

## Diebold Nixdorf Brings Self-Service Technology into the Convenience Store at 2019 NACS® Show

September 30, 2019

*Storevolution™ transforms the fuel and convenience experience*

ATLANTA and NORTH CANTON, Ohio – Diebold Nixdorf (NYSE: DBD), a world leader in driving connected commerce for the retail and banking industries and service provider for the top 10 global Fortune 500 petroleum companies, will present [Vynamic™ FCx](#) solutions to fuel and convenience retailers at the [NACS Show](#), Oct. 2-4, in Atlanta. At booth #3947, retailers can experience the capabilities of Vynamic FCx that are driving a Storevolution™ to enhance consumer journeys that are more personalized, adaptable and connected.

The fuel and convenience industry is becoming more competitive, creating a greater need for a consumer-centric focus. Now equipped with advanced technology, fuel stations are turning into the hub for consumers not only paying for fuel, but also purchasing quick meals, grocery items, coffee and other services. Enabling self-checkout in the convenience store environment meets the needs of the consumer, improves operational efficiency for the store and ultimately increases sales.

Diebold Nixdorf's solutions harmonize daily operations and infrastructure across all touchpoints of a convenience store, while driving engagement and meaningful connections for consumers.

- As focus shifts to consumer experience, **Vynamic™ FCx Self-Checkout** makes the integration process easier for retailers because of its point-of-sale (POS) device independent functionality and ability to integrate with existing systems. Its retail **cash management** capabilities enable consumers to scan items themselves, pay for their purchases with cash and place a food order all at the same station.
- Diebold Nixdorf's **Vynamic™ FCx Payments Software** unifies the payment infrastructure across all of its touchpoints, including multiple POS versions and POS systems, to create a seamlessly connected payments network within a centralized cloud.
- [Vynamic™ Operations](#) empowers retailers to streamline the daily operations of their forecourt and C-store, including fuel stock management and reconciliation, inventory and supplier management and price adjustments, through an easy-to-use interface.
- Time and location-dependent, highly personalized promotions and loyalty rewards powered by **Vynamic™ Engage** increase basket size and keep consumers coming back for more.

**Neil Hendry, vice president and head of Fuel and Convenience International at Diebold Nixdorf, said:** "The service station of the future is a destination instead of a pit stop. Vynamic FCx creates a holistic, tech-forward environment that innovates customer journeys, streamlines in-store processes, encourages additional spending by adding new services and keeps customers returning. Our technology and approach to management enable fuel and convenience retailers to enhance their operations and engage their consumers."
