NEWS RELEASE

Diebold Nixdorf Joins ChargeUp Europe

5/30/2022

New membership demonstrates the company's commitment for driving the rollout of high-quality electric vehicle (EV) charging infrastructure in Europe

PADERBORN, Germany, and HUDSON, Ohio, USA – Diebold Nixdorf (NYSE:DBD), the global leader in connected commerce solutions for the retail and banking industries, is excited to announce its new membership in ChargeUp Europe, the European industry association for the electric vehicle (EV) charging infrastructure sector. By joining the association, Diebold Nixdorf highlights its engagement for expanding the European charging infrastructure as well as its important role for the planning, installation, operation and servicing of charging stations across the continent.

Since its launch in late 2020, ChargeUp Europe has now grown to 21 full industry members, three knowledge partners and five ecosystem partners, all working together to accelerate the rollout of EV charging infrastructure and enable seamless charging for drivers across the EU.

Robert Krause, chief operating officer, Electric Vehicle Charging at Diebold Nixdorf, said: "Diebold Nixdorf is thrilled to join ChargeUp Europe and collaborate with this great group of like-minded industry professionals. We look forward to playing a significant role in driving the development and rollout of high-quality infrastructure throughout Europe by seamlessly integrating EV charging into the daily lives of electric vehicle drivers. That means, in addition to our traditional customer segments, banking and retail, we will also target new markets like hotels, restaurants, municipalities, and many others to cover the requirements holistically. We also look forward to supporting the creation of the future benchmark for operation and predictive maintenance based on our Managed Services experience."

About ChargeUp Europe

ChargeUp Europe is the industry association for the electric vehicle (EV) charging infrastructure sector. Our association works to accelerate the switch to zero emission mobility and ensure that EV drivers can enjoy a seamless charging experience with access to high quality, readily available charging infrastructure across Europe. As of today, our 20 member companies are active in all 27 EU Member States, the UK and EFTA, with over 300,000 charging points in the EU.
