

Diebold Nixdorf Drives Connected Commerce With US Innovation Roadshow

April 10, 2017

Multi-city tour connects financial institutions and retailers to the future of consumer transactions

NORTH CANTON, Ohio, April 10, 2017 /PRNewswire/ -- Diebold Nixdorf (NYSE: DBD), a global leader in driving connected commerce, is kicking off an innovation roadshow to deliver the future of consumer transactions directly to U.S. financial institutions and retailers. The [CONNECTIONS Tour: Building Innovative, Connected Experiences](#), which will stop at more than 50 locations in the U.S., will demonstrate the scale and breadth of the company's end-to-end solutions. From iris scanning, to cash register-free stores, to analytics that can predict issues before they even occur – Diebold Nixdorf is driving consumer experiences into the future through a services-led, software-enabled approach underpinned by cutting-edge technology.

Diebold Nixdorf's Big Rig Experience Truck (or BRET, for short) is made up of four 'experience zones' that provide a firsthand look at how its end-to-end technology, software and services are bridging physical and digital touchpoints:

- **Current Day Banking:** Best-in-class systems, software and services combine to create seamless, personalized consumer banking experiences.
- **Retail:** Award-winning self-checkout solutions that are perfect for retailers of all sizes with the flexible shopping and payment options consumers demand in the compact footprint that retailer's desire.
- **Connected Insights:** Utilizing leading technologies to harvest and analyze data in real-time enables retailers and financial institutions to make data-driven decisions while improving the uptime and serviceability of its systems.
- **Connected Innovations:** Through these future-looking concepts, Diebold Nixdorf is converting fresh ideas into reality to shape the future, guide customers strategically for the long term, and explore the furthest reaches of possibility throughout the financial services and retail industries.

Within the connected innovations area, Diebold Nixdorf will showcase for the first time its latest innovative banking concept, Essence, which features a sleek, modern design and user interface. Powered by software-driven interactions, the intuitive multi-touch functionalities that consumers have come to expect from smartphones and tablets, such as swipe, scroll and smart zoom, enhance and modernize everyday consumer banking transactions. Available in an array of customizable colors and designs, the seamless, through-the-wall profile, advanced authentication options and electronic receipt capabilities provide consumers a glimpse into the future.

"As innovation makes connectivity stronger, faster and more personalized - Diebold Nixdorf is leading exciting transformations in how consumers interact with retailers and financial institutions," said [Octavio Marquez](#), Diebold Nixdorf senior vice president and managing director, Americas.

"We're excited to deliver industry leading technology, innovation and insights to the doorstep of more than 10,000 financial institutions and retailers across the U.S."
