Mine to help villagers get water

Desmond Boshego

WATERBERG mine's Platinum Group Metals and Capricorn District Municipality (CDM) will work together to end the water crisis in the Blouberg Municipality.

The inception of the new palladium-platinum-gold mine in the Blouberg Municipality will see the long-time water struggles of nearby villages relieved.

Both parties agreed on a five-year contract to work together on the water supply management during the signing of a Memorandum of Understanding in Polokwane last Tuesday.

Platinum Group Metals Vice President, Mlibo Mgudlwa, said they are proud to have entered into an agreement with CDM.

"We believe this will develop a water supply management plan to increase the water supply capacity for both the communities around the mine," said Mgudlwa.

"This public private partnership within the platinum group metals will benefit both the mine and the communities around the mining area."

He told *CV* the joint water venture resources has the requisite skills, expertise and resources to provide water supply solutions in the district.

"The district municipality has identified significant ground water resources proximal to the newly discovered Waterberg bulk minable palladium-platinum-

gold and rhodium project," he said.

"At the pre-feasibility stage, independent specialists identified sufficient water resources for both the mine and local communities."

Working together, he added, the parties can ensure the best value and use of the district water resources including for communities, businesses and the Waterberg mine.

"We see this as an important step in the development of a large scale palladium mine in the municipality to the benefit of all stakeholders including communities and all levels of government,"

Mgudlwa added.

CDM Mayor, John Mpe, said

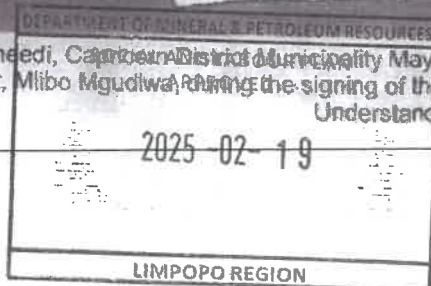

water is central to economic development and the sustenance of human life.

"Insufficient water supply poses a threat to economic development activities and investment," said Mpe. "We are pleased that Waterberg IV Resources (Pty) Ltd has strategically partnered with us to harvest water, not only for the benefit of their mining operations but also the local community."

Blouberg Municipality Mayor, Solomon Pheedi, said the inception of the new mine will not only assist with the water crisis but will also boost the municipality's economy. capvoice@nmgroup.co.za
