on the executive under Section 4999 of the Code.
- (2) A prorated portion of Ms. Szyman's \$300,000 signing bonus paid in the form of a credit to her EDCP account is included because this portion will be removed by the Company from the EDCP. The prorated amount equals one month of her bonus because almost 24 months have elapsed since her hire date. If Ms. Szyman were to terminate employment under certain circumstances in her first two years of employment, she would be entitled to retain only a monthly pro-rated portion of the \$300,000 signing bonus in her EDCP account. This two-year time period lapsed on January 5, 2017.
- (3) This amount is half of the cash value of Ms. Szyman's relocation benefit, because this amount was no longer subject to recoupment. If Ms. Szyman were to terminate employment under certain circumstances in the first two years of employment, she would be required to repay one-half or all of the relocation benefit (the proration is based on the number of full years of services performed during the two-year period).
- (4) Mr. Ullem's total payments considered "parachute payments" under Section 280G of the Code were, in this hypothetical termination scenario, estimated to have been greater than three times his "base amount" calculated under Section 280G of the Code. As described above, Mr. Ullem is subject to a best net after-tax provision under his change-in-control severance agreement under which such payments and benefits would be reduced to the extent necessary to assure that Mr. Ullem receives only the greater of (1) the amount of the payments which would not constitute a parachute payment, or (2) the amount which yields the greatest after tax benefit after taking into account any excise taxes imposed under Section 4999 of the Code. It is estimated that, in this scenario, Mr. Ullem's benefits would have been reduced by \$79,992 to avoid the application of Section 4999 of the Code.

Executive Benefits and Payments upon Termination: Not in Connection with a Change in Control

	Mr. Ullem	Mr. Bobo	Ms. Szyman	Mr. Wood
Cash Severance(1)	\$134,602	\$544,687	\$103,858	\$729,742

- (1) Pursuant to the terms of the Severance Plan, and assuming that the termination of employment is not in connection with a change in control of the Company. Ms. Szyman's obligation to repay any relocation benefit terminated on January 5, 2017.

PROPOSAL 2 – ADVISORY VOTE TO APPROVE FREQUENCY OF NAMED EXECUTIVE OFFICER COMPENSATION VOTES

As described in Proposal 3 below, our stockholders are being provided the opportunity to cast an advisory vote on the NEO compensation (referred to as a “say-on-pay” vote) every year.

In 2011, our stockholders had the opportunity to cast an advisory vote on how often we should include a say-on-pay vote in the Proxy Materials for our annual meetings of stockholders or special stockholder meetings for which we must include executive compensation information in the proxy statement for that meeting (referred to as a “say-on-pay frequency vote”). At our 2011 annual meeting, stockholders voted to have the say-on-pay vote every year. The Board accepted the stockholders’ preference and implemented annual say-on-pay advisory votes.

Under SEC rules, we are required to hold a new say-on-pay frequency vote at least every six years. Accordingly, this Proposal 2 affords our stockholders the opportunity to cast an advisory vote on how often we should include a say-on-pay frequency vote in the proxy materials for future annual or special stockholders meetings, as applicable. Under this Proposal 2, our stockholders may vote to have future advisory votes on executive compensation every year, every two years, every three years, or abstain from voting.

We believe that advisory votes on executive compensation should be conducted every year so that our stockholders may annually express their views on our executive compensation program. Over the past six years, stockholders have come to expect, and are accustomed to having, the opportunity to review and vote on executive compensation every year. Also, if investors do have concerns about the Corporation’s executive compensation program, it can be a benefit to allow them to express those concerns through the annual say-on-pay vote.

Like the say-on-pay vote, this say-on-pay frequency vote is advisory and will not be binding on the Company, the Compensation Committee or the Board. However, the Board and the Compensation Committee value the opinions expressed by our stockholders and will take the outcome of this vote into account when determining the frequency of future say-on-pay votes.

It is expected that the next vote on a say-on-pay frequency proposal will occur at the 2023 annual meeting of stockholders.

THE BOARD RECOMMENDS THAT STOCKHOLDERS VOTE TO HOLD FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION EVERY ONE YEAR.

PROPOSAL 3 – ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

In accordance with Section 14A of the Exchange Act and the related rules of the SEC, we are providing our stockholders with the opportunity to vote, on an advisory, non-binding basis, on the executive compensation of our NEOs as disclosed in this Proxy Statement (including in the compensation tables and narratives accompanying those tables as well as in the “Compensation Discussion and Analysis”).

As described more fully in the “Compensation Discussion and Analysis,” our executive compensation programs are designed to attract, retain, motivate, and engage executives with superior leadership and management capabilities. High-caliber talent is critical to our success and we strive to provide compensation that is competitive. Our strong “pay for performance” culture is reflected in the following:

- A significant portion of executive compensation is performance based;
- Our performance goals consist of a mix of company-wide financial and operating and strategic measures as well as personal objectives designed to further the Company’s annual and long-term business performance; and
- We strive to align the interests of our executives with the interests of our stockholders, with a significant portion of executive compensation being in the form of equity awards with a value dependent upon our stock price.

The Compensation Committee periodically reviews our executive officer compensation programs to ensure that they achieve the desired goals.

We urge stockholders to read the “Compensation Discussion and Analysis” beginning on page 24 of the Proxy Statement, which describes in more detail how our executive compensation policies and procedures are designed and operate to achieve our compensation and strategic objectives, as well as the “Summary Compensation Table” and other related compensation tables and narrative appearing on pages 41 through 53. The Compensation Committee and the Board believe that the policies, procedures, and compensation programs described in these sections have contributed to the Company’s long-term performance.

In the advisory vote at our 2016 annual meeting, approximately 96% of the votes cast by our stockholders supported our executive compensation policies and procedures.

Even though we have regularly received strong support for our executive pay practices, the Compensation Committee continues to engage in periodic reviews of our executive compensation and benefits programs and makes changes as appropriate to reflect our compensation philosophy and objectives, and to take into account stockholder feedback.

In 2016, our financial and operating performances were strong. We achieved significant growth and exceeded our financial goals, including non-GAAP revenue, net income and free cash flow, the three measures of achievement under our annual cash incentive plan. Reflecting our performance for the year, prior to taking into account individual performance, our annual incentive plan for corporate employees funded at 159% of target. After taking into account individual performance, payouts for the NEOs ranged from 156% to 191% of their Incentive Pay Objectives.

Another indicator of our pay for performance culture is the relationship of the CEO’s total direct compensation to total stockholder return. Over the past five years, on average, 88% of the CEO’s total direct compensation is performance based, and 73% has been tied to the performance of Edwards’ stock. Our stock price has increased 165% over the past five years, 185% over the past three years, and 19% over the past year.

We are asking our stockholders to indicate their support for our NEO compensation programs as described in the Proxy Statement. This proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on our NEOs’ compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in the Proxy Statement.

PROPOSAL 3 – ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

Accordingly, we ask our stockholders to vote “FOR” the following resolution at the Annual Meeting:

“RESOLVED, that the Company’s stockholders approve, on an advisory basis, the compensation of the NEOs, as disclosed in the Company’s Proxy Statement for the 2017 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosure included in the Proxy Statement.”

The say-on-pay vote is advisory, and therefore not binding on the Company, the Compensation Committee or the Board, and it will not be construed as overriding a decision by the Company, the Compensation Committee or the Board, or creating or

implying any additional fiduciary duty. However, the Board and our Compensation Committee value the opinions of our stockholders and will consider the voting results when making future decisions regarding executive compensation.

Our current policy is to provide our stockholders with an opportunity to approve the compensation of the NEOs each year at the annual meeting. As described in Proposal 2, we are asking stockholders to cast an advisory vote on how often we should include a say-on-pay proposal in the Proxy Materials and our Board is recommending that we continue with the current policy of holding a say-on-pay vote every year. Accordingly, if stockholders approve every ONE YEAR as the preferred frequency option in Proposal 2, it is expected that the next vote on executive compensation will occur at the 2018 annual meeting.

THE BOARD RECOMMENDS A VOTE “FOR” THE APPROVAL OF THE COMPENSATION OF OUR NEOs, AS DESCRIBED IN THE PROXY STATEMENT.

EQUITY COMPENSATION PLAN INFORMATION

The following table sets forth, for each of our four equity compensation plans, which include the Long-Term Stock Program, the Nonemployee Directors Program, the 2001 Employee Stock Purchase Plan for United States Employees (the "U.S. ESPP") and the 2001 Employee Stock Purchase Plan for International Employees (the "International ESPP"), the number of shares of our common stock subject to outstanding awards, the weighted average exercise price of outstanding options, and the number of shares remaining available for future award grants as of December 31, 2016. These plans have each been approved by our stockholders.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights(1)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans(2)
Equity compensation plans approved by stockholders	11,385,052(3)	\$49.82	12,286,143(4)
Equity compensation plans not approved by stockholders	—	—	—

(1) The weighted average exercise price is calculated without taking into account 1,396,243 shares of common stock subject to outstanding RSUs that will become issuable as those units vest, without any cash consideration or other payment required for such shares.

(2) The amounts indicated in this column exclude securities listed in the column titled "Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights."

(3) This amount includes 1,167,959 shares of common stock subject to RSU awards that will entitle the holder to one share of our common stock for each such unit that vests over the holder's period of continued service, 185,600 shares subject to PBRsUs granted to executives (at the targeted level of performance; actual payout could range from 0% to 175% of the targeted level based on relative total stockholder return) and 42,684 PBRsUs granted to non-executive employees (at targeted level of performance; actual payout could be either 0% or 100% of the targeted level based on performance against applicable goals).

(4) As of December 31, 2016, the following number of shares of common stock remain available for future issuance under equity compensation programs approved by our stockholders: (a) Long-Term Stock Program (prior to the additional 1,400,000 shares that will be available under the plan if our stockholders approve Proposal 4) – 10,146,715; (b) Nonemployee Directors Program – 815,432; (c) U.S. ESPP (prior to the additional 1,500,000 shares that will be available under the plan if our stockholders approve Proposal 5) – 655,703 and (d) the International ESPP – 668,293.

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

THE BOARD RECOMMENDS A VOTE “FOR” THE AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM.

The Company is requesting that stockholders approve an increase in the number of shares available for issuance under the Long-Term Stock Program by 1,400,000 shares. We encourage stockholders to consider the detailed information provided and the following summarized factors when evaluating this Proposal 4:

FACTORS TO CONSIDER

- ✓ Our philosophy is to promote an ownership culture among our employees.
- ✓ We believe that stock ownership aligns the interests of employees more closely with those of our stockholders.
- ✓ Long-term incentive awards are critical in our pay-for-performance compensation structure.
- ✓ We have adopted robust stock ownership guidelines for executive officers and directors.
- ✓ Awards are granted to a limited number of employees who are key contributors to our success and whose performance influences the long-term results of the Company.
- ✓ A significant portion of the Company’s overhang is attributed to a large population of employees who have long-held stock options, which we believe reflects employees’ confidence in the Company’s future prospects.
- ✓ We have a low annual burn rate.
- ✓ We have been an active repurchaser of our shares.
- ✓ Awards granted starting in 2015 vest in at least three years, absent special circumstances.
- ✓ Equity awards have “double-trigger” vesting in the event of a change in control, unless awards are terminated.

The Board has approved an amendment and restatement of the Long-Term Stock Program, which subject to stockholder approval, contains the following amendment:

- **Increase in Aggregate Share Limit.** The proposed amendment and restatement would increase the aggregate number of shares of our common stock available for issuance under the Long-Term Stock Program by an additional 1,400,000 shares. It would also place a limit on the number of shares that may be delivered pursuant to “incentive stock options” granted under the Long-Term Stock Program equal to 109,200,000 shares. For purposes of clarity, any shares that are delivered pursuant to incentive stock options also count against (and are not in addition to) the aggregate share limit described above.

The Board and the Compensation Committee believe that stockholders’ support of this proposal will enable us to continue to attract and retain the highest caliber of employees within our industry, link incentive awards to our performance, encourage employee stock ownership and more closely align the interests of employees with those of our stockholders. While our compensation strategy has been formulated for the long-term, we provide stockholders the annual opportunity to evaluate and vote on share increases to the Long-Term Stock Program. The Compensation

Committee anticipates that the 1,400,000 additional shares requested (together with the shares available for new award grants under the Long-Term Stock Program on the date of the Annual Meeting) will give us flexibility to continue providing competitive long-term incentives to eligible employees as part of our equity-based compensation strategy.

