FIRST QUARTER FACT SHEET

Financial

- Originations: \$7.7 billion in funded volume, market share increased to 1.39%
- Total Revenue: \$286.4 million on \$8.3 billion of pull-through weighted lock volume; Adjusted revenue⁽¹⁾ of \$299.3 million
- Total Expenses: decreased from \$342.1 million in the fourth quarter of 2025 to \$341.5 million
 - Primarily reflecting lower commission and marketing expenses offset somewhat by higher salaries and direct origination expense
- Net loss of \$54.9 million vs. \$32.8 million in fourth quarter 2025
- Adjusted net loss⁽¹⁾ of \$33.6 million and adjusted EBITDA⁽¹⁾ of \$14.3 million compared to adjusted net loss⁽¹⁾ of \$21.5 million and adjusted EBITDA⁽¹⁾ of \$29.3 million in the prior quarter
- Liquidity: Unrestricted cash of \$277.4 million, quarterly decrease primarily reflects investment in servicing rights

Operational

- Pull-through weighted lock volume growth of 14% while marketing costs declined 12% demonstrating improvements in mid-funnel lead conversion and sharpened marketing strategies
- Preliminary Organic Refinance Consumer Direct Recapture Rate⁽²⁾: increased to 73% for the quarter compared to 71% in fourth quarter 2025
- Increase in refinance volume coupled with increase in recapture rate demonstrates the value of the flywheel effect of retaining the relationship with our customer from origination to servicing
- Servicing: Increase in UPB from the fourth quarter of 2025 to \$120.7 billion, retention 75% of loans sold
- Purchase Mix: 41% of originations during the first quarter reflecting increase in refinance volume and seasonality of purchase market

(1) Non-GAAP measure. See Appendix for reconciliation. (2) We define organic refinance consumer direct recapture rate as the total unpaid principal balance ("UPB") of loans in our servicing portfolio that are paid in full for purposes of refinancing the loan on the same property, with the Company acting as lender on both the existing and new loan, divided by the UPB of all loans in our servicing portfolio that paid in full for the purpose of refinancing the loan on the same property. The recapture rate is finalized following the publication date of this release when external data becomes available. Data is as of April 20, 2026.

Forward-Looking Statements and Other Information

This presentation contains forward-looking statements that can be identified by the fact that they do not relate strictly to historical or current facts and may contain the words “believe,” “aim,” “anticipate,” “expect,” “goal,” “intend,” “plan,” “predict,” “estimate,” “project,” “will be,” “will continue,” “will likely result,” or other similar words and phrases or future or conditional verbs such as “will,” “may,” “might,” “should,” “would,” or “could” and the negatives of those terms. Examples of forward-looking statements include, but are not limited to, statements about the benefits that our partnership with Figure Technology Solutions is expected to deliver to loanDepot and its customers; our digital transformation; market positioning; integration of Figure and loanDepot solutions, including platform integration across channels and expected benefits; the 5x5 HomeLoan product; competitive advantages; automation, technology and innovation initiatives and investments, including artificial intelligence; strategic opportunities, plans, focuses, and progress; our momentum; market share; digital customer experience; investment plans; return to profitability; expenses and expense management; loan origination volumes; pull-through weighted lock volume; and pull-through weighted gain on sale margin. These forward-looking statements are based on current available operating, financial, economic and other information, and are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict, including but not limited to, the following: our ability to achieve the expected benefits of our strategic plans and priorities and the success of other business initiatives, including our partnership with Figure Technology Solutions; our ability to achieve profitability; our loan production volume; our ability to maintain an operating platform and management system sufficient to conduct our business; our ability to maintain warehouse lines of credit and other sources of capital and liquidity; our ability to effectively utilize artificial intelligence and emerging technologies; impacts of cybersecurity incidents, cyberattacks, information or security breaches and technology disruptions or failures, of ours or of our third party vendors; the outcome of legal proceedings to which we are a party; our ability to favorably resolve regulatory matters related to the Cybersecurity Incident; adverse changes in macroeconomic and U.S residential real estate and mortgage market conditions, including changes in interest rates, changes in global trade policy and tariffs, geopolitical tensions and conflicts and impacts from government shutdowns; changing federal, state and local laws, as well as changing regulatory enforcement policies and priorities; and other risks detailed in the “Risk Factors” section of loanDepot, Inc.’s Annual Report on Form 10-K for the year ended December 31, 2025, as well as any subsequent filings with the Securities and Exchange Commission. Therefore, current plans, anticipated actions, and financial results, as well as the anticipated development of the industry, may differ materially from what is expressed or forecasted in any forward-looking statement. loanDepot does not undertake any obligation to publicly update or revise any forward-looking statement to reflect future events or circumstances, except as required by applicable law..

Non-GAAP Financial Information

To provide investors with information in addition to our results as determined by GAAP, we disclose certain non-GAAP measures to assist investors in evaluating our financial results. We believe these non-GAAP measures provide useful information to investors regarding our results of operations because each measure assists both investors and management in analyzing and benchmarking the performance and value of our business. They facilitate company-to-company operating performance comparisons by backing out potential differences caused by variations in hedging strategies, changes in valuations, capital structures (affecting interest expense on non-funding debt), taxation, the age and book depreciation of facilities (affecting relative depreciation expense), and other cost or benefit items which may vary for different companies for reasons unrelated to operating performance. These non-GAAP measures include our Adjusted Total Revenue, Adjusted Net Loss, Adjusted Diluted Weighted Average Shares Outstanding, and Adjusted EBITDA. We exclude from these non-GAAP financial measures the change in fair value of MSRs, gains (losses) from the sale of MSRs, and related hedging gains and losses that represent realized and unrealized adjustments resulting from changes in valuation, mostly due to changes in market interest rates, and are not indicative of the Company’s operating performance or results of operation. We have excluded expenses directly related to the cybersecurity incident in January 2024 that resulted from unauthorized access to our systems (the “Cybersecurity Incident”), net of insurance recoveries during fiscal 2024, such as costs to investigate and remediate the Cybersecurity Incident, the costs of customer notifications and identity protection, and professional fees, including legal expenses, litigation settlement costs, and commission guarantees. We also exclude stock-based compensation expense, which is a non-cash expense, gains or losses on extinguishment of debt and disposal of fixed assets, and impairment charges to operating lease right-of-use assets, as well as certain costs associated with our restructuring efforts, as management does not consider these costs to be indicative of our performance or results of operations. Adjusted EBITDA includes interest expense on funding facilities, which are recorded as a component of “net interest income,” as these expenses are a direct operating expense driven by loan origination volume. By contrast, interest expense on our non-funding debt is a function of our capital structure and is therefore excluded from Adjusted EBITDA. Adjustments for income taxes are made to reflect historical results of operations on the basis that it was taxed as a corporation under the Internal Revenue Code, and therefore subject to U.S. federal, state, and local income taxes. Adjustments to Diluted Weighted Average Shares Outstanding assumes the pro forma conversion of weighted average Class B and Class C common stock to Class A common stock. These non-GAAP measures have limitations as analytical tools and should not be considered in isolation or as a substitute for revenue, net income, or any other operating performance measure calculated in accordance with GAAP, and may not be comparable to a similarly titled measure reported by other companies.

Market and Industry Data

This presentation also contains information regarding the loanDepot’s market and industry that is derived from third-party research and publications. That information may rely upon a number of assumptions and limitations, and the Company has not independently verified its accuracy or completeness.
