Molson Coors Beverage Company

2021 Annual Meeting of Stockholders

Wednesday, May 26, 2021, 11:00 a.m. (Eastern Time)

Q&A

Q - What is being done about the Coors water treatment plants in terms of modernization?

A - Molson Coors believes in doing business the right way, which includes being responsible for the imprint we leave on the planet. Work is currently underway to enable the Coors' water treatment plants meet Colorado's wastewater standards.

In addition, but separate from those efforts, the Company is undertaking a complete modernization of the Golden brewery that is expected to significantly reduce CO2 emissions from the brewery, reduce energy usage by 15%, and reduce water usage by 100 million gallons per year.

Forward-Looking Statements

This Q&A includes "forward-looking statements" within the meaning of the U.S. federal securities laws, including statements regarding the Golden brewery modernization expectations. Although the Company believes that the assumptions upon which its forward-looking statements are based are reasonable, it can give no assurance that these assumptions will prove to be correct. Important factors that could cause actual results to differ materially from the Company's historical experience, and present projections and expectations are disclosed in the Company's filings with the Securities and Exchange Commission, including its most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q.