We believe that the long-term component of our incentive compensation program should be aligned with stockholders and strongly prefer the attributes of stock-based incentives. If stockholder approval for this proposal is not obtained, the number of shares reserved under the Long-Term Stock Program will not be increased, and we may be unable to fully implement the long-term incentive component of our compensation program. Without the ability to use stock, we would be required to replace stock compensation with the equivalent in cash incentives in order to maintain a competitive compensation program. We believe that cash incentive programs generally offer less of an opportunity to link management compensation directly to stockholder interests. In years when performance targets are exceeded, the use of cash incentive programs could greatly impact the Company’s net income. We will continue to have the authority to grant awards under the Long-Term Stock Program, within the existing Long-Term Stock Program limits and other plan terms, if our stockholders do not approve this Proposal 4.

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

The Company encourages stockholders to consider the following factors that support this request:

- The Company grants long-term incentive awards (stock options and RSUs) to a limited number of employees who are considered key contributors to our success and whose performance most directly influences the long-term results of the Company. This strategy has allowed the Company to achieve a low burn rate while providing what we believe to be adequate incentives for our key employees.

	2013	2014	2015	2016
Annual Burn Rate(1)	1.4%	1.2%	0.87%	0.48%

(1) Burn Rate = $\frac{\text{Shares subject to awards granted less shares subject to awards cancelled}}{\text{Shares outstanding as of year end}}$

The 1,400,000 shares requested in this proposal represent 0.66% of our outstanding shares at December 31, 2016.

The total number of shares of our common stock subject to awards granted under the Long-Term Stock Program over the last three years, and through February 28, 2017, are as follows:

	2014	2015	2016	2017 Through February 28
Stock Options	1,372,424	1,732,778	983,417	23,450
RSUs	270,826	381,218	237,197	26,809
PBRsUs(1)	38,750	110,584(2)	46,200	12,542(3)
Total	1,682,000	2,224,580	1,266,814	62,801

(1) The number of shares granted is based on the targeted level of performance. Actual payouts to executives could range from 0% to 175% of these targets based on relative total stockholder return.

(2) 67,900 PBRsUs granted to executives (at the targeted level of performance; actual payout could range from 0% to 175% of the targeted level based on relative total stockholder return) and 42,684 PBRsUs granted to non-executive employees (at targeted level of performance; actual payout could be either 0% or 100% of the targeted level based on performance against applicable goals).

(3) Granted to non-executive employees.

- Each year since 2008, we have actively repurchased shares of our common stock through various stock repurchase programs. The Board has approved stock repurchase programs authorizing us to purchase our common stock on the open market, including pursuant to a Rule 10b5-1 plan and in privately negotiated transactions. As of December 31, 2016, we had remaining authority to purchase \$1,031 million of common stock.

To help assess the potential dilutive impact of the Long-Term Stock Program proposal, the number of shares of our common stock issued and outstanding in each of the last four fiscal years is as follows:

	2013	2014	2015	2016
Shares Outstanding at Fiscal Year End (in millions)	218.5	215.5	215.4	211.6

On February 28, 2017, the Company had 211,246,603 shares of common stock outstanding.

- When employees hold “in-the-money” stock options for a long time it can artificially skew the overhang, or the percentage of outstanding shares represented by all stock incentives awarded and those available for future awards under all plans. A significant portion of the Company’s overhang is attributed to a large population of employees who have held stock options, which we believe reflects employees’ confidence in our future prospects.

The following table provides additional information on employee stock options outstanding as of February 28, 2017.

	Total Options Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Years of Contractual Life
Total vested options outstanding	6,294,020	\$41.77	2.78
Total options outstanding	9,559,670	\$50.46	3.54

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

- As of February 28, 2017, a total of 10,875,854 shares were subject to outstanding options and stock awards under the Long-Term Stock Program. These included 9,559,670 shares subject to outstanding options, 1,089,586 shares subject to outstanding RSUs, 185,600 shares subject to PBRsUs granted to executives (at the targeted level of performance; actual payout could range from 0% to 175% of the targeted level based on relative total stockholder return) and 40,998 shares subject to outstanding PBRsUs granted to non-executive employees (at targeted level of performance; actual payout could be either 0% or 100% of the targeted level based on performance against applicable goals). As of that date, a total of 10,192,766 shares were available for new award grants under the Long-Term Stock Program.
- We do not have any program, plan or practice to time option grants in coordination with the release of material information. (See “Executive Compensation and Other Information—Compensation Discussion and Analysis—Market Timing of Equity Awards”);
- Our practice is to grant equity awards to the NEOs each year at our May Board meeting, in conjunction with the annual meeting;
- We have never engaged in a repricing of stock options, and our Long-Term Stock Program would require stockholder approval for any repricing actions; and
- Our current practice is to provide our stockholders the opportunity to evaluate and vote annually on share increases to the Long-Term Stock Program.

We are committed to maintaining strong corporate governance practices and note the following important factors that pertain to our Long-Term Stock Program and our long-term equity compensation practices:

- The Company has adopted stock ownership guidelines and a holding requirement for its executive officers to create additional owner commitment and to emphasize stockholder value creation. (See “Executive Compensation and Other Information—Compensation Discussion and Analysis—Stock Ownership Guidelines and Holding Requirement.”) All NEOs have met their ownership targets;
- The Long-Term Stock Program is a component of total executive direct compensation (base salary plus target annual cash incentive plus grant date fair value of equity awards), which is generally positioned to approximate the median for comparable positions at competitive peer companies (See “Executive Compensation and Other Information—Compensation Discussion and Analysis—Compensation Process.”);
- The maximum term of options is seven years;
- Awards generally have a minimum vesting period of three years;
- In 2016, we awarded PBRsUs to the NEOs that require achievement of performance goals based on relative TSR over a three-year performance period;

The principal terms of the Long-Term Stock Program are summarized below. The following summary is qualified in its entirety by the full text of the Long-Term Stock Program, which has been filed as Appendix A to the Proxy Statement.

Administration. The Long-Term Stock Program is administered by the Compensation Committee. The Compensation Committee may, and has, delegated authority to the CEO to grant rights in, or options to purchase, shares of our common stock to eligible employees who are not executive officers. The Compensation Committee has broad authority under the Long-Term Stock Program including the authority to select participants and determine awards, establish terms and conditions of awards, make certain adjustments to awards and construe and interpret the program.

Eligibility. Only employees and independent contractors providing services to the Company or its subsidiaries are eligible to participate in the Long-Term Stock Program. As of February 28, 2017, approximately 11,647 employees (including eight executive officers) were eligible to participate in the Long-Term Stock Program (1,794 hold equity awarded under the Long-Term Stock Program as of that date). The nonemployee directors of the Company are not eligible to participate in the Long-Term Stock Program; however, they are eligible to receive equity awards under the Nonemployee Directors Program as described on page 17 of the Proxy Statement.

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

Share Reserve. Subject to adjustment for certain changes in the Company's capitalization or other events referred to under "Adjustments in Authorized Shares" below, and subject to approval of this Proposal 4 by stockholders, a total of 109,200,000 shares of our common stock will have been authorized for issuance under the Long-Term Stock Program, (including the 1,400,000 shares that are the subject of this Proposal 4). In general, shares subject to outstanding options or other awards under the Long-Term Stock Program that expire or otherwise terminate prior to the issuance of the shares subject to those options or awards will be available for subsequent issuance under the Long-Term Stock Program. Unvested shares issued under the Long-Term Stock Program and subsequently forfeited to or reacquired by the Company will be added back to the number of shares reserved for issuance under the Long-Term Stock Program and will accordingly be available for subsequent issuance. In addition, shares that are exchanged by a participant or withheld by the Company or one of its subsidiaries as full or partial payment in connection with any restricted stock or RSU award granted under the Long-Term Stock Program, including to satisfy the tax withholding obligations related to any restricted stock or RSU award, will be available for subsequent awards under the Long-Term Stock Program. Shares that are exchanged by a participant or withheld by the Company to pay the exercise price of a stock option granted under the Long-Term Stock Program, as well as any shares exchanged or withheld to satisfy the tax withholding obligations related to any such award, will not be available for reissuance under the Long-Term Stock Program.

Subject to adjustment for certain changes in the Company's capitalization, the proposed amended and restated Long-Term Stock Program that is the subject of this Proposal 4 provides that the maximum number of shares that may be delivered pursuant to options qualified as incentive stock options granted under the Long-Term Stock Program is equal to 109,200,000 shares.

Subject to adjustment for certain changes in the Company's capitalization, not more than 4,000,000 shares in the aggregate may be granted in the form of stock options to any one participant during a fiscal year.

Subject to adjustment for certain changes in the Company's capitalization, not more than 11,200,000 shares in the aggregate may be issued as restricted stock and RSU awards under the Long-Term Stock Program. The Long-Term Stock Program also provides

that no more than 800,000 shares may be issued as restricted stock or RSUs to any one participant during a fiscal year. As of February 28, 2017, a total of 3,809,710 shares remained available for issuance as restricted stock or RSUs under the Long-Term Stock Program.

Subject to adjustment for certain changes in the Company's capitalization, the maximum number of shares which may be subject to "Performance-Based Awards" under Article 9 of the Long-Term Stock Program that are granted to any one participant during a fiscal year (in addition to options which are subject to the limit referred to above) is subject to the 800,000 share limit with respect to restricted stock and RSU awards described above.

As of February 28, 2017, 9,559,670 options, 1,089,586 RSUs, 185,600 shares subject to PBRsUs granted to executives (at the targeted level of performance; actual payout could range from 0% to 175% of the targeted level based on relative total stockholder return) and 40,998 PBRsUs granted to non-executive employees (at targeted level of performance; actual payout could be either 0% or 100% of the targeted level based on performance against applicable goals) were outstanding under the Long-Term Stock Program. As of the same date, 80,657,274 shares had been issued pursuant to the exercise of outstanding options, 5,747,415 shares had been issued upon vesting of RSUs, 326,691 shares had been issued upon vesting of PBRsUs, and 10,192,766 shares remained available for future option grants, RSUs, or direct issuance.

Types of Awards. The following three types of awards may be granted to eligible participants under the Long-Term Stock Program: stock options, restricted stock awards and RSUs.

Stock Options. Nonqualified and incentive stock options may be granted under the Long-Term Stock Program. The Compensation Committee has the discretion to select eligible participants to receive options, and determine the type, number of shares, exercise price, and other terms of options granted under the Long-Term Stock Program. The Compensation Committee may, and has, delegated authority to the CEO to grant options to eligible employees who are not executive officers. No option may be granted with an exercise price less than the closing price of our common stock on the grant date. The closing price of our common stock as of February 28, 2017 was \$94.04 per share.

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

Restricted Stock and Restricted Stock Units.

Shares of our common stock that have restrictive conditions may be issued under the Long-Term Stock Program to eligible participants. The Compensation Committee has the discretion to select eligible participants to receive restricted stock, and determine the number of shares, purchase price (if any), any conditions of restriction and other terms of restricted stock issued under the Long-Term Stock Program. A plan participant who receives an award of restricted stock will have stockholder rights, including voting and dividend rights, for those shares unless the Compensation Committee determines otherwise.

The Compensation Committee may issue RSUs under the Long-Term Stock Program, which entitle the participant to receive shares of our common stock underlying the units upon attainment of designated performance goals, the satisfaction of specified service requirements or upon the expiration of a designated time period following the vesting of the units. The Compensation Committee has the discretion to select eligible participants to receive RSUs, and to determine the number of shares, any vesting and other terms and conditions of the RSUs. The holders of RSUs will not have any stockholder rights until the underlying shares are actually issued to the holder. However, dividend equivalent units may be paid or credited, either in cash or in actual or phantom shares of our common stock, on outstanding restricted units, subject to such terms and conditions as the Compensation Committee deems appropriate.

Performance-Based Awards. The Compensation Committee may grant awards that are intended to be performance-based awards within the meaning of Section 162(m) (“Performance-Based Awards”). Performance-Based Awards are in addition to any of the other types of awards that may be granted (including stock options, which may also qualify as performance-based awards for Section 162(m) purposes). Performance-Based Awards may be in the form of restricted stock or RSUs.

