Telomir Pharmaceuticals (TELO-NASDAQ)

TELO: Preclinical Tests Show Tumor Suppression Ability

Telomir is developing a treatment that has the potential to lead to the extension of human life and solve many age-related health issues. We value TELO at $15.50 using discounted cash flow analysis.

Current Price (09/08/25)	$1.23
Valuation	**$15.50**

OUTLOOK

Telomir Pharmaceuticals is a preclinical stage company focused on reversing biological aging and degenerative diseases.

The company released test results that showed the company's primary treatment, Telomir-1, showed the ability to reverse the suppression of a master tumor suppressor gene that is silenced in many aggressive cancers. This continues the exciting preclinical data that should lead to clinical trials in the near future.

UPDATE

Telomir Pharmaceuticals is a preclinical stage biopharmaceutical company developing a product designed to reverse biological aging and degenerative diseases. Previously reported preclinical tests have shown evidence that Telomir-1, the company's primary therapy, can lengthen telomeres and initial animal testing illustrates the potential impact. In fact, the company recently released results from one of those tests, which, according to CEO Erez Aminov, "confirms Telomir-1 can reverse biologic aging, extending life while preserving health."

Preclinical test results recently released further confirm the CEO's statement and our belief in TELO. The company announced that a preclinical study showed that Telomir-1 can reset abnormal DNA methylation patterns, which reverses the cancer-induced gene silencing in tumor suppressors. That's the scientific way of saying that there are indications that Telomir-1 has the potential to have the ability to fight multiple aggressive cancers—adding to the conditions Telomir-1 has shown indications of being able to treat.

