

Diebold Nixdorf Showcases Personalized Mobile Solutions for Fuel and Convenience Retailers at 2018 NACS Show

October 8, 2018

LAS VEGAS and NORTH CANTON, Ohio -- Diebold Nixdorf (NYSE: DBD), a world leader in driving connected commerce, will present a wide range of software-powered solutions driving its [Storevolution™](#) strategy to fuel and convenience retailers at the [NACS Show](#), Oct. 8-10, in Las Vegas. At booth #6141, retailers can view the latest modular and innovative technology designed to help them engage more effectively with customers, differentiate themselves more noticeably from the competition and create a compelling forecourt and store experience in an ever increasing digital environment.

The company is showing how it is revolutionizing the shopping experience with solutions that fit today's changing retail environment:

- To drive a better customer experience and incorporate new customer journeys, retailers can easily add new services like mobile payment and pre-ordering through [NAMOS](#), part of the [DN Vynamic™ Retail Software Suite](#), a solution platform designed for fuel and convenience retailers.
- Consumers can use smartphones to scan and pay for their goods themselves with the time-saving solution, [Vynamic Mobile Retail](#). The advantage: All scanned items can conveniently be placed directly in a basket while shopping.
- Improve the shopping experience at every touchpoint by enabling cross-channel promotions and real-time campaigns with [Vynamic Engage](#), the cloud-based software-as-a-service solution.
- Self-checkout touchpoints increase staff productivity while providing consumers with more options to pay. The [BEETLE /iSCAN EASY eXpress](#) self-checkout features an optimized footprint and as a hybrid solution, it can be easily turned into an assisted checkout with maximum checkout availability during peak hours.
- [Diebold Nixdorf AllConnect ServicesSM](#) provide integrated business services ranging from deployment via maintenance to the operations of all IT devices at service stations – including the management of the store's entire mobile-device fleet. Optimize processes and drive growth with management, monitoring and analytics capabilities.

"Our Storevolution program, combined with our software, services and self-checkout systems, enable fuel and convenience retailers to enhance their operations and engage with consumers," said Neil Hendry, vice president and head of Fuel and Convenience International at Diebold Nixdorf. "Open APIs that facilitate the easy integration of new consumer touchpoints enrich the consumer experience and allow retailers to seamlessly connect physical and digital channels.