The vesting or payment of Performance-Based Awards (other than stock options) will depend on the absolute or relative performance of the Company on a consolidated, subsidiary, segment, division or business unit basis. The Compensation Committee will establish the criterion or criteria and target(s) on which performance will be measured. The Compensation Committee must establish criteria and targets in advance of applicable deadlines under the Code and while the attainment of the performance targets remains substantially uncertain. The criteria that the Compensation Committee may use

for this purpose will include one or more of the following:

- return measures (including, but not limited to, return on assets, capital, investment, equity or sales);
- earnings per share;
- net income (before or after taxes) or operating income;
- earnings before interest, taxes, depreciation and amortization or operating income before depreciation and amortization;
- sales or revenue targets;
- market to book value ratio;
- cash flow or free cash flow (cash flow from operations less capital expenditures);
- market share;
- cost reduction goals;
- budget comparisons;
- implementation, completion or progress of projects, processes, products or product lines strategic or critical to the Company’s business operations;
- measures of customer satisfaction;
- share price (including, but not limited to, growth measures and total stockholder return);
- working capital;
- economic value added;
- percentage of sales generated by new products;
- progress of research and development projects or milestones;
- growth in sales of products or product lines;
- any combination of, or a specified increase in, any of the foregoing; or
- the formation of joint ventures, research and development collaborations, marketing or customer service collaborations or the completion of other corporate transactions intended to enhance the Company’s revenue or profitability or expand the Company’s customer base.

The performance measurement period with respect to an award may range from three months to ten years. Performance targets will be adjusted to mitigate the unbudgeted impact of material, unusual or nonrecurring gains and losses, accounting changes or other extraordinary events not foreseen at the time the targets were set, unless the Compensation Committee provides otherwise at the time of establishing the targets.

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

Before any Performance-Based Award (other than a stock option) is paid, the Compensation Committee must certify that the performance target or targets have been satisfied. The Compensation Committee has discretion to determine the performance target or targets and any other restrictions or other limitations of Performance-Based Awards and may reserve discretion to reduce payments below maximum award limits.

Minimum Vesting Requirements. Pursuant to the terms of the Long-Term Stock Program, stock options, restricted stock awards and RSUs will become vested over a minimum period of three years measured from the applicable award date. Vesting may occur in one or more installments ratably over the applicable minimum vesting period.

Except for any accelerated vesting required or permitted pursuant to “Acceleration upon Change in Control” below, and except as otherwise provided below, and subject to such additional vesting requirements or conditions as the Compensation Committee may establish with respect to an award, each award granted under the Long-Term Stock Program is subject to the minimum vesting requirements applicable to the award; provided that the Compensation Committee may accelerate or provide in the applicable award agreement for the accelerated vesting of any award in connection with a change in control, the termination of the participant’s employment with the Company or service to the Company as a

contractor (including a termination due to the participant’s death, disability or retirement, but not including a termination for cause), or as consideration or partial consideration for a release by the participant of pending or threatened claims against the Company or a subsidiary or any of their respective officers, directors or other affiliates (regardless of whether the release is given in connection with a termination of employment or service for cause or other circumstances). The Compensation Committee may also accelerate or provide in the applicable award agreement for the accelerated vesting of any award in circumstances not contemplated by the preceding sentence, and/or provide for a vesting schedule that is shorter than the minimum schedule set forth in the applicable sections of the Long-Term Stock Program (or provide for an award to be fully vested at grant notwithstanding the other vesting rules of the Long-Term Stock Program), in such circumstances as the Compensation Committee may deem appropriate; provided, however, that the shares subject to the portion of any such awards that vest earlier than the minimum vesting dates that would be applicable pursuant to the minimum vesting requirements of the applicable sections of the Long-Term Stock Program (or, as to any accelerated vesting, provides for accelerated vesting other than in the circumstances contemplated by the preceding sentence) will not, in the aggregate, exceed 10% of the total number of shares available for award grant purposes under the Long-Term Stock Program.

Stock Awards. The following table shows the number of options granted under the Long-Term Stock Program between January 1, 2016 and February 28, 2017 to the NEOs and groups indicated. Directors who are not employees of the Company are not eligible to participate in the Long-Term Stock Program (although they are eligible to participate in the Nonemployee Directors Program) and, accordingly, none of our nonemployee directors has received options under the Long-Term Stock Program.

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

Amendment of the Long-Term Stock Program; No Limit on Other Authority. The Board may alter, amend, suspend or terminate the Long-Term Stock Program at any time, and the Compensation Committee may amend awards previously granted. Stockholder approval will be required for any amendment of the Long-Term Stock Program only to the extent required by applicable law. In addition, and except for adjustments made in connection with changes in the Company's capitalization or other events referred to under "Adjustments in Authorized Shares" below or any repricing that may be approved by our stockholders, the Compensation Committee may not (1) amend an outstanding option for the sole purpose of lowering the exercise price of the option, (2) cancel, exchange or surrender an outstanding option in exchange for cash or other awards for the purpose of repricing the award, or (3) cancel, exchange or surrender an outstanding option for the purposes of reissuing such option at a lower exercise price, without stockholder approval. Further, no termination, amendment or modification of the Long-Term Stock Program or amendment of previously granted awards may adversely affect in any material way a previously granted award, without the consent of the participant holding the award. The ability to grant an award under the Long-Term Stock Program will terminate on February 25, 2026, subject to any extension that may be approved by our stockholders. The Long-Term Stock Program does not limit the authority of the Company, the Board, or the Compensation Committee to grant awards or authorize any other compensation, with or without reference to the Company's common stock, under any other plan or authority.

Acceleration upon Change in Control. For awards granted prior to May 2015 under the Long-Term Stock Program, upon a change in control (as defined in the Long-Term Stock Program), awards (other than Performance-Based Awards) under the Long-Term Stock Program will immediately become 100% vested and exercisable and any restrictions will immediately lapse. For Performance-Based Awards, and unless otherwise provided in the applicable award agreement, if there is a change in control during the performance period and prior to a termination of the executive's employment, the PBRsUs will automatically become vested as to a pro-rata number of the target number of shares subject to the award based upon the length of time within the applicable performance period which has elapsed prior to the change in control; provided, that if an option, restricted stock award or RSU award granted under the Long-Term Stock Program after May 8, 2002 becomes exercisable or vests only after

either (1) a minimum fixed period of employment or service, or (2) the earlier achievement of a performance-related goal, the exercisability or vesting of the award will not automatically accelerate as described above but may accelerate if and to the extent provided in the applicable award agreement. In the event a change in control occurs following the last day of the performance period and prior to the vesting date, subject to the executive's continued employment through such date, the PBRsUs will immediately become vested as to the number of units that otherwise would have become vested as of such date.

For awards granted since May 2015 under the Long-Term Stock Program, awards will become 100% vested and exercisable upon a change in control with either a specified termination of employment, or termination of the awards in connection with the change in control.

Adjustments in Authorized Shares. In the event of any change in corporate capitalization, such as a stock split, or a corporate transaction, such as any merger, consolidation, separation, including a spin-off, or other distribution of stock or property of the Company, any reorganization or any partial or complete liquidation of the Company, adjustments will be made to: (i) the maximum number and class of shares issuable under the Long-Term Stock Program, (ii) the maximum number and class of shares for which options may be granted to a participant per fiscal year, (iii) the maximum number and class of shares for which restricted stock and RSUs may be issued in the aggregate and to any participant per fiscal year, and (iv) the number and class of and price of shares subject to outstanding awards granted under the Long-Term Stock Program. Such adjustments will be made as deemed to be appropriate and equitable by the Compensation Committee, in its sole discretion, to prevent dilution or enlargement of rights.

New Plan Benefits. No options have been granted, and no direct stock issuances or RSUs have been awarded, on the basis of the 1,400,000 share increase which forms part of this Proposal 4. If the proposed amendment and restatement of the Long-Term Stock Program had been in effect in 2016, we expect that our award grants for 2016 would not have been different from those actually made in that year under the Long-Term Stock Program.

Summary of Federal Income Tax Consequences. The following summary describes the United States federal income taxation treatment applicable to the Company and the participants who receive awards

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

under the Long-Term Stock Program. The following summary is not intended to be exhaustive and, among other considerations, does not describe the deferred compensation provisions of Section 409A of the Code to the extent an award is subject to and does not satisfy those rules, nor does it describe state, local, or international tax consequences.

Option Grants. Options granted under the Long-Term Stock Program may be either incentive stock options which satisfy the requirements of Section 422 of the Code, or non-statutory options which are not intended to meet such requirements. The federal income tax treatment for the two types of options differs as follows:

Incentive Options. No taxable income is recognized by the optionee at the time of the option grant, and no taxable income is recognized for regular tax purposes at the time the option is exercised, although taxable income may arise at that time for alternative minimum tax purposes. The optionee will recognize taxable income in the year in which the purchased shares are sold or otherwise made the subject of certain other dispositions. For federal tax purposes, dispositions are divided into two categories: qualifying, and disqualifying. A qualifying disposition occurs if the sale or other disposition is made more than two years after the date the option for the shares involved in such sale or disposition is granted, and more than one year after the date the option is exercised for those shares. If the sale or disposition occurs before these two periods are satisfied, then a disqualifying disposition will result.

Upon a qualifying disposition, the optionee will recognize long-term capital gain in an amount equal to the excess of the amount realized upon the sale or other disposition of the purchased shares over the exercise price paid for the shares. If there is a disqualifying disposition of the shares, then the excess of the fair market value of those shares on the exercise date or (if less) the amount realized upon such sale or disposition over the exercise price paid for the shares will be taxable as ordinary income to the optionee. Any additional gain recognized upon the disposition will be a capital gain.

If the optionee makes a disqualifying disposition of the purchased shares, then the Company will be entitled to an income tax deduction for the taxable year in which such disposition occurs equal to the amount of ordinary income recognized by the optionee as a result of the disposition. The Company will not be entitled to any

income tax deduction if the optionee makes a qualifying disposition of the shares.

Non-Statutory Options. No taxable income is recognized by an optionee upon the grant of a non-statutory option. The optionee will generally recognize ordinary income in the year in which the option is exercised equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares, and the optionee will be required to satisfy the tax withholding requirements applicable to such income. The Company will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the optionee with respect to the exercised non-statutory option. The deduction will generally be allowed for the Company's taxable year in which such ordinary income is recognized by the optionee.

Restricted Stock. A recipient of restricted stock will generally recognize ordinary income when his or her shares vest, based on the then-fair market value of the shares. The recipient may, however, elect under Section 83(b) of the Code to include as ordinary income in the year of issuance of the shares the fair market value of the shares at that time. The recipient will be required to satisfy the tax withholding requirements applicable to such income.

The Company will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the recipient. The deduction will be allowed for the taxable year in which such ordinary income is recognized by the recipient.

Restricted Stock Units. No taxable income is recognized upon receipt of a RSU. The holder will recognize ordinary income in the year in which the shares subject to that unit are actually issued. The amount of that income will be equal to the fair market value of the shares on the date of issuance. The holder will be required to satisfy the tax withholding requirements applicable to such income. The Company will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the holder. The deduction will, in general, be allowed for the taxable year in which such ordinary income is recognized by the holder.

Other Tax Considerations. If an award is accelerated for a "change in control" under the Code, the Company may not be permitted to deduct the portion of the compensation attributable to the acceleration if it exceeds certain threshold limits under the Code (and certain related excise taxes

PROPOSAL 4 – AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM

may be triggered). Furthermore, the aggregate compensation in excess of \$1,000,000 attributable to awards that are not “performance-based” within the meaning of Section 162(m) may not be permitted to be deducted in certain circumstances. While the Company may grant awards that qualify (or are intended to qualify) as performance-based compensation within the meaning of Section 162(m), nothing requires that any award qualify under Section 162(m) or otherwise be deductible for tax purposes.

Board Recommendation. The Board believes that it is in our best interests to enable us to continue to attract and retain the highest caliber of employees within our industry, link incentive awards to performance, encourage employee ownership in the Company and more closely align the interests of employees with those of our stockholders.

All of our executive officers are eligible for awards under the Long-Term Stock Program and thus have a personal interest in the approval of this Proposal 4.

THE BOARD RECOMMENDS A VOTE “FOR” THE AMENDMENT AND RESTATEMENT OF THE LONG-TERM STOCK PROGRAM.

PROPOSAL 5 – AMENDMENT AND RESTATEMENT OF THE U.S. ESPP

Increase in Aggregate Share Limit. The Company is requesting that stockholders approve an increase in the number of shares available for issuance under the U.S. ESPP by 1,500,000 shares. The Board approved an amendment and restatement of the U.S. ESPP on February 23, 2017, which reflects the share increase, subject to stockholder approval of this Proposal 5.