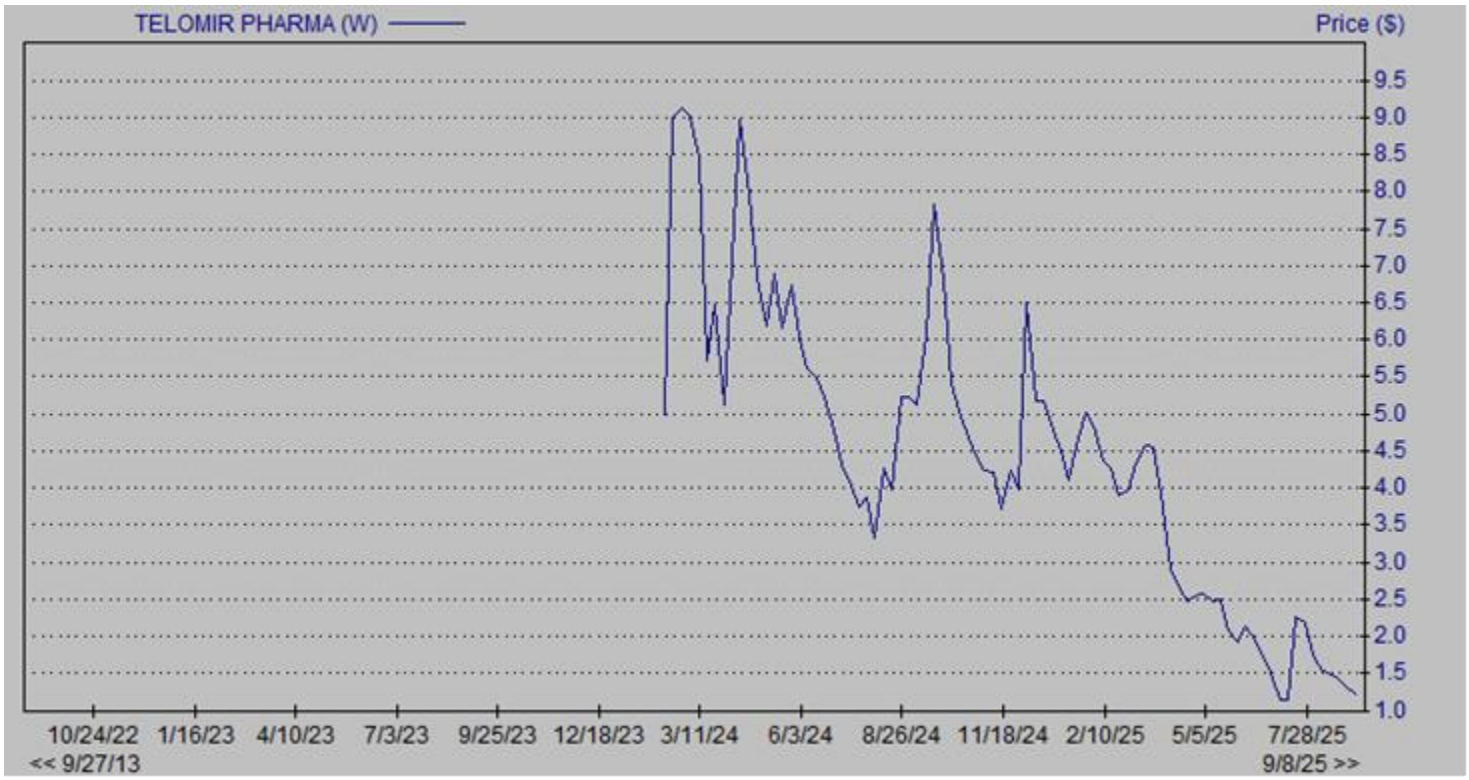

Getting into the scientific detail—Telomir-1, according to the company, reverses DNA methylation of CDKN2A, a master tumor suppressor gene silenced in many aggressive cancers. CDKN2A is one of the body's natural defenses against cancer. Also referred to as the "cell cycle brake," this gene tells cells when to stop dividing and helps damaged cells self-destruct. In many cancers, CDKN2A is switched off by abnormal DNA methylation, leaving tumors free to grow unchecked. By resetting this methylation, Telomir-1 appears to turn the brake back on - restoring a critical safeguard that cancer cells had disabled.

These results continue the mounting evidence that Telomir-1 has the potential to have a major impact on the worst parts of the aging process, which would have an almost unlimited market potential. We continue to recommend investors take a look at TELO ahead of the human trials that are planned for early next year.

HISTORICAL STOCK PRICE

DISCLOSURES

The following disclosures relate to relationships between Zacks Small-Cap Research ("Zacks SCR"), a division of Zacks Investment Research ("ZIR"), and the issuers covered by the Zacks SCR Analysts in the Small-Cap Universe.

ANALYST DISCLOSURES

I, Brad Sorensen, hereby certify that the view expressed in this research report accurately reflect my personal views about the subject securities and issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the recommendations or views expressed in this research report. I believe the information used for the creation of this report has been obtained from sources I considered to be reliable, but I can neither guarantee nor represent the completeness or accuracy of the information herewith. Such information and the opinions expressed are subject to change without notice.

INVESTMENT BANKING AND FEES FOR SERVICES

Zacks SCR does not provide investment banking services nor has it received compensation for investment banking services from the issuers of the securities covered in this report or article.
Zacks SCR has received compensation from the issuer directly, from an investment manager, or from an investor relations consulting firm engaged by the issuer for providing non-investment banking services to this issuer and expects to receive additional compensation for such non-investment banking services provided to this issuer. The non-investment banking services provided to the issuer includes the preparation of this report, investor relations services, investment software, financial database analysis, organization of non-deal road shows, and attendance fees for conferences sponsored or co-sponsored by Zacks SCR. The fees for these services vary on a per-client basis and are subject to the number and types of services contracted. Fees typically range between ten thousand and fifty thousand dollars per annum. Details of fees paid by this issuer are available upon request.

POLICY DISCLOSURES

This report provides an objective valuation of the issuer today and expected valuations of the issuer at various future dates based on applying standard investment valuation methodologies to the revenue and EPS forecasts made by the SCR Analyst of the issuer's business.
SCR Analysts are restricted from holding or trading securities in the issuers that they cover. ZIR and Zacks SCR do not make a market in any security followed by SCR nor do they act as dealers in these securities. Each Zacks SCR Analyst has full discretion over the valuation of the issuer included in this report based on his or her own due diligence. SCR Analysts are paid based on the number of companies they cover. SCR Analyst compensation is not, was not, nor will be, directly or indirectly, related to the specific valuations or views expressed in any report or article.

ADDITIONAL INFORMATION

Additional information is available upon request. Zacks SCR reports and articles are based on data obtained from sources that it believes to be reliable, but are not guaranteed to be accurate nor do they purport to be complete. Because of individual financial or investment objectives and/or financial circumstances, this report or article should not be construed as advice designed to meet the particular investment needs of any investor. Investing involves risk. Any opinions expressed by Zacks SCR Analysts are subject to change without notice. Reports or articles or tweets are not to be construed as an offer or solicitation of an offer to buy or sell the securities herein mentioned.

CANADIAN COVERAGE

This research report is a product of Zacks SCR and prepared by a research analyst who is employed by or is a consultant to Zacks SCR. The research analyst preparing the research report is resident outside of Canada, and is not an associated person of any Canadian registered adviser and/or dealer. Therefore, the analyst is not subject to supervision by a Canadian registered adviser and/or dealer, and is not required to satisfy the regulatory licensing requirements of any Canadian provincial securities regulators, the Investment Industry Regulatory Organization of Canada and is not required to otherwise comply with Canadian rules or regulations.