The U.S. ESPP is designed to allow the Company's eligible employees and the eligible employees of the Company's participating parent and subsidiaries (whether now existing or subsequently established) to purchase shares of common stock at periodic intervals through their accumulated payroll deductions.

The following summary describes the principal features of the U.S. ESPP, as amended and restated through February 23, 2017. This summary, however, does not purport to be a complete description of all the provisions of the U.S. ESPP. A copy of the amended and restated U.S. ESPP is attached as Appendix B to this Proxy Statement.

Administration. The U.S. ESPP is administered by the Compensation Committee. Such committee, as plan administrator, has full authority to adopt administrative rules and procedures and to interpret the provisions of the U.S. ESPP.

Share Reserve. The number of shares of common stock reserved for issuance over the term of the U.S. ESPP is currently limited to 10,600,000 shares. The authorized share reserve will increase to 12,100,000 shares if the share increase which is the subject of this Proposal 5 is approved at the Annual Meeting.

In the event of a stock split, stock dividend, recapitalization, reclassification or combination of shares, merger, spin-off, or similar event, equitable adjustments will be made to: (i) the maximum number and class of securities issuable under the U.S. ESPP, (ii) the number and class of securities and the market value and price per share in effect under each outstanding purchase right, and (iii) the maximum number of shares purchasable per participant with respect to any offering.

Offerings. Shares of the Company's common stock will be offered under the U.S. ESPP through a series of successive offerings. Unless the Compensation Committee determines otherwise, a new offering will

commence on the first day of each calendar quarter. Each offering commencing prior to July 1, 2007 was of a duration of two years. Each offering commencing on or after July 1, 2007 has a duration of one year unless otherwise determined by the Compensation Committee. Shares will be purchased on the last business day of each calendar quarter in an offering (or such other dates determined by the Compensation Committee).

At the time the participant joins an offering, he or she will be granted a purchase right to acquire shares of the Company's common stock on each purchase date during that offering. All payroll deductions collected from the participant for the offering period will be automatically applied to the purchase of common stock on such purchase dates, subject to certain limitations summarized below in the section entitled "Special Limitations."

Eligibility and Participation. Any individual who is employed on a basis under which he or she is scheduled to work for more than twenty hours per week in the Company's employ or the employ of any of the Company's participating parent or subsidiaries (including any corporation which subsequently becomes such a participating parent or subsidiary at any time during the term of the U.S. ESPP) will be eligible to participate in the U.S. ESPP.

Each individual who is an eligible employee on the start date of any offering may elect to participate in that offering, provided he or she does so during the enrollment period prescribed for that offering. As of February 28, 2017, approximately 4,998 employees were eligible to participate in the U.S. ESPP.

Payroll Deductions and Stock Purchases. Each participant may authorize periodic payroll deductions in any multiple of one percent (up to a maximum of twelve percent) of his or her base pay to be applied to the acquisition of common stock at quarterly intervals. Accordingly, on each such purchase date (generally the last business day of each calendar quarter), the payroll deductions of each participant accumulated for the offering ending on that purchase date will automatically be applied to the purchase of shares of common stock at the purchase price in effect for that purchase date. For purposes of the U.S. ESPP, the base pay of each participant will include his or her base salary plus commissions.

Purchase Price. The purchase price of the common stock acquired on each quarterly purchase date will be equal to eighty-five percent of the lower of the fair market value per share of common stock on the start date of the offering or the fair market value on the purchase date.

The fair market value per share of common stock on any particular date other than a purchase date under the U.S. ESPP will be deemed to be equal to the closing selling price per share on the last trading day prior to such date on the NYSE, and the fair market value per share of common stock on a purchase date will be deemed to be equal to the closing selling price per share on such date on the NYSE. On February 28, 2017, the fair market value of the Company's common stock determined on such basis was \$94.04 per share.

Special Limitations. The U.S. ESPP imposes certain limitations upon a participant's rights to acquire common stock, including the following limitations:

- Purchase rights granted to a participant may not permit such individual to purchase more than \$25,000 worth of common stock (valued at the time each purchase right is granted) for each calendar year for which those purchase rights are outstanding;
- Purchase rights may not be granted to any individual if such individual would, immediately after the grant, own or hold outstanding options or other rights to purchase, stock equaling five percent (5%) or more of the total combined voting power or value of all classes of the Company's outstanding stock, or the outstanding stock of any of the Company's affiliates; and
- No participant may purchase more than 20,000 shares of common stock during any one offering.

Termination of Purchase Rights. The participant may withdraw from the U.S. ESPP at any time up to the last business day of the offering, and his or her accumulated payroll deductions for that offering period will be applied to the purchase of common stock on the next purchase date.

The participant's purchase right will immediately terminate upon his or her cessation of employment or loss of eligible employee status. Any payroll deductions which the participant may have made for the offering in which such cessation of employment or loss of eligibility occurs will be applied to the purchase of common stock on the next purchase date.

Stockholder Rights. No participant will have any stockholder rights with respect to the shares covered by his or her purchase rights until the shares are actually purchased on the participant's behalf and the participant has become a holder of record of the purchased shares. No adjustment will be made for dividends, distributions or other rights for which the record date is prior to the date of such purchase.

Assignability. No purchase rights will be assignable or transferable by the participant, and the purchase rights will be exercisable only by the participant.

Change in Control. Upon a change in control (as defined in the U.S. ESPP), all outstanding purchase rights will either be assumed by the successor entity and continued in effect or will be automatically exercised immediately prior to the effective date of such acquisition. In the event of such automatic exercise, the purchase price will be equal to eighty-five percent of the lower of the fair market value per share of common stock on the start date of the offering in which such acquisition occurs or the fair market value per share of common stock immediately prior to such acquisition.

Share Pro-Ration. Should the total number of shares of common stock to be purchased pursuant to outstanding purchase rights on any particular date exceed the number of shares then available for issuance under the U.S. ESPP, then the Compensation Committee will make a pro-rata allocation of the available shares on a uniform and equitable basis, and the balance of payroll deductions of each participant will be refunded.

Amendment and Termination. The Board may amend or terminate the U.S. ESPP at anytime. However, the Board may not, without stockholder approval, increase the number of shares issuable under the U.S. ESPP (except as permissible adjustments in the event of changes to the Company's capitalization) or modify the requirements for eligibility to participate in the U.S. ESPP.

New Plan Benefits. No purchase rights will be granted, and no shares will be issued, on the basis of the share increase subject to this proposal unless such proposal is approved by the stockholders at the Annual Meeting.

Stock Purchases. The following table sets forth, as to individuals and groups indicated, the number of shares of common stock purchased under the U.S. ESPP between January 1, 2016 and February 28, 2017, together with the weighted average purchase price paid per share.

U.S. ESPP Transactions

Name and Position	Number of Purchased Shares	Weighted Average Purchase Price Per Share (\$)
Michael A. Mussallem Chairman and Chief Executive Officer	—	—
Scott B. Ullem Chief Financial Officer	—	—
Donald E. Bobo, Jr. Corporate Vice President	351	\$60.53
Catherine M. Szyman, Corporate Vice President	317	67.13
Larry L. Wood Corporate Vice President	351	60.53
All current executive officers as a group (8 persons)	1,721	61.75
All employees, including current officers who are not executive officers, as a group (2,899 persons)	336,230	68.75

Federal Tax Consequences. The U.S. ESPP is intended to be an “employee stock purchase plan” within the meaning of Section 423 of the Code. Under a plan which so qualifies, no taxable income will be recognized by a participant, and no deductions will be allowable to the Company, upon either the grant or the exercise of the purchase rights. Taxable income will not be recognized until there is a sale or other disposition of the shares acquired under the U.S. ESPP, or in the event the participant should die while still owning the purchased shares.

If the participant sells or otherwise disposes of the purchased shares within two years after the start date of the offering or within one year after the purchase date in which such shares were acquired, then the participant will recognize ordinary income in the year of sale or disposition equal to the amount by which the fair market value of the shares on the purchase date exceeded the purchase price paid for those shares, and the Company will be entitled to an income tax deduction for the taxable year in which such disposition occurs, equal in amount to such excess.

If the participant sells or disposes of the purchased shares more than two years after the start date of the offering in which the shares were acquired and more than one year after the purchase date, then the participant will recognize ordinary income in the year of sale or disposition equal to the lesser of the amount by which the fair market value of the shares on the sale or disposition date exceeded the purchase price paid for those shares, or fifteen percent (15%) of the fair market

value of the shares on the start date of that offering, and any additional gain upon the disposition will be taxed as a long-term capital gain. The Company will not be entitled to an income tax deduction with respect to such disposition.

If the participant still owns the purchased shares at the time of death, then the participant will recognize ordinary income in an amount equal to the lesser of the amount by which the fair market value of the shares on the date of death exceeds the purchase price, or fifteen percent (15%) of the fair market value of the shares on the start date of the offering in which those shares were acquired.

Accounting Treatment. Pursuant to the accounting principles applicable to employee stock purchase plans such as the U.S. ESPP, the fair value of each purchase right granted under the U.S. ESPP will be charged as a direct compensation expense to the Company’s reported earnings over the offering period to which that purchase right pertains. The fair value of each such purchase right will be determined as of its grant date.

Board Recommendation. The Board believes that it is in the Company’s best interests to provide the Company’s employees with the opportunity to acquire an ownership interest in the Company through their participation in the U.S. ESPP and thereby encourage them to remain in the Company’s employ and more closely align their interests with those of the stockholders.

THE BOARD RECOMMENDS A VOTE “FOR” THE AMENDMENT AND RESTATEMENT OF THE 2001 EMPLOYEE STOCK PURCHASE PLAN FOR UNITED STATES EMPLOYEES.

AUDIT MATTERS

PROPOSAL 6 – RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has appointed PwC as our independent registered public accounting firm for the fiscal year ending December 31, 2017. Representatives of PwC are expected to attend the Annual Meeting and will be available to respond to appropriate questions and to make a statement if they so desire. In addition to the annual audit services, PwC performs certain non-audit services for us. Although we are not required to seek stockholder approval of the appointment of PwC, the Board believes that it is consistent with good corporate governance practices to ask stockholders to ratify the appointment. If the appointment is not ratified, the Audit Committee will explore the reasons for stockholder rejection and will reconsider the appointment. In addition, even if stockholders ratify the Audit Committee's appointment of PwC, the Audit Committee, in its discretion, may still appoint a different independent registered public accounting firm if it believes that such a change would

be in the best interests of the Company and our stockholders.

PwC has been our independent registered public accounting firm since 2000, serving in that capacity and reporting on our consolidated financial statements and the effectiveness of our internal controls over financial reporting for the 2016 fiscal year. Under SEC rules, a new lead audit partner is designated in the normal course every five years to bring a fresh perspective to the audit engagement. A new partner was so designated in advance of the 2015 audit.

In considering whether to reappoint PwC, the Audit Committee considered results of the Company's annual assessment of PwC's performance, as well as the independence of PwC and the audit engagement team, and the fees charged by PwC for the level and quality of services provided.

THE BOARD RECOMMENDS A VOTE "FOR" THE RATIFICATION OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

Fees Paid to Principal Accountants. During 2016 and 2015, PwC was retained to provide services in the following categories and amounts.

	2016	2015
	(in millions)	
Audit Fees	\$2.7	\$2.6
Audit-Related Fees	0.3	0.1
Tax Fees	1.9	2.6
All Other Fees	—	—

Audit Fees. Amounts paid under "Audit Fees" include aggregate fees for the audit of our consolidated financial statements and the effectiveness of internal controls over financial reporting, the three quarterly reviews of the Company's reports on Form 10-Q and other SEC filings, and services in connection with statutory and regulatory filings.

Audit-Related Fees. Amounts paid under "Audit-Related Fees" were for miscellaneous audit and consulting services.

Tax Fees. Amounts paid under "Tax Fees" in 2016 were for tax compliance (\$1,300,000) and other tax services (\$600,000), and in 2015 were for tax compliance (\$1,000,000) and other tax services (\$1,600,000).

All Other Fees. There were no fees paid under "All Other Fees" in 2016 and 2015.

Pre-Approval of Services. The Audit Committee is required to pre-approve the audit and non-audit services performed by our independent registered public accounting firm in order to assure that the provision of such services does not impair the auditor's independence. Unless a type of service to be provided by the independent registered public accounting firm has received general pre-approval, it requires specific pre-approval by the Audit Committee. Any proposed services exceeding pre-approved cost levels require specific pre-approval by the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period.

AUDIT MATTERS

The Audit Committee at least annually reviews and pre-approves the services that may be provided by the independent registered public accounting firm without obtaining specific pre-approval from the Audit Committee. The Audit Committee does not delegate to management its responsibilities to pre-approve services performed by the independent registered public accounting firm. The Audit Committee may delegate pre-approval authority to one or more of its

members. The member or members to whom such authority is delegated shall report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The annual audit services, engagement terms and fees are subject to the specific pre-approval of the Audit Committee. One hundred percent (100%) of audit and non-audit services performed by PwC in 2016 and 2015 were approved by the Audit Committee.

AUDIT COMMITTEE REPORT

The Audit Committee comprises the four directors named below, each of whom meets the enhanced independence standards for Audit Committee members as set forth in applicable rules of the NYSE and the SEC. The Board has designated each member of the Audit Committee as an “audit committee financial expert” under applicable rules of SEC. Additional information regarding the Audit Committee, its responsibilities and meetings are described above in the section entitled “Board of Directors Matters—Corporate Governance Policies and Practices—Committees of the Board.”

Management is responsible for our internal controls, financial reporting process and compliance with laws, regulations and ethical business practices. Our independent registered public accounting firm, PwC, is responsible for performing an independent audit of our annual consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America, as well as expressing an opinion on the effectiveness of our internal control over financial reporting. The Audit Committee’s responsibility is to monitor and oversee these processes.

In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed with management the Company’s consolidated financial statements as of and for the fiscal year ended December 31, 2016. The Audit Committee has discussed with the Company’s independent registered public accounting firm the matters required to be discussed by Auditing Standard 1301 (previously Auditing Standard No. 16), “Communications with Audit Committees.” The Audit Committee has received and reviewed the written disclosures and the letter from the independent registered public accounting firm under applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant’s communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm its independence.

Based on the reviews and discussions referred to above, and relying thereon, the Audit Committee recommended to the Board that the financial statements referred to above be included in the Company’s Annual Report on Form 10-K for filing with the SEC.

The Audit Committee:

John T. Cardis (Chair)
Kieran T. Gallahue
Leslie S. Heisz
Wesley W. von Schack

This report shall not be deemed soliciting material or to be filed with the SEC, or incorporated by reference in any document so filed, whether made before or after the date hereof, except to the extent we specifically request that it be treated as soliciting material or it is specifically incorporated by reference therein.

The Committee shall have the authority to delegate administrative duties to officers, Employees, or directors of the Company; provided, however, that the Committee shall not be able to delegate its authority with respect to: (i) granting Awards to Insiders; (ii) granting Awards that are intended to qualify for the Performance-Based Exception; and (iii) certifying that any performance goals and other material terms attributable to Awards that are intended to qualify for the Performance-Based Exception have been satisfied.

3.2 Authority of the Committee. Except as limited by law or by the Certificate of Incorporation or Bylaws of the Company, and subject to the provisions of the Program, the Committee shall have the authority to: (a) interpret the provisions of the Program, and prescribe, amend, and rescind rules and procedures relating to the Program; (b) grant Awards under the Program, in such forms and amounts and subject to such terms and conditions as it deems appropriate, including, without limitation, Awards which are made in combination with or in tandem with other Awards (whether or not contemporaneously granted) or compensation or in lieu of current or deferred compensation; (c) subject to Article 14, modify the terms of, cancel and reissue, or repurchase outstanding Awards; (d) prescribe the form of agreement, certificate, or other instrument evidencing any Award under the Program; (e) correct any defect or omission and reconcile any inconsistency in the Program or in any Award hereunder; (f) design Awards to satisfy requirements to make such Awards tax-advantaged to Participants in any jurisdiction or for any other reason that the Company desires; and (g) make all other determinations and take all other actions as it deems necessary or desirable for the administration of the Program; provided, however, that no outstanding Option will be (i) amended to lower the exercise price, (ii) canceled, exchanged or surrendered in exchange for cash or other awards for the purpose of repricing the Option, or (iii) canceled, exchanged or surrendered for the purpose of reissuing such Option to a Participant at a lower exercise price (other than, in each case, pursuant to Section 5.4) without the approval of the Company's stockholders. Article 5. Shares Subject to the Program and Maximum Awards; Minimum Vesting

5.1 Number of Shares Available for Grants. Subject to adjustment as provided in Section 5.4 herein, the number of Shares hereby reserved for delivery to Participants under the Program shall be one hundred and nine million, two hundred thousand (109,200,000) Shares. The maximum number of Shares that may be delivered pursuant to Options qualified as ISOs granted under the Program is one hundred and nine million, two hundred thousand (109,200,000) Shares. No more than eleven million two hundred thousand (11,200,000) Shares reserved for issuance under the Program may be granted in the form of Shares of Restricted Stock or Restricted Stock Units. The Committee shall determine the appropriate methodology for calculating the number of Shares issued pursuant to the Program. The following rules shall apply to grants of such Awards under the Program:

- (a) **Options:** The maximum aggregate number of Shares that may be granted in the form of Options in any one (1) fiscal year to any one (1) Participant shall be four million (4,000,000).
- (b) **Restricted Stock and Restricted Stock Units:** The maximum aggregate number of Shares that may be granted in the form of Restricted Stock and Restricted Stock Units in any one (1) fiscal year to any one (1) Participant shall be eight hundred thousand (800,000).

5.2 Type of Shares. Shares issued under the Program in connection with Stock Options or Restricted Stock Units may be authorized and unissued Shares or issued Shares held as treasury Shares. Shares issued under the Program in connection with Restricted Stock shall be issued Shares held as treasury Shares; provided, however, that authorized and unissued Shares may be issued in connection with Restricted Stock to the extent that the Committee determines that past services of the Participant constitute adequate consideration for at least the par value thereof.

5.3 Reuse of Shares.

- (a) **General.** In the event of the expiration or termination (by reason of forfeiture, expiration, cancellation, surrender, failure to vest or otherwise) of any Award under the Program, that number of Shares that was subject to the Award but not delivered shall again be available for subsequent Awards under the Program.
- (b) **Restricted Stock and Restricted Stock Units.** In the event that Shares are delivered under the Program as Restricted Stock and are thereafter forfeited or reacquired by the Company pursuant to rights reserved upon the grant thereof, such forfeited or reacquired Shares shall again be available for subsequent Awards under the Program.
- (c) **Limitations.** Notwithstanding the provisions of Sections 5.3(a) above, the following Shares shall not be available for reissuance under the Program: (i) Shares which are exchanged by a Participant or withheld by the Company or one of its Subsidiaries to satisfy the tax withholding obligations related to any Option; and (ii) Shares which are exchanged by a Participant or withheld by the Company as full or partial payment of the Option Price upon the exercise of an Option. Shares that are exchanged by a Participant or withheld by the Company as full or partial payment in connection with any Award under the Program that is a Restricted Stock or Restricted Stock Unit Award granted under the Program, as well as any Shares exchanged by a Participant or withheld by the Company or one of its Subsidiaries to satisfy the tax withholding obligations related to any Restricted Stock or Restricted Stock Unit Award granted under the Program, shall be available for subsequent Awards under the Program.

5.4 Adjustments in Authorized Shares. In the event of any change in corporate capitalization, such as a stock split, or a corporate transaction, such as any merger, consolidation, separation, including a spin-off, or other distribution of stock or property of the Company, any reorganization (whether or not such reorganization comes within the definition of such term in Code Section 368), or any partial or complete liquidation of the Company, such adjustment shall be made in the number and class of Shares which may be delivered under Section 5.1, in the number and class of and/or price of Shares subject to outstanding Awards granted under the Program, and in the Award limits set forth in Section 5.1, as shall be determined to be appropriate and equitable by the Committee, in its sole discretion, to prevent dilution or enlargement of rights; provided, however, that the number of Shares subject to any Award shall always be a whole number. In a stock-for-stock acquisition of the Company, the Committee may, in its sole discretion, substitute securities of another issuer for any Shares subject to outstanding Awards.

5.5 International Awards. One or more Awards may be granted to Participants who provide services to the Company or a Subsidiary outside of the United States. Any Awards granted to such persons may be granted pursuant to the terms and conditions of any applicable sub-plans, if any, approved by the Committee.

5.6 Minimum Vesting Requirements. Except for any accelerated vesting required or permitted pursuant to Article 13 and except as otherwise provided in this Section 5.6, and subject to such additional vesting requirements or conditions as the Committee may establish with respect to the Award, each Award granted under the Program shall be subject to the minimum vesting requirements set forth in the applicable sections of the Program; provided that the Committee may accelerate or provide in the applicable Award Agreement for the accelerated vesting of any Award in connection with a Change in Control, the termination of the Participant's employment with the Company or service to the Company as a Contractor (including a termination due to the Participant's death, Disability or Retirement, but not including a termination for cause), or as consideration or partial consideration for a release by the Participant of pending or threatened claims against the Company or a Subsidiary or any of their respective officers, directors or other affiliates (regardless of whether the release is given in connection with a termination of employment or service for cause or other circumstances). The Committee may, however, accelerate or provide in the applicable Award Agreement for the accelerated vesting of any Award in circumstances not contemplated by the preceding sentence, and/or provide for a vesting schedule that is shorter than the minimum schedule set forth in the applicable sections of the Program (or provide for an Award to be fully vested at grant notwithstanding the other vesting rules of the Program), in such circumstances as the Committee may deem appropriate; provided, however, that the Shares subject to the portion of any such Awards that vest earlier than the minimum vesting dates that would be applicable pursuant to the minimum vesting requirements of the applicable sections of the Program (or, as to any accelerated vesting, provides for accelerated vesting other than in the circumstances contemplated by the preceding sentence) shall not, in the aggregate, exceed ten percent (10%) of the total number of Shares available for award

grant purposes under the Program. For purposes of clarity, vesting may occur in one or more installments ratably over any applicable minimum vesting period set forth in other sections of the Program.

Article 6. Stock Options

6.1 Grant of Options. Subject to the terms and provisions of the Program, Options may be granted to Participants in such number, and upon such terms, and at any time and from time to time as shall be determined by the Committee.

6.2 Award Agreement. Each Option grant shall be evidenced by an Award Agreement that shall specify the Option Price, the duration of the Option, the number of Shares to which the Option pertains, and such other provisions as the Committee shall determine. The Award Agreement also shall specify whether the Option is intended to be an ISO or an NQSO.

6.3 Option Price. The Option Price for each grant of an Option under this Program shall be at least equal to one hundred percent (100%) of the Fair Market Value of a Share on the date the Option is granted.

6.4 Duration of Options. Each Option granted to a Participant on or after February 16, 2006 shall expire at such time, not later than the seventh (7th) anniversary date of its grant, as the Committee shall determine.

6.5 Exercise of Options. Options granted under this Article 6 shall be exercisable at such times and be subject to such restrictions and conditions as the Committee shall in each instance approve, which need not be the same for each grant or for each Participant; provided, however, that, subject to Section 5.6 herein, each Option shall become exercisable over a minimum period of three (3) years measured from the date of grant of the option.

6.6 Payment. Options granted under this Article 6 shall be exercised by the delivery of a written notice (or such other form of notice as the Company may specify) of exercise to the Company, setting forth the number of Shares with respect to which the Option is to be exercised, accompanied by full payment for the Shares (or a satisfactory "cashless exercise" notice).

The Option Price upon exercise of any Option shall be payable to the Company in full either: (a) in cash or its equivalent; (b) by tendering previously acquired Shares (by either actual delivery or attestation) having an aggregate Fair Market Value at the time of exercise equal to the total Option Price; (c) by a cashless exercise, as permitted under Federal Reserve Board's Regulation T, subject to applicable securities law restrictions and such procedures and limitations as the Company may specify from time to time; (d) by any other means which the Committee determines to be consistent with the Program's purpose and applicable law; or (e) by a combination of two or more of (a) through (d).

Subject to any governing rules or regulations, including cashless exercise procedures, as soon as practicable after receipt of a notification of exercise and full payment (or a satisfactory "cashless exercise" notice), the Company shall cause to be issued and delivered to the Participant, in certificate form or otherwise, evidence of the Shares purchased under the Option(s).

6.7 Restrictions on Share Transferability. The Committee may impose such restrictions on any Shares acquired pursuant to the exercise of an Option granted under this Article 6 as it may deem advisable, including, without limitation, restrictions under applicable federal securities laws, under the requirements of any stock exchange or market upon which such Shares are then listed and/or traded, and under any blue sky or state securities laws applicable to such Shares.

6.8 Termination of Employment or Service. Each Participant's Option Award Agreement shall set forth the extent to which the Participant shall have the right to exercise the Option following termination of the Participant's employment with the Company or service to the Company as a Contractor. Such provisions shall be determined in the sole discretion of the Committee, shall be included in the Award Agreement entered into with each Participant, need not be uniform among all Options issued pursuant to this Article 6, and may reflect distinctions based on the reasons for termination.

6.9 Nontransferability of Options.

(a) **Incentive Stock Options.** No ISO granted under the Program may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and

distribution. Further, all ISOs granted to a Participant under the Program shall be exercisable during his or her lifetime only by such Participant.

- (b) **Nonqualified Stock Options.** Except as otherwise provided in a Participant's Award Agreement, no NQSO granted under this Article 6 may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, except as otherwise provided in a Participant's Award Agreement, all NQSOs granted to a Participant under this Article 6 shall be exercisable during his or her lifetime only by such Participant.

6.10 Substitution of Cash. Unless otherwise provided in a Participant's Award Agreement, and notwithstanding any provision in the Program to the contrary (including but not limited to Section 14.2), in the event of a Change in Control in which the Company's stockholders holding Shares receive consideration other than shares of common stock that are registered under Section 12 of the Exchange Act, the Committee shall have the authority to require that any outstanding Option be surrendered to the Company by a Participant for cancellation by the Company, with the Participant receiving in exchange a cash payment from the Company within ten (10) days of the Change in Control. Such cash payment shall be equal to the number of Shares under Option, multiplied by the excess, if any the Fair Market Value of a Share on the date the Change in Control occurs, over the Option Price.

6.11 Additional Rules Applicable to Incentive Stock Options. There shall be imposed in any Award Agreement relating to ISOs such other terms and conditions as from time to time are required in order that the Option be an "incentive stock option" as that term is defined in Code Section 422. No ISO may be granted to any person who, at the time the Option is granted, owns (or is deemed to own under Code Section 424(d)) outstanding Shares possessing more than 10% of the total combined voting power of all classes of stock of the Company, unless the exercise price of such Option is at least 110% of the Fair Market Value of the stock subject to the Option and such Option by its terms is not exercisable after the expiration of five years from the date such Option is granted.

Article 7. Restricted Stock

7.1 Grant of Restricted Stock. Subject to the terms and provisions of the Program, the Committee, at any time and from time to time, may grant Shares of Restricted Stock to Participants in such amounts as the Committee shall determine.

7.2 Restricted Stock Agreement. Each Restricted Stock grant shall be evidenced by a Restricted Stock Award Agreement that shall specify the Period(s) of Restriction, the number of Shares of Restricted Stock granted, and such other provisions as the Committee shall determine. Subject to Section 5.6 herein, the Period of Restriction shall be a minimum of three (3) years measured from the grant date of the Restricted Stock

7.3 Restriction on Transferability. Except as provided in this Article 7, the Shares of Restricted Stock granted herein may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated until the end of the applicable Period of Restriction established by the Committee and specified in the Restricted Stock Award Agreement, or upon earlier satisfaction of any other conditions, as specified by the Committee in its sole discretion and set forth in the Restricted Stock Award Agreement. All rights with respect to the Restricted Stock granted to a Participant under the Program shall be available during his or her lifetime only to such Participant.

7.4 Other Restrictions. Subject to Article 9 herein, the Committee shall impose such other conditions and/or restrictions on any Shares of Restricted Stock granted pursuant to the Program as it may deem advisable including, without limitation, any or all of the following:

- (a) A required period of employment or service as a Contractor with the Company, as determined by the Committee, prior to the vesting of Shares of Restricted Stock.
- (b) A requirement that Participants forfeit (or in the case of Shares sold to a Participant, resell to the Company at his or her cost) all or a part of Shares of Restricted Stock in the event of termination of his or her employment or service as a Contractor during the Period of Restriction.
- (c) A prohibition against employment of Participants holding Shares of Restricted Stock by any competitor of the Company, against such Participants' dissemination of any secret or confidential information belonging to the Company, or the solicitation by Participants of the Company's employees for employment by another entity.

Shares of Restricted Stock awarded pursuant to the Program shall be registered in the name of the Participant and, if such Shares are certificated, in the sole discretion of the Committee, may be deposited in a bank designated by the Committee or with the Company. The Committee may require a stock power endorsed in blank with respect to Shares of Restricted Stock whether or not certificated.

Except as otherwise provided in this Article 7, Shares of Restricted Stock covered by each Restricted Stock grant made under the Program shall become freely transferable (subject to any restrictions under any applicable securities law) by the Participant after the last day of the applicable Period of Restriction.

7.5 Voting Rights. Unless the Committee determines otherwise, Participants holding Shares of Restricted Stock issued hereunder shall be entitled to exercise full voting rights with respect to those Shares during the Period of Restriction.

7.6 Dividends and Other Distributions. Unless the Committee determines otherwise, during the Period of Restriction, Participants holding Shares of Restricted Stock issued hereunder shall be entitled to regular cash dividends paid with respect to such Shares. The Committee may apply any restrictions to the dividends that the Committee deems appropriate. Without limiting the generality of the preceding sentence, if the grant or vesting of Shares of Restricted Stock is designed to comply with the requirements of the Performance-Based Exception, the Committee may apply any restrictions it deems appropriate to the payment of dividends declared with respect to such Shares of Restricted Stock, such that the dividends and/or the Shares of Restricted Stock maintain eligibility for the Performance-Based Exception.

7.7 Termination of Employment or Service. Each Restricted Stock Award Agreement shall set forth the extent to which the Participant shall have the right to vest in previously unvested Shares of Restricted Stock following termination of the Participant's employment with the Company or service to the Company as a Contractor. Such provisions shall be determined in the sole discretion of the Committee, shall be included in the Award Agreement entered into with each Participant, need not be uniform among all Shares of Restricted Stock issued pursuant to the Program, and may reflect distinctions based on the reasons for termination.

Article 8. Restricted Stock Units

8.1. Restricted Stock Units Awards. Subject to the terms and conditions of the Program, the Committee, at any time and from time to time, may issue Restricted Stock Units which entitle the Participant to receive the Shares underlying those units following the lapse of specified restrictions (whether based on the achievement of designated performance goals or the satisfaction of specified services or upon the expiration of a designated time period following the vesting of the units).

8.2. Restricted Stock Units Award Agreement. Each Restricted Stock Units award shall be evidenced by a Restricted Stock Units Award Agreement that shall specify the vesting restrictions, the number of Shares subject to the Restricted Stock Units award, and such other provisions as the Committee shall determine. Subject to Section 5.6 herein, Restricted Stock Units shall vest over a minimum period of three (3) years measured from the grant date of the award.

8.3. Restrictions. The Committee shall impose such other conditions and/or restrictions on the issuance of any Shares under the Restricted Stock Units granted pursuant to the Program as it may deem advisable including, without limitation, any or all of the following:

- (a) A required period of service with the Company, as determined by the Committee, prior to the issuance of Shares under the Restricted Stock Units award.
- (b) A requirement that the Restricted Stock Units award be forfeited in whole or in part in the event of termination of the Participant's employment or service as a Contractor during the vesting period.
- (c) A prohibition against employment of Participants holding Restricted Stock Units by any competitor of the Company, against such Participants' dissemination of any secret or confidential information belonging to the Company, or the solicitation by Participants of the Company's employees for employment by another entity.

Except as otherwise provided in this Article 8, Shares subject to Restricted Stock Units under the Program shall be freely transferable (subject to any restrictions under applicable securities law) by the Participant after receipt of such shares.

8.4. Stockholder Rights. Participants holding Restricted Stock Units issued hereunder shall not have any rights with respect to Shares subject to the award until the award vests and the Shares are issued hereunder. However, dividend-equivalent units may be paid or credited, either in cash or in actual or phantom Shares, on outstanding Restricted Stock Units awards, subject to such terms and conditions as the Committee may deem appropriate.

8.5. Termination of Employment or Service. Each Restricted Stock Units Award Agreement shall set forth the extent to which the Participant shall have the right to vest in previously unvested Shares subject to the Restricted Stock Units award following termination of the Participant's employment with the Company or service to the Company as a Contractor. Such provisions shall be determined in the sole discretion of the Committee, shall be included in the Award Agreement entered into with each Participant, need not be uniform among all Restricted Stock Unit awards issued pursuant to the Program, and may reflect distinctions based on the reasons for termination.

Article 9. Performance-Based Awards

9.1 Code Section 162(m) Performance-Based Awards. Without limiting the generality of the foregoing, any of the types of Awards listed in Articles 6 through 8 above may be, and Options granted to officers and employees ("Qualifying Options") typically will be, granted as Awards intended to satisfy the Performance-Based Exception ("Performance-Based Awards"). The grant, vesting, exercisability or payment of Performance-Based Awards may depend (or, in the case of Qualifying Options, may also depend) on the degree of achievement of one or more performance goals relative to a pre-established targeted level or levels using one or more of the Performance Measures set forth below (on an absolute or relative (including, without limitation, relative to the performance of other companies or upon comparisons of any of the indicators of performance relative to other companies) basis) for the Company on a consolidated basis or for one or more of the Subsidiaries, segments, divisions or business units, or any combination of the foregoing. Any Qualifying Option shall be subject only to the requirements of Section 9.2 and 9.4 in order for such Award to satisfy the requirements for the Performance-Based Exception. Any other Performance-Based Award shall be subject to all of the following provisions of this Article 9.

9.2 Class; Administrator. The eligible class of persons for Performance-Based Awards under this Article 9 shall be officers and employees of the Company or one of its Subsidiaries.

9.3 Performance Measures. The specific performance goals for Performance-Based Awards (other than Qualifying Options) shall be, on an absolute or relative basis, established based on one or more of the following performance measures ("Performance Measures") as selected by the Committee in its sole discretion:

- (i) return measures (including, but not limited to, return on assets, capital, investment, equity or sales);
- (ii) earnings per share;
- (iii) net income (before or after taxes) or operating income;
- (iv) earnings before interest, taxes, depreciation and amortization or operating income before depreciation and amortization;
- (v) sales or revenue targets;
- (vi) market to book value ratio;
- (vii) cash flow or free cash flow (cash flow from operations less capital expenditures);
- (viii) market share;
- (ix) cost reduction goals;
- (x) budget comparisons;
- (xi) implementation, completion or progress of projects, processes, products or product-lines strategic or critical to the Company's business operations;
- (xii) measures of customer satisfaction;

- (xiii) share price (including, but not limited to, growth measures and total shareholder return);
- (xiv) working capital;
- (xv) economic value added;
- (xvi) percentage of sales generated by new products;
- (xvii) progress of research and development projects or milestones;
- (xviii) growth in sales of products or product-lines;
- (xix) any combination of, or a specified increase in, any of the foregoing; and
- (xx) the formation of joint ventures, research and development collaborations, marketing or customer service collaborations, or the completion of other corporate transactions intended to enhance the Company's revenue or profitability or expand the Company's customer base.

To qualify Awards for the Performance-Based Exception, the applicable Performance Measures (or Performance Measure, as the case may be) and specific performance goal or goals ("targets") must be established and approved by the Committee during the first 90 days of the performance period (and, in the case of performance periods of less than one year, in no event after 25% or more of the performance period has elapsed) and while performance relating to such target(s) remains substantially uncertain within the meaning of Code Section 162(m). The Committee may provide, at the time it establishes the applicable Performance Measures, for the Performance Measures (or performance against the Performance Measures, as the case may be) to be adjusted to mitigate the unbudgeted impact of material, unusual or nonrecurring gains and losses, accounting changes or other events specified by the Committee. The applicable performance measurement period may not be less than three months nor more than 10 years.

9.4 Maximum Performance-Based Award. Grants of Qualifying Options to any one Participant in any one fiscal year shall be subject to the limit set forth in Section 5.1(a). The maximum number of Shares which may be subject to Performance-Based Awards that are granted to any one Participant in any one fiscal year shall be subject to the limit set forth in Section 5.1(b). Awards that are cancelled during the year shall be counted against these limits to the extent required by Code Section 162(m).

9.5 Certification of Payment; Reservation of Discretion. Before any Performance-Based Award under this Article 9 (other than Qualifying Options) is paid and to the extent required to qualify the Award for the Performance-Based Exception, the Committee must certify in writing that the performance target(s) and any other material terms of the Performance-Based Award were in fact timely satisfied. The Committee will have the discretion to determine the restrictions or other limitations of the individual Awards granted under this Article 9 including the authority to reduce Awards, payouts or vesting or to pay no Awards, in its sole discretion, if the Committee preserves such authority at the time of grant by language to this effect in its authorizing resolutions or otherwise. In the event that applicable tax and/or securities laws change to permit Committee discretion to alter the governing performance measures without obtaining stockholder approval of such changes, the Committee shall have sole discretion to make such changes without obtaining stockholder approval. In addition, in the event that the Committee determines that it is advisable to grant Awards that shall not qualify for the Performance-Based Exception, the Committee may make such grants without satisfying the requirements of Code Section 162(m).

Article 10. Beneficiary Designation

Each Participant under the Program may, from time to time, name any beneficiary or beneficiaries (who may be named contingently or successively) to whom any benefit under the Program is to be paid in case of his or her death before he or she receives any or all of such benefit. Each such designation shall revoke all prior designations by the same Participant, shall be in a form prescribed by the Company, and will be effective only when filed by the Participant in writing with the Company during the Participant's lifetime. In the absence of any such designation, benefits remaining unpaid at the Participant's death shall be paid to the Participant's estate.

Article 11. Deferrals

The Committee may permit or require a Participant to defer such Participant's receipt of the payment of cash or the delivery of Shares that would otherwise be due to such Participant by virtue of the exercise of an Option or the lapse or waiver of restrictions with respect to Restricted Stock or Restricted Stock Units. If any such deferral election is required or permitted, the Committee shall, in its sole discretion, establish rules and procedures for such payment deferrals which shall be consistent with the requirements of Code Section 409A and the Treasury regulations and rulings promulgated thereunder.

Article 12. Rights of Employees and Contractors

12.1 Employment. Nothing in the Program or any Award Agreement shall interfere with or limit in any way the right of the Company or a Subsidiary to terminate at any time any Participant's employment or service to the Company or a Subsidiary as a Contractor, nor confer upon any Participant any right to continue in the employ of the Company or a Subsidiary or to provide services to the Company or a Subsidiary as a Contractor.

12.2 Participation. No Employee or Contractor shall have the right to be selected to receive an Award under this Program, or, having been so selected, to be selected to receive a future Award.

Article 13. Change in Control

The Board or the Committee may provide in connection with any Change in Control that upon (or, as may be necessary to give effect to the assumption or acceleration and termination, as the case may be, immediately prior to) the occurrence of a Change in Control as to any Award then outstanding that (1) such Award will be assumed by a successor or surviving entity, or a parent thereof, with appropriate adjustments to the Award pursuant to Section 5.4, or (2) such Award will terminate (and not be assumed by a successor or surviving entity, or a parent thereof). In the event an Award is to be so assumed in connection to a Change in Control, then the provisions of the Award Agreement for such Award will apply. In the event an Award is to be so terminated in connection with a Change in Control then, unless otherwise specifically prohibited under applicable laws or by the rules and regulations of any governing governmental agencies or national securities exchanges and before giving effect to such termination:

- (a) If the Award is an Option that is not subject to performance-based vesting conditions, it shall become immediately exercisable;
- (b) If the Award is Restricted Stock or Restricted Stock Units that are not subject to performance-based vesting conditions, any vesting restrictions imposed on the Award and underlying Shares shall lapse and Restricted Stock Units shall become payable;
- (c) If the Award is subject to performance-based vesting conditions, the Award will vest and become exercisable or payable (as the case may be) on a pro rata basis based upon an assumed achievement of all relevant targeted performance goals and upon the length of time within the Performance Period(s) which has elapsed prior to the Change in Control.

The Board or the Committee may supplement or expressly supersede the provisions of this Article 13 as to an Award in the applicable Award Agreement. The provisions of this Article 13, as in effect prior to February 19, 2015, continue to be effective as to Awards granted prior to that date.

Article 14. Amendment, Modification, and Termination

14.1 Amendment, Modification, and Termination. Subject to the terms of the Program, including Section 14.2, the Board may at any time and from time to time, alter, amend, suspend or terminate the Program in whole or in part. However, stockholder approval shall be required for any amendment only to the extent required by applicable law.

14.2 Awards Previously Granted. Notwithstanding any provision of the Program or of any Award Agreement to the contrary (but subject to Section 6.10 hereof), no termination, amendment, or modification of the Program or amendment of an Award previously granted under the Program shall adversely affect in any material way any Award previously granted under the Program, without the express consent of the Participant holding such Award.

Article 15. Compliance with Applicable Law and Withholding

15.1 General. Notwithstanding anything to the contrary in the Program or any Award Agreement, the following shall apply:

- (a) The Company shall have no obligation to issue any Shares under the Program if such issuance would violate any applicable law or any applicable regulation or requirement of any securities exchange or similar entity.
- (b) Prior to the issuance of any Shares under the Program, the Company may require a written statement that the recipient is acquiring the Shares for investment and not for the purpose or with the intention of distributing the Shares and that the recipient will not dispose of them in violation of the registration requirements of the Securities Act of 1933.
- (c) With respect to any person who is subject to Section 16(a) of the Exchange Act, the Committee may, at any time, add such conditions and limitations to any incentive or payment under the Program or implement procedures for the administration of the Program which it deems necessary or desirable to comply with the requirements of Rule 16b-3 of the Exchange Act.

If, at any time, the Company determines that the listing, registration, or qualification (or any updating of any such document) of any Award, or the Shares issuable pursuant thereto, is necessary on any securities exchange or under any federal or state securities or blue sky law, or that the consent or approval of any governmental regulatory body is necessary or desirable as a condition of, or in connection with, any Award, the issuance of Shares pursuant to any Award, or the removal of any restrictions imposed on Shares subject to an Award, such Award shall not be granted and the Shares shall not be issued or such restrictions shall not be removed, as the case may be, in whole or in part, unless such listing, registration, qualification, consent, or approval shall have been effected or obtained free of any conditions not acceptable to the Company or the Committee otherwise provides.

15.2 Securities Law Compliance. With respect to Insiders, transactions under this Program are intended to comply with all applicable conditions of Rule 16b-3 or its successors under the 1934 Act.

15.3 Tax Withholding. The Company shall have the power and the right to deduct or withhold, or require a Participant to remit to the Company, an amount sufficient to satisfy federal, state, and local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of this Program.

15.4 Share Withholding. Awards payable in Shares may provide that with respect to withholding required upon any taxable event arising thereunder, Participants may elect to satisfy the withholding requirement, in whole or in part, by having the Company withhold Shares to satisfy their withholding tax obligations; provided that, unless otherwise provided by the Committee, Participants may only elect to have Shares withheld having a Fair Market Value on the date the tax is to be determined equal to or less than the minimum withholding tax which could be imposed on the transaction. Unless otherwise provided by the Committee, all elections shall be irrevocable, made in writing, signed by the Participant, and shall be subject to any restrictions or limitations, including prior Committee approval, that the Committee, in its sole discretion, deems appropriate.

Article 16. Indemnification

Each person who is or shall have been a member of the Committee, or of the Board, shall be indemnified and held harmless by the Company against and from any loss, cost, liability, or expense that may be imposed upon or reasonably incurred by him or her in connection with or resulting from any claim, action, suit, or proceeding to which he or she may be a party or in which he or she may be involved by reason of any action taken or failure to act under the Program and against and from any and all amounts paid by him or her in settlement thereof, with the Company's approval, or paid by him or her in satisfaction of any judgment in any such action, suit, or proceeding against him or her, provided he or she shall give the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which such persons may be entitled under the Company's Articles of Incorporation or Bylaws, as a matter of law, or otherwise, or any power that the Company may have to indemnify them or hold them harmless.

Article 17. Successors

All obligations of the Company under the Program with respect to Awards granted hereunder shall, to the extent legally permissible, be binding on any successor to the Company, whether the existence of such successor is the result of a direct or indirect purchase, merger, consolidation, or otherwise, of all or substantially all of the business and/or assets of the Company.

Article 18. Legal Construction

18.1 Gender and Number. Except where otherwise indicated by the context, any masculine term used herein also shall include the feminine; the plural shall include the singular and the singular shall include the plural.

18.2 Severability. In the event any provision of the Program shall be held illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining parts of the Program, and the Program shall be construed and enforced as if the illegal or invalid provision had not been included.

18.3 Governing Law. To the extent not preempted by federal law, the Program, and all Award or other agreements hereunder, shall be construed in accordance with and governed by the laws of the state of Delaware without giving effect to principles of conflicts of laws.

Article 19. Recoupment Policy

The Awards granted under the Program are subject to the terms of the Company's recoupment, clawback or similar policy as it may be in effect from time to time, as well as any similar provisions of applicable law, any of which could in certain circumstances require repayment or forfeiture of Awards or any Shares or other cash or property received with respect to the Awards (including any value received from a disposition of the Shares acquired upon payment of the Awards).

ARTICLE I — PURPOSE

1.01. Purpose

The Edwards Lifesciences Corporation 2001 Employee Stock Purchase Plan for United States Employees is intended to provide a method whereby employees of Edwards Lifesciences Corporation (the “Company”) and its participating subsidiary companies authorized by the Committee (or an officer designated by the Committee pursuant to Section 9.02) to extend the benefits of the Plan to their Eligible Employees will have an opportunity to acquire a proprietary interest in the Company through the purchase of shares of the Company’s common stock. - (c) The consummation of a merger or consolidation of the Company with any other entity, other than: (i) a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting

securities of the surviving entity) more than sixty percent (60%) of the combined voting power of the voting securities of the Company or such surviving entity outstanding immediately after such merger or consolidation; or (ii) a merger or consolidation effected to implement a recapitalization of the Company (or similar transaction) in which no Person acquires more than thirty percent (30%) of the combined voting power of the Company's then outstanding securities; or

If the Participant does not return to active status within 90 days or the guaranteed reemployment period, as applicable, the Participant shall be treated as having terminated employment for all purposes of the Plan. If such terminated Participant later returns to active employment as an Eligible Employee or if a Participant returns to active employment as an Eligible Employee after the Subscription has expired, such individual will be treated as a new employee and will be eligible to participate in Offerings commencing after his or her reemployment date by filing a Subscription during the applicable Enrollment Period for such Offering.

3.03. Restrictions on Participation

Notwithstanding any provisions of the Plan to the contrary, no Eligible Employee shall be granted a right to purchase Stock:

- (a) if, immediately after the grant, such employee would own Stock, and/or hold outstanding options to purchase Stock, possessing 5% or more of the total combined voting power or value of all classes of the Company's stock (for purposes of this paragraph, the rules of Section 424(d) of the Code shall apply in determining stock ownership of any employee); or
- (b) which permits the employee's rights to purchase Stock under all employee stock purchase plans of the Company to accrue at a rate which exceeds \$25,000 in Fair Market Value of the Stock (determined at the time such right to purchase Stock is granted) for each calendar year in which such right is outstanding (as computed to comply with Section 423(b)(8) of the Code).

Further, with respect to any Offering, in no event shall an employee be granted a right to purchase in excess of 10,000 shares of Stock, subject to adjustment pursuant to Section 10.03.

3.04. Commencement of Participation

An Eligible Employee may become a Participant in any Offering by entering a Subscription during the Enrollment Period for such Offering. Payroll deductions for such Offering shall commence on the applicable Offering Commencement Date and shall end on the applicable Offering End Date unless withdrawn by the Participant or sooner terminated in accordance with Article VII. Only one Subscription may be in effect with respect to any Participant at any one time.

3.05. Participation After Rehire

An Eligible Employee's Subscription will automatically terminate on the date he or she is no longer an employee of any Participating Company. If the Eligible Employee terminates employment with a Subscription in effect with respect to an Offering and is rehired prior to the Offering End Date for that Offering, the Subscription will not be reinstated and the Eligible Employee will not be allowed to again make payroll deductions under such Offering. The Eligible Employee may elect to participate in Offerings commencing after his or her reemployment date by entering a Subscription during the applicable Enrollment Period for such Offering. Notwithstanding the foregoing, an Eligible Employee's transfer from one Participating Company to another shall not terminate such Eligible Employee's Subscription.

3.06. Transfers

An Eligible Employee's transfer from one Participating Company under this Plan to another shall not terminate such Eligible Employee's Subscription.

If an Eligible Employee transfers to a Corporate Affiliate that is not a Participating Company under this Plan, the employee will be treated as a terminated Participant under this Plan. The employee may become eligible to participate in the Company's stock purchase plan for international employees if the employee is transferred to a subsidiary or affiliate of the Company that is designated to participate in the stock purchase plan for international employees subject to the terms and conditions set forth in that plan.

ARTICLE IV — OFFERINGS

4.01. Quarterly Offerings

The Plan commenced with an Offering beginning on June 1, 2001 and, unless determined otherwise by the Committee, will continue in operation with a new Offering commencing on the first day of each calendar quarter thereafter. Eligible Employees may not have in effect more than one Subscription at a time.

Participants may subscribe to any Offering by entering a Subscription during the Enrollment Period for such Offering in such manner as the Committee may prescribe (which may include enrollment by submitting forms, by voice response, internet access or other electronic means).

A Subscription that is in effect on an Offering End Date will automatically be deemed to be a Subscription for the Offering that commences immediately following such Offering End Date, provided that the Participant is still an Eligible Employee and has not withdrawn the Subscription. Under the foregoing automatic enrollment provisions, payroll deductions will continue at the level in effect immediately prior to the new Offering Commencement Date, unless changed in advance by the Participant in accordance with Section 5.03.

4.02. Purchase Price

The purchase price per share of Stock under each Offering shall be the lower of:

- (a) 85% of the Fair Market Value of the Stock on the Offering Commencement Date; or
- (b) 85% of the Fair Market Value of the Stock on the Purchase Date.

Such purchase price may only be paid with accumulated payroll deductions in accordance with Article V.

ARTICLE V — PAYROLL DEDUCTIONS

5.01. Amount of Deduction

An Eligible Employee's Subscription shall authorize payroll deductions at a rate, in whole percentages, of no less than 1% and no more than 12% of Base Pay on each payday that the Subscription is in effect.

5.02. Participant's Account

All payroll deductions made with respect to a Participant shall be credited to his or her recordkeeping account under the Plan. A Participant may not make any separate cash payment into such account. No interest will accrue or be paid on any amount withheld from a Participant's pay under the Plan or credited to the Participant's account. Except in the case that any purchase limits set forth under the Plan would be exceeded, all amounts in a Participant's account will be used to purchase shares of Stock and no cash refunds shall be made from such account. Shares of Stock issued may be whole shares and/or fractional shares. Any amounts that are withheld but unable to be applied to the purchase of Stock because of the limitations of Section 3.03 shall be returned to the Participant without interest and will not be used to purchase shares with respect to any other Offering under the Plan.

5.03. Changes in Payroll Deductions

During an Offering, a Participant may change his or her level of payroll deduction with respect to such Offering within the limits described in Section 5.01 in accordance with procedures established by the Committee (including,

without limitation, rules relating to the frequency of such changes); provided, however, if the Participant reduces his or her payroll deductions to zero, it shall be deemed to be a withdrawal of the Subscription and the Participant may not thereafter participate in such Offering but must wait until the next Offering to resubscribe to the Plan. Any such discontinuance or change in level shall be effective as soon as administratively practicable.

ARTICLE VI — EXERCISE OF RIGHTS TO PURCHASE STOCK

6.01. Automatic Exercise

A Participant's right to purchase Stock with respect to any Offering will be automatically exercised on each Purchase Date for the Offering. The right to purchase Stock will be exercised by using the accumulated payroll deductions in the Participant's account as of each such Purchase Date to purchase the number of shares of Stock that may be purchased at the purchase price on such date, determined in accordance with Section 4.02.

6.02. Withdrawal From Offering

A Participant may not withdraw the accumulated payroll deductions in his or her account during an Offering. If the Participant withdraws his or her Subscription with respect to any Offering, the accumulated payroll deductions in the Participant's account at the time the Subscription is withdrawn will be used to purchase shares of Stock at the next Purchase Date for the Offering to which the Subscription related, in accordance with Section 6.01.

6.03. Delivery of Stock

Stock purchases under the Plan will be held in an account in the Participant's name in uncertificated form unless certification is requested by the Participant. Furthermore, Stock to be delivered to a Participant under the Plan will be registered in the name of the Participant.

6.04. Change in Control

If pursuant to a Change in Control rights to purchase Stock are not assumed or otherwise continued in full force and effect, then each right to purchase Stock under each Offering in effect at the time of the Change in Control shall automatically be exercised, immediately prior to the effective date of any Change in Control, by applying the payroll deductions of each Participant for the Offering in which such Change in Control occurs to the purchase of shares of Stock at a purchase price per share equal to eighty-five percent (85%) of the lower of (i) the Fair Market Value per share of Stock on the start date of the applicable Offering or (ii) the Fair Market Value per share of Stock immediately prior to the effective date of such Change in Control.

ARTICLE VII — WITHDRAWAL

7.01. Effect on Subsequent Participation

The Committee shall have the authority to decide the Participant's eligibility to participate in any succeeding Offering if Participant withdraws from any Offering.

7.02. Termination of Employment

Subject to the following provisions of this Section 7.02, upon termination of the Participant's employment for any reason that results in the Participant not qualifying as an Eligible Employee, any Subscription then in effect will be deemed to have been withdrawn and any payroll deductions credited to the Participant's account will be used to purchase Stock on the next Purchase Date for the Offering with respect to which such deductions relate. Notwithstanding the foregoing, if the Participant has a Subscription in effect on the Participant's termination of employment, payroll deductions (at the rate in effect on the termination date) shall continue to be made from Base Pay earned prior to termination of employment, if any, that is paid to the Participant after such termination of employment and before the earlier of (i) the three-month anniversary of such termination of employment, or (ii) the Offering End Date of such Offering. Any such payroll deduction shall be used to purchase Stock on the next Purchase Date for the Offering after the deduction is made.

7.03. Effect of Hardship Rules

At the discretion of the Company, the Company may cancel or suspend a Participant from participating in the Plan if the Participant claims a hardship with respect to his/her participation in any applicable benefit program and pursuant to the applicable benefit program, the Participant cannot be permitted to continue to participate in the Plan. If cancellation or suspension is required, the Company will determine whether accumulated contributions should be refunded or may be held to purchase shares on the next Purchase Date and when the Participant will become eligible to participate in the Plan in the future.

ARTICLE VIII — STOCK

8.01. Maximum Shares

The maximum number of shares which may be issued under the Plan, subject to adjustment upon changes in capitalization of the Company as provided in Section 10.03, shall be 12,100,000 shares. If the total number of shares for which rights to purchase Stock are exercised on any Purchase Date exceeds the maximum number of shares available for issuance, the Company shall make a pro rata allocation of the shares available for delivery and distribution in as nearly a uniform manner as shall be practicable and as it shall determine to be equitable, and the balance of payroll deductions credited to the account of each Participant under the Plan shall be returned to him as promptly as possible.

8.02. Participant's Interest in Rights to Purchase Stock

The Participant will have no interest in Stock covered by a right to purchase Stock under the Plan until such right has been exercised.

ARTICLE IX — ADMINISTRATION

9.01. Appointment of Committee

The Company's Board of Directors shall appoint a Committee to administer the Plan. No member of the Committee who is not an Eligible Employee shall be eligible to purchase Stock under the Plan.

9.02. Authority of Committee

Subject to the express provisions of the Plan, the Committee shall have plenary authority in its discretion to interpret and construe any and all provisions of the Plan, to adopt rules and regulations for administering the Plan, to adopt sub-plans creating additional rules and restrictions for participation and to make all other determinations deemed necessary or advisable for administering the Plan. The Committee shall also have full power and authority to determine whether, to what extent and under what circumstances any Eligible Employee's participation in the Plan shall be cancelled or suspended as a result of 401(k) hardship rules or similar rules, as determined at the sole discretion of the Committee. The Committee's determination on the foregoing matters shall be conclusive. The Committee shall also have the authority to determine if and when the employees of Corporate Affiliates organized or acquired after the Effective Date shall be eligible for participation in the Plan. The Committee may delegate to an officer its authority under this Section 9.02 to determine if and when the employees of a Corporate Affiliate shall be eligible or ineligible for participation in the Plan.

9.03. Rules Governing the Administration of the Committee

The Company's Board of Directors may from time to time appoint members of the Committee in substitution for or in addition to members previously appointed and may fill vacancies, however caused, in the Committee. The Committee may select one of its members as its Chairman and shall hold its meetings at such times and places as it shall deem advisable and may hold telephonic meetings. A majority of its members shall constitute a quorum. All determinations of the Committee shall be made by a majority of its members. The Committee may correct any defect or omission or reconcile any inconsistency in the Plan, in the manner and to the extent it shall deem desirable. Any decision or determination reduced to writing and signed by a majority of the members of the Committee shall be as fully effective as if it had been made by a majority vote at a meeting duly called and held. The Committee may appoint a secretary and shall make such rules and regulations for the conduct of its business as it shall deem advisable.

9.04. Statements

Each Participant shall receive a statement of his account showing the number of shares of Stock held and the amount of cash credited to such account. Such statements will be provided as soon as administratively feasible following the end of each calendar quarter.

ARTICLE X — MISCELLANEOUS

10.01. Transferability

Neither payroll deductions credited to a Participant's account nor any rights with regard to the exercise of a right to purchase Stock or to receive Stock under the Plan may be assigned, transferred, pledged, or otherwise disposed of in any way by the Participant other than by will or the laws of descent and distribution. Any such attempted assignment, transfer, pledge or other disposition shall be without effect. During a Participant's lifetime, rights to purchase Stock that are held by such Participant shall be exercisable only by that Participant.

10.02. Use of Funds

All payroll deductions received or held by the Participating Company under this Plan may be used by the Participating Company for any corporate purpose and the Participating Company shall not be obligated to segregate such payroll deductions.

10.03. Adjustment Upon Changes in Capitalization

In the event of a stock split, stock dividend, recapitalization, reclassification or combination of shares, merger, spin-off or similar event, the Committee shall adjust equitably (a) the number and class of shares or other securities that are reserved for sale under the Plan, (b) the number and class of shares or other securities that are subject to outstanding rights to purchase Stock, (c) the maximum number of shares of Stock that can be purchased by a Participant with respect to any Offering and (d) the appropriate market value and other price determinations applicable to rights to purchase Stock. The Committee shall make all determinations under this Section 10.03, and all such determinations shall be conclusive and binding.

10.04. Amendment and Termination

The Company's Board of Directors shall have complete power and authority to terminate or amend the Plan at any time and for any reason; provided, however, that the Company's Board of Directors shall not, without the approval of the stockholders of the Company in accordance with Section 423 of the Code, (i) increase the maximum number of shares which may be issued under any Offering (except pursuant to Section 10.03); (ii) amend the requirements as to the class of employees eligible to purchase stock under the Plan; or (iii) permit members of the Committee who are not Eligible Employees to purchase stock under the Plan.

Upon termination of the Plan, the date of termination shall be considered a Purchase Date, and any cash remaining in Participant accounts will be applied to the purchase of Stock, unless determined otherwise by the Company's Board of Directors. Upon termination of the Plan, the Company's Board of Directors shall have authority to establish administrative procedures regarding the exercise of outstanding rights to purchase Stock or to determine that such rights shall not be exercised.

10.05. Effective Date

This Plan became effective as of June 1, 2001.

10.06. No Employment Rights

The Plan does not, directly or indirectly, create in any employee or class of employees any right with respect to continuation of employment with the Company or any Corporate Affiliate, and it shall not be deemed to interfere in any way with the right of the Company or any Corporate Affiliate employing such person to terminate, or otherwise modify, an employee's employment at any time.

10.07. Effect of Plan

The provisions of the Plan shall, in accordance with its terms, be binding upon, and inure to the benefit of, all successors of each employee participating in the Plan, including, without limitation, such employee's estate and the executors, administrators or trustees thereof, heirs and legatees, and any receiver, trustee in bankruptcy or representative of creditors of such employee.

10.08. Governing Law

The law of the State of California will govern all matters relating to this Plan except to the extent it is superseded by the laws of the United States.
